

"Toyota lovers are waiting for the Supra. I think we need a Supra story again."

- Akio Toyoda, President, Toyota Motor Corporation

SP)

Toyota Gazoo Racing

Pushing the limits for Better

Passion fuels innovation, and it's our passion for motorsport that fuels GAZOO Racing, Toyota's global in-house racing division. Racing gives us the opportunity to challenge ourselves — to find what works and fix what doesn't. Collectively, we grow through every turn of the wrench and every turn of the wheel. This dedication to growth has helped us earn wins in the FIA World Rally Championship, class wins in the ultra-punishing Dakar Rally and back-to-back wins at Le Mans. Looking to 2020 and beyond, GR Supra and Toyota GAZOO Racing will take on the world's best in GT4 racing and Formula Drift.

FIA WORLD ENDURANCE CHAMPIONSHIP

With endurance racing events all across the globe, the FIA World Endurance Championship pushes drivers, cars and their teams to their absolute limits. Toyota GAZOO Racing's highly advanced TS050 Hybrid race cars pushed through these challenges to secure the overall win in the 2018-2019 LMP1 World Endurance Championship.

FIA WORLD RALLY CHAMPIONSHIP

One of the most punishing racing series in the world, World Rally Championship (WRC) sees production-based race cars fly through the air, scramble over gravel and slide through tree-lined snowdrifts. Our passion to be the best helped Toyota GAZOO Racing take home the WRC 2018 Manufacturers' Title.

The story of Supra.

With DNA sourced directly from the legendary 2000 GT, each and every Supra has shared the same core fundamentals: a powerful engine up front, Rear-Wheel Drive and a modern chassis. As Toyota's purest expression of performance, Supra has redefined the sports car time and time again.

A40 (1978-1981)

The Supra story starts with the Celica, which provided the base for the original first-gen Toyota Celica Supra (A40) in 1978. Using the Celica Liftback as a starting point, Toyota engineers lengthened the chassis, dropped in an advanced inline 6-cylinder engine and incorporated the latest in comfort and technology to create a true grand tourer.

ENGINE: 2.8-LITER 5M-E POWER: 116 HP/145 LB.-FT. OF TORQUE 0-60: 10.2 SECONDS

A60 (1982-1985)

The crisp lines and pop-up headlights of the second-generation (A60) Supra only amplify its stunning '80s aesthetic. Still an upgraded version of the era's Celica, the A60 was offered in two flavors: the luxurious "L-type" and the performanceminded "P-type." With its larger wheels and tires, bulging fiberglass flares and optional aero, the P-type would lay the groundwork for Supra's dedication to pure performance.

ENGINE: 2.8-LITER 5M-E POWER: 161 HP/169 LB.-FT. OF TORQUE 0-60: 8.4 SECONDS

A70 (1986-1993)

Supra became a stand-alone model with the introduction of the third generation in 1986. This clean-sheet design allowed Toyota engineers to build the car from the ground up with pure performance in mind. The A70 was a showcase of technology and was the first Supra to feature a turbocharged engine, power-enhancing variable air induction and electronically adjustable dampers.

ENGINE: 3.0-LITER 7M-GTE POWER: 232 HP/254 LB.-FT. OF TORQUE 0-60: 6.4 SECONDS

A80 (1993-1998)

Sports car. Icon. Pop-culture phenomenon. The fourth-generation A80 Supra is all that and more. An artful blend of style, technology and performance, the A80 is truly a timeless machine, feeling as fresh and modern today as it did when first introduced in 1993. With its nearly perfect weight balance, impressive 2JZ engine and unmistakable styling, the A80 Supra will forever be legendary.

ENGINE: 3.0-LITER 2JZ-GTE POWER: 320 HP/315 LB.-FT. OF TORQUE 0-60: 4.6 SECONDS

POWER INCREASE

3.0 Premium shown in Absolute Zero. Prototype shown with options.

See numbered footnotes in Disclosures section.

3.0-LITER TURBOCHARGED INLINE-SIX

The fire-breathing heart of GR Supra 3.0, 3.0 Premium and A91 Edition is its signature turbocharged 3.0-liter inline 6-cylinder engine. Freshly retuned, it now produces an uprated 382 horsepower,³⁶ and it twists out an impressive 368 lb.-ft. of torque.

The ultimate street fighter.

The GR Supra A91 Edition is the perfect blend of style and exclusivity. Forged-aluminum matte-black 19-in. alloy wheels come standard, as do genuine carbon-fiber mirror caps, satin-black accent graphics and an available black-painted satin-finish carbon-fiber duckbill rear spoiler.

(9)

A91 EDITION

HARMONIOUS DESIGN, INSIDE AND OUT

Matching the exterior themes of blue and black, the interior of GR Supra A91 Edition features Black leather-trimmed surfaces accented by blue stitching. This unique color scheme carries forward to the seating surfaces, where the Black Alcantara^{®4} is perforated to reveal a subtle layer of Blue.

See numbered footnotes in Disclosures section.

Dreams of speed start here.

GR Supra 2.0 is the first-ever Supra to feature a powerful turbocharged 2.0-liter inline-four. And with its 255 horsepower³⁶ and 295 lb.-ft. of torque, this engine packs a serious punch. But that's not all: A unique cat-back exhaust has been tuned to match the specific performance characteristics of this turbocharged powerplant. And the perfectly matched 18-in. split-spoke alloy wheels come wrapped in super-sticky Michelin[®] Pilot[®] Super Sport rubber² for ultimate control.

Compact and lightweight, the dimensions of GR Supra 2.0's powerplant allow it to sit far back in the engine bay for a near-perfect weight balance.

