shown in Attitude Black Metallic with available power liftgate, moonroof, and Leather Package.
HYBRID XLE
shown in Clearwater Blue Metallic.
Camry has always been about more than just getting you to a destination. It’s been about how it can connect you to others and take you to places not always found on a map. The Camry Effect let owners share stories and talk about their love for their Camry – these cars had become a part of their life. In fact, over 90% of all Toyota Camrys sold over the last 10 years are still on the road today. Some would call that legendary. Some would say it’s time to take a break. We didn’t; we kept going. We think this is what makes the Camry so popular. The 2013 Camry continues to offer the high-end features, rewarding interior and impressive safety technology you have come to expect. We don’t believe in sitting still or compromising, and we know our drivers feel the same way. Let’s keep going together. 2013 Toyota Camry.

V6 shown in Black Sport fabric with Display Audio with Navigation¹ and Entune.²

XLE

V6 shown in ivory leather trim with available Premium HDD Navigation® with Entune® and JBL®.

1. See footnote 8 in Disclosures section. 2. See footnote 9 in Disclosures section.
Let’s make the interior of your car a place you want to spend some time: a space that is rewarding and enhances the driving experience. This is the inspiration behind the interior of every Camry. High-quality upholstery materials matched with refined stitching. A dashboard crafted with an attention to detail normally found in high-priced sedans. And on the XLE there are rich wood-grain-style accents. Let’s make every time you drive a little more exciting, and rewarding. It’s this type of dedication that makes Camry America’s best-selling car.

1. Based on manufacturer estimates, CY 2012 sales.
XLE interior shown with available Premium HDD Navigation™ with Entune® and JBL®.

1. See footnote 8 in Disclosures section. 2. See footnote 9 in Disclosures section.
We’re driving the automobile to new places.

Open up a world of possibilities with available technologies that inform, entertain and connect, plus navigation systems that give you turn-by-turn directions on a beautiful color touch-screen. Bluetooth® wireless technology that lets you make hands-free calls and answer the phone by pushing a button on the steering wheel. And Entune®, our multimedia system that allows your compatible mobile phone to make dinner reservations, buy movie tickets or listen to music — all from your driver’s seat.

Premium HDD Navigation®
An available 7-in. touch-screen display lets you access navigation, use your phone book and make hands-free calls. Also available for a trial period are SiriusXM Radio®, NavWeather™ and NavTraffic™ so you can listen to new music and podcasts, and get live updates on traffic and weather at your destination. Prefer your own tunes? Enjoy music from your personal library via a CD, DVD or MP3.

JBL® GreenEdge™ Audio System
Camry takes advantage of efficiencies wherever it can — and that goes for the audio system too. Using new, eco-conscious technologies, the available JBL® GreenEdge™ audio system delivers incredible sound with reduced power consumption.

Entune® Multimedia System
Make connecting to the important things in life easier than ever with available Entune®. It uses your compatible mobile phone and Bluetooth® wireless technology or a USB cable to access apps and services, and deliver them through the vehicle’s audio system. Once connected, you can access Pandora® and iHeartRadio for music, make restaurant reservations with OpenTable, and buy movie tickets with MovieTickets.com. Plus, get sports scores, stocks, traffic and weather—even a guide to the cheapest fuel. Visit www.toyota.com/entune for availability of apps and services.

1. See footnote 6 in Disclosures section. 2. See footnote 9 in Disclosures section. 3. See footnote 8 in Disclosures section. 4. See footnote 10 in Disclosures section.
FIRST-CLASS SEATING
In Camry, rear-seat comfort is just as important as front-seat comfort, so the shape of front seats are designed to allow for additional knee space for rear-seat passengers.

POSITIONED TO DRIVE
Adjustable a total of eight ways, Camry’s available power-adjustable driver’s seat gives you plush and fully customizable comfort.

XLE V6 interior shown in Ivory leather trim with available Premium HDD Navigation¹ with Entune² and JBL® Smart Key System³ and Safety Connect⁴.

¹. See footnote 8 in Disclosures section.
². See footnote 9 in Disclosures section.
³. See footnote 14 in Disclosures section.
⁴. See footnote 23 in Disclosures section.
A perfect blend of science and luxury.

Whether it’s interior space or interior noise, volume has got a lot to do with driving comfort. So our engineers found a variety of clever ways to increase interior volume where it matters most. They also reduced noise, vibration and harshness throughout the vehicle for a quieter ride. When you pay attention to small details like these, the result is a car that does more than transport — it transcends.

Room to Spare
Camry’s interior has a space for everything, including your personal space. Lower door panels allow more knee room up front, and the headliner is made to maximize head room. Sun visors are positioned to maximize forward visibility to make sure nothing blocks your view of the world outside. All of this adds up to a spacious-feeling interior.

Crafted Quiet
You hear that sound? We didn’t think you could. That’s because we’ve pinpointed areas where road and engine noise enter the cabin, and kept it out with sound-absorbing techniques that contribute to Camry’s whisper-quiet ride.

Ready Versatility
To help you transport longer items, such as skis or a new floor lamp, Camry’s 60/40 split fold-down rear seat drops to create a handy pass-through into the trunk.

Rewarding Luxury
Camry offers seats made with premium materials, a refined center stack and elegant stitching throughout the cabin.
Nothing helps steady the ride like a few bumps.

No, not the bumps on the road — those are easily handled by Camry’s independent suspension. The bumps we’re talking about are small, specially shaped bumps called vortex generators. Positioned at key points on the body, they help enhance control by smoothing airflow and reducing drag.

HOW DO VORTEX GENERATORS WORK?

As air flows over the surface of a moving vehicle, it tumbles over and under itself, creating drag that slows you down. Vortex generators change the path of the air before it can become turbulent, reducing drag and improving vehicle stability.
AERODYNAMIC FINs
The way air moves underneath a vehicle affects its performance and stability. Camry uses several broad panels on the undercarriage that feature aerodynamic fins for smoother airflow and reduced turbulence.

INDEPENDENT SUSPENSION
Part of the reason Camry rides and handles so well comes from its independent suspension system. It uses optimized shock absorber tuning for a ride that’s comfortable, yet controlled.

SE V6
Camry SE V6 comes with handsome 18-in. wheels wrapped in all-season low-profile tires for great handling year-round. These larger wheels are complemented by specially designed suspension components that are both strong and lightweight.
Get behind the wheel of Camry SE, and there will be no doubt about its intentions. A leather-trimmed steering wheel with paddle shifters. Sport fabric SofTex®-trimmed seats and silver interior trim. This is clearly a driver’s car — and while SE’s focus is on performance, its technologically advanced engine choices won’t make you pay extra at the pump. Add sport-tuned suspension to the mix, and you have an impressive blend of performance and efficiency.

**SE V6 Power**
An available 3.5-liter V6 produces a pulse-quickening 268 horsepower and 248 lb.-ft. of torque, while still achieving an EPA-estimated 31 highway mpg.¹ Paired with a 6-speed automatic transmission with sequential shift and paddle shifters, this powerplant delivers a driving experience that’s nothing short of exhilarating.

**Paddle Shifters**
Camry SE’s race-inspired paddle shifters deliver real hands-on performance with a manual gear selection feature. Pull the right paddle to upshift and the left one to downshift — the system will even match revs during downshifting for smoother gear transitions and better control.

**Sport Handling**
Handling dynamics typically involve the suspension — but in Camry SE, that’s only part of the story. With a quicker steering ratio and an optimized Electric Power Steering (EPS) system that offers greater sensitivity, Camry is ready for every corner.

**18-In. Alloy Wheels**
Standard on Camry SE V6, these boldly styled wheels not only look great, they’re also wrapped in low-profile all-season tires for improved handling.

---

1. See footnote 29 in Disclosures section.
SE 4-cylinder shown in Barcelona Red Metallic with available Display Audio with Navigation\(^1\) and Entune\(^2\).

---

1. See footnote 8 in Disclosures section. 2. See footnote 9 in Disclosures section.
We took America’s best-selling car and went even farther. How do you improve on America’s best-selling car? We started by adding our proven Hybrid Synergy Drive® system that offers an EPA-estimated 43 city mpg, 39 highway mpg and 41 combined mpg. In addition, Camry Hybrid’s proven combination of efficient gasoline engine and powerful electric motor produces 200 system net horsepower that makes for surprising acceleration.

1. Based on manufacturer estimates, CY 2012 sales, includes all Camry models. 2. See footnote 29 in Disclosures section.
EFFICIENCY EXPERTS
For more than a decade, Toyota has led the way in the development of eco-sensitive technology with our advanced Hybrid Synergy Drive® system.

ECO DRIVE LEVEL DISPLAY
Camry Hybrid’s gauges provide you with all the feedback you need to drive efficiently, which helps you tailor your driving habits accordingly.

1. Based on EPA-estimated 40 city mpg and 15.3 gallons of gas. Actual mileage will vary. Actual topography and road conditions are not taken into account. 2. See footnote 8 in Disclosures section. 3. See footnote 9 in Disclosures section.
ELECTRIC WATER PUMP
An electric water pump doesn’t require an engine-driven belt. This design not only improves efficiency, but also shortens engine warm-up time for reduced emissions.

LIGHTWEIGHT
By engineering vehicle components and using state-of-the-art materials, mass was reduced as much as possible.

BELTLESS ENGINE
Camry’s hybrid engine is completely free of engine drive belts. This design is not only more reliable, but also saves weight, reduces friction and helps improve fuel economy.

ADVANCED HYBRID ENGINE TECHNOLOGY
The engine in Camry Hybrid uses a variety of technologies that enhance performance and fuel economy. Like all Toyota engines, it uses four valves per cylinder and Variable Valve Timing with intelligence (VVT-i), a valve control system that optimizes engine efficiency throughout its operating range. But it also employs what is known as the Atkinson cycle, a method of controlling intake valve timing for reduced pumping losses. Add lightweight components and low-friction coatings, and the result is an eco-sensitive powerhouse that sacrifices nothing in the way of performance.

EFFICIENCY IN SPACE
You won’t find the hybrid battery unless you’re looking for it. That’s because it’s neatly packaged in an area ahead of the trunk but behind the seats, so it doesn’t take up usable space.
Higher blue-sky thinking. (The power of efficiency.)

High efficiency and low emissions aren’t the only measures of how far our hybrids have come. Camry Hybrid’s engine also produces 200 horsepower — that’s good for a 0-60 time of just 7.6 seconds. This performance is accomplished by producing less noise, vibration and harshness, further enhancing the refined driving experience Camry is known for.

1. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt.
We took a hard look at blind spots.

Being aware of what’s around you not only helps increase confidence, but safety as well. The 2013 Camry offers technologies like the available Blind Spot Monitor (BSM)\(^1,2\) with Rear Cross-Traffic Alert (RCTA)\(^3\) and an available backup camera.\(^4\)
AVAILABLE BLIND SPOT MONITOR (BSM)¹, ²
This year, Camry is available with a Blind Spot Monitor (BSM) featuring Rear Cross-Traffic Alert (RCTA). If BSM detects a vehicle in your blind spot, it illuminates a warning indicator on the appropriate sideview mirror to help you know when it’s safe to change lanes.

REAR CROSS-TRAFFIC ALERT (RCTA)³
RCTA works in a similar way to BSM, except that it alerts you to rear cross traffic with both visual and audible warnings. RCTA uses radar to detect vehicles that may be approaching from either direction as you back out of a parking space.

With help from our 24/7 call center, available Safety Connect® offers subscribers helpful features such as Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance and Automatic Collision Notification. Safety Connect® also offers the reliability of embedded cellular and GPS technology.

AVAILABLE SMART KEY SYSTEM⁵
Smart Key is a wonderful convenience. When you approach Camry with the Smart Key fob in your pocket or purse, the interior illuminates automatically; the doors unlock when you touch either front door handle; the trunk opens with the touch of its handle; and the engine starts with the push of a button.

AVAILABLE BACKUP CAMERA⁶
When backing up, the area behind Camry that’s visible to the camera is displayed on the touch-screen of the audio system’s display.

¹. See footnote 24 in Disclosures section. ². Available on XLE and Hybrid XLE models only. ³. See footnote 25 in Disclosures section. ⁴. See footnote 23 in Disclosures section. ⁵. See footnote 14 in Disclosures section. ⁶. See footnote 13 in Disclosures section.
Prepared for any circumstance.

Camry comes standard with a comprehensive airbag system equipped with ten airbags. The system includes both driver and front passenger airbags, front and rear side curtain airbags, front and rear seat-mounted side airbags, and both driver and front passenger knee airbags.

We equipped Camry with an array of active safety systems to help keep you out of harm’s way and passive safety systems to help protect you should a collision occur.

STAR SAFETY SYSTEM™

Toyota’s Star Safety System™ is an advanced suite of six safety features included as standard equipment on every Camry. The system includes Enhanced Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA), and Smart Stop Technology® (SST).

SMART STOP TECHNOLOGY® (SST)

At speeds greater than five miles per hour, when the accelerator is depressed first and the brakes are then applied firmly for longer than one-half second, SST is designed to help the driver bring the vehicle to a stop.

1. See footnote 19 in Disclosures section. 2. See footnote 20 in Disclosures section. 3. See footnote 17 in Disclosures section. 4. See footnote 18 in Disclosures section.
CRUMPLE ZONES
An important element of occupant protection, crumple zones are structurally engineered to absorb and dissipate energy in the event of a collision by a process known as controlled deformation.

DRIVER AND FRONT PASSENGER WHIPLASH-INJURY-LESSENING (WIL) SEATS
Camry’s front seats are engineered to yield in a controlled fashion in certain rear-end collisions, helping to reduce the risk of neck injuries.

LATCH
LATCH (Lower Anchors and Tethers for CHildren) provides an added measure of safety for the smaller members of your family. LATCH includes lower anchors on the outboard rear seats and tether anchors on all rear seats.

TIRE PRESSURE MONITOR SYSTEM (TPMS)
Proper tire pressure is always important for safe driving. TPMS evaluates the pressure of the tires and issues a warning if the pressure becomes critically low.

3-POINT SEATBELTS
Camry provides 3-point seatbelts for all seating positions. The front seats are also equipped with the added safety of pretensioners and force limiters.

Photo not intended to replicate actual inflated airbags.

**FOCUS ON SUSTAINABILITY**

Toyota encourages their partners to embrace environmentally responsible business practices. Toyota brochures use paper from well-managed forests, as certified by FSC® (Forest Stewardship Council™) chain-of-custody guidelines. The electricity used to manufacture this paper was generated by the paper mill's own Green-e® certified renewable energy sources. Wind-powered electricity was used to print some brochures through purchased REC (renewable energy credits), also Green-e® certified.

SAFETY AND CONVENIENCE

Star Safety System™— includes Enhanced Vehicle Stability Control (VSC), Traction Control (TRAC), 4-wheel Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology® (SST).

Ten airbags— includes driver and front passenger Advanced Airbag System, driver and front passenger seat-mounted side airbags, driver and front passenger knee airbags, rear seat-mounted side airbags, and front and rear side curtain airbags.

Driver and front passenger Whiplash-Injury-Lessening (WIL) seats.

3-point seatbelts for all seating positions; driver-side Emergency Locking Retractor (ELR) and Automatic/Emergency Locking Retractor (ALR/ELR) on all passenger seat belts.

LATCH (Lower Anchors and Tethers for Childen) includes lower anchors on outboard rear seats and tether anchors on all rear seats.

Child-protector rear door locks and power window lockout control.

See numbered footnotes in Disclosures section.

**Toyota Financial Services**

Toyota helps you get more out of every dollar you spend. By rewarding you for every purchase you make, the Toyota Rewards Visa® adds even more value to doing the things you love. Turn everything you buy into points to redeem toward parts, accessories or an eligible vehicle purchase or lease at your Toyota dealer. Earn 5 points for every $1 spent at participating Toyota dealers and 1 point for every $1 spent everywhere else Visa is accepted.* Visit www.toyotarewardsvisa.com for complete details.

Toyota Financial Services (TFS) is a leading provider of automotive financial services, offering an extensive line of financing plans along with a variety of vehicle and payment protection products to Toyota customers and dealers in the U.S. For more information on TFS products and services, visit www.toyotafinancial.com

*On approved credit. You must have a valid permanent home address in the 50 United States or the District of Columbia. Terms, conditions and restrictions apply and are fully described in the Toyota Rewards Visa Cardmember Agreement and the Toyota Rewards Program Terms and Conditions received with your card. Points-earning maximums apply and points will expire as described in the Rewards Terms and Conditions. Redemption only available at participating Toyota dealerships in the continental U.S. and Alaska. Points cannot be redeemed for cash. Please contact your participating Toyota dealer for information regarding restrictions your dealer may impose on the use of credit cards related to vehicle purchases or leases. The creditor and issuer of the Toyota Rewards Visa is Toyota Financial Savings Bank. Toyota Financial Services is a service mark used by Toyota Financial Savings Bank.

†Toyota Financial Services is a service mark for Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc.

### IGNITION SYSTEM
- Electronic, with Toyota Direct Ignition (TDI)

### EMISSION RATING
- Ultra Low Emission Vehicle II (ULEV-II)

### TRANSMISSION
- 6-speed Electronically Controlled automatic Transmission with intelligence (ECT-i) and sequential shift mode (SE model adds paddle shifters)

### DRIVETRAIN
- Front-Wheel Drive

### BODY CONSTRUCTION
- Unitized body with front and rear anti-vibration sub-frames

### SUSPENSION
- MacPherson strut front suspension with gas-filled shock absorbers and stabilizer bar; dual-link independent MacPherson strut rear suspension with gas-filled shock absorbers and stabilizer bar (SE model adds sport-tuned shock absorbers, springs and solid stabilizer bar)

### STEERING
- Electric Power Steering (EPS); power-assisted rack-and-pinion

### BRAKES
- Power-assisted ventilated 11.65-in. front disc brakes; solid 11-in. rear disc brakes with hydraulic brake booster, Electronically Controlled Braking (ECB) system and Star Safety System™

### EXTERIOR DIMENSIONS (in.)
- Overall height, unloaded: 57.9
- Overall width: 71.7
- Overall length: 189.2
- Wheelbase: 109.3
- Ground clearance: 6.1
- Track (front/rear): 62.4/62.0
- Coefficient of drag (Cd): 0.28

### INTERIOR DIMENSIONS (front/rear) (in.)
- Head room without moonroof: 38.8/38.1
- Shoulder room: 58.0/56.6
- Hip room: 54.5/54.5
- Leg room: 41.6/38.9

### WEIGHTS AND CAPACITIES
- Curb weight (lb.): 3190
- EPA passenger volume (cu. ft.): 102.7
- Cargo volume: 15.4
- Fuel tank (gal.): 17.0
- Seating capacity: 5

### TIRES
- Type: All-Season
- Spare: Temporary

### MILEAGE ESTIMATES (mpg city/highway/combined)**
- 25/35/28

**IGNITION SYSTEM**
- Electronic, with Toyota Direct Ignition (TDI) Standard

**EMISSION RATING**
- Advanced Technology Partial Zero Emission Vehicle (AT-PZEV) Standard

**ELECTRIC MOTOR**
- Motor Type: Permanent magnet AC synchronous motor
- Voltage: 650V maximum

**TRACTION BATTERY**
- Type: Sealed Nickel-Metal Hydride (Ni-MH) Standard
- Voltage: 244.8V maximum

**TRANSMISSION**
- Electronically controlled Continuously Variable Transmission (ECVT) Standard

**DRIVETRAIN**
- Front-Wheel Drive Standard

**BODY CONSTRUCTION**
- Unitized body with front and rear anti-vibration sub-frames Standard

**SUSPENSION**
- MacPherson strut front suspension with gas-filled shock absorbers and stabilizer bar; dual-link independent MacPherson strut rear suspension with gas-filled shock absorbers and stabilizer bar

**STEERING**
- Electric Power Steering (EPS); power-assisted rack-and-pinion Standard
- Turning circle diameter, curb to curb (ft.) 36.7

**BRAKES**
- Power-assisted ventilated 11.65-in. front disc brakes; solid 11-in. rear disc brakes with hydraulic brake booster, Electronically Controlled Braking (ECB) system, integrated regenerative braking and Star Safety System™
- Track (front/rear) 62.4/62.0
- Coefficient of drag (Cd) 0.27

See numbered footnotes in Disclosures section.
1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. 2. See Packages and Options section for availability, details and requirements. 3. V6 only. May not be compatible with all mobile phones, MPS/WMA players and like models. 4. iPod® is a trademark of Apple Inc. All rights reserved. 5. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. Other trademarks and trade names are those of their respective owners. The Bluetooth® wireless technology phones listed on toyota.com have been tested for compatibility with Toyota vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Toyota. 6. Toyota. 7. c-4. only. Availability and accuracy of the information provided by the navigation system or any XM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic navigation updates available at additional cost. See your Navigation System Owner’s Manual or contact XM for details. 8. Always drive safely, obey traffic laws and focus on the road while driving. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps identified by “TM” or “®” are trademarks or registered trademarks of their respective owners. For enrolment, cost and more details, see toyota.com/entune. If you decide to continue your XM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 10. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S.A. and Foreign Patents. HD Radio™, the HD Radio™ logo, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. 11. SiriusXM® Powerplay is a service that delivers full-size, live satellite radio stations to your vehicle as well as on-demand music and audio entertainment. 12. SiriusXM® is a registered trademark of SiriusXM Radio Inc. All rights reserved. 13. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 14. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 15. CAUTION! When driving a hybrid vehicle, pay special attention to the area around the vehicle. Because there is little vehicle noise in electric-only mode, pedestrians, people riding bicycles or other people and vehicles in the area may not be aware of the vehicle starting off or approaching them, so take extra care while driving. 16. HomeLink® is a registered trademark of Johnson Controls, Inc. 17. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver input can all affect whether VSC will be effective in preventing a loss of vehicle control. Please see your Owner’s Manual for further details. 18. The Airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions; frontal and knee ABs typically inflate in front collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger collision. The force of an inflating AB may cause serious injury or death. See your Owner’s Manual for further information/warnings. 19. Whiplash-Injury-Lessening front seats can help reduce the severity of whiplash injury in certain rear-end collisions. 20. The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and appearance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your Owner’s Manual for details. 21. Available on select Toyota models. Contact with the Safety Connect® response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map database, your plan and/or any other factors. Signal strength, accuracy, transmission service, availability, and/or some or all of the safety-related services may be limited to the U.S. in certain conditions. One-year trial subscription available only with new vehicle purchase of Safety Connect®-equipped vehicles. Additional subscription terms are available at www.safetyconnect.com. 22. Do not rely exclusively on the Blind Spot Monitor to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are several limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, please see the Owner’s Manual. 23. Do not rely on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. 24. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key, it can be costly to replace. If you lose a key, your Toyota dealer can help, or you can find a qualified independent locksmith to replace your key or perform high-security key services at www.aloa.org 25. In certain areas, 4-cylinder models are equipped as Partial Zero Emission Vehicles (PZEV), Equipment causes nominal reduction in horsepower (from 178 hp to 173 hp) and torque (from 170 lb.-ft. to 165 lb.-ft.). For Camry 4-cylinder models certified as Partial Zero Emission Vehicles (PZEV), emissions components are covered for 15 years or 150,000 miles, whichever occurs first, for performance or defect. For Camry 4-cylinder models certified as Partial Zero Emission Vehicles (PZEV), all emissions components are covered for 15 years or 150,000 miles, whichever occurs first, for performance or defect. For Camry 4-cylinder models certified as Partial Zero Emission Vehicles (PZEV), emissions components are covered for 15 years or 150,000 miles, whichever occurs first, for performance or defect. 26. Cargo and load capacity limited by weight and distribution. 29. 2013 EPA-estimated mileage. Actual mileage will vary. 30. AT-PZEV rated by the California Air Resources Board. Meets Tier-2/Bin-3 Federal emissions standard. 31. Hybrid vehicle battery expected life is 150,000 miles based on laboratory bench testing.