8

GR

Beautifully engineered.

A sports car should be captivating, with a design that feels as alluring as it does powerful. We made no compromises with GR Supra's design; each and every aspect is defined by its contribution to overall driving performance. Its silhouette stirs all the right emotions, with generous curves and daring shapes that excite the senses. That it all comes together in a package that provides an optimum coefficient of drag and excellent downforce means that GR Supra is no mere sports car — it's a work of art.

Professional drivers on closed course. Do not attempt. **3.0 Premium** shown in Renaissance Red 2.0, Nocturnal, Nitro Yellow⁴² and Absolute Zero. Prototypes shown with options.

3.0-LITER TURBOCHARGED INLINE-SIX

PERFORMANCE/HANDLING/POWERTRAIN

382 horsepower.³⁶ 368 lb.-ft. of torque. One engineering marvel. The fire-breathing heart of GR Supra is its signature 3.0-liter inline 6-cylinder engine. Smart technologies like a twin-scroll turbocharger, Variable Valve Timing and electric wastegate ensure that this engine provides plenty of power, instant response and one glorious exhaust note.

NORMAL AND SPORT DRIVING MODES

Mannan M

Because daily driving isn't an exercise in maximum attack, GR Supra offers Normal and Sport driving modes. Normal Mode is perfect for your commute, offering a smooth ride, easy handling and effortless shifting. Pressing the button to activate Sport Mode transforms GR Supra into a true track-dominating beast, punctuated with a deeper, meaner exhaust rumble. All of GR Supra's senses heighten, giving you more instant response and a whole lot more adrenaline.

Eight times the excitement.

GR Supra's 8-speed automatic transmission is compact, lightweight and strong. Its placement has been precisely calculated to help optimize the overall center of gravity, and its components are robust enough to welcome the ferocity of 368 turbocharged pound-feet of torque. Intelligent computer control and precise gearing also ensure that this transmission works in perfect harmony with the engine to deliver explosive acceleration and maximum power to the road.

9

UNDERBODY AERODYNAMICS

A flat surface designed to help with flat-out performance. All GR Supras feature a specially crafted flat undercover that has been engineered to help reduce aerodynamic lift when driving at speed. Air that finds its way underneath GR Supra is redirected via carefully crafted channels and spats, helping this sports car feel stable and planted at speed.

AVAILABLE ADAPTIVE VARIABLE SUSPENSION

GR Supra's cutting-edge Adaptive Variable Suspension (AVS) "reads" the road a hundred times per second, allowing this sports car to transform from comfortable cruiser to track bruiser and back again — almost instantaneously. Each individual shock is able to stiffen and soften as needed, helping to maximize each tire's contact patch.

AVAILABLE BREMBO®40 BRAKES

Brembo[®] is one of the leading names in high-performance brake components, and their brakes are a perfect match for GR Supra. Standard on GR Supra 3.0, 3.0 Premium and A91 Edition, 4-piston Brembo[®] front brake calipers work in tandem with two-piece 348-mm. vented disc rotors to provide firm, predictable and consistent braking force.

Red-painted calipers with silver Toyota Supra logo only available on 3.0 Premium and A91 Edition. See numbered footnotes in Disclosures section.

19-IN. FORGED-ALLOY WHEELS

Here's where the rubber meets the road. GR Supra's 19-in. wheels are constructed from forged billet aluminum, offering lighter weight, greater strength and enhanced performance when compared with traditional cast-aluminum wheels. These wheels are wrapped in Michelin® Pilot® Super Sport tires³ to help further optimize acceleration, cornering and braking capabilities.

3.0 Premium shown in Renaissance Red 2.0. Prototype shown with options.

See numbered footnotes in Disclosures section-

A true apex predator.

Engine up front. Power to the back. It's a tried-and-true formula, and it's key to the feeling of GR Supra. But there's more to GR Supra than its front/rear packaging. By utilizing new technologies, clever engineering and smart use of aluminum, we were able to create a chassis that is incredibly stiff, light and strong. The result is a sports car that responds to every minute input, reading both your mind and the road, so you can devour those corners.

ELECTRONICALLY CONTROLLED REAR DIFFERENTIAL

GR Supra features an electronically controlled rear differential for maximum stability and performance. Sensors look at wheel speed, engine rpm, yaw rate, brake pressure, throttle opening angle and steering angle information and send this data to a main processor. In an instant, this processor takes this data and activates a multi-plate clutch, which can control the locking ratio between both wheels from 0 to 100 percent. For you, this means you can control your driving line with millimeter precision.

3.0 Premium shown in Phantom⁴² 19-in. forged-alloy wheels and electronically controlled rear differential included on 3.0, 3.0 Premium and A91 Edition. Prototype shown with options.

Supre

(1)

As functional as it is striking, GR Supra's rear fascia houses an aerodynamically tested rear diffuser, twin 90-mm. exhaust tips and a race-car-inspired reverse light cluster.

EXTERIOR/DESIGN

DOUBLE-BUBBLE ROOF

Inspired by the classic Toyota 2000 GT, GR Supra features a unique double-bubble roof. Its design allows for more head room inside, while also optimizing airflow and reducing drag outside.

3.0 Premium shown in Phantom⁴² Prototype shown with options.

EXTERIOR/DESIGN

AN ICONIC BADGE

An update of a classic, and inspired by the Wehrseifen section of the legendary Nürburgring, the iconic Supra logo can be found on the back of every 2021 GR Supra.

3.0 Premium shown in Phantom⁴² Prototype shown with options.

LED HEADLIGHTS

GR Supra's sculpted front end is punctuated by its signature headlights. Each housing features a two-level 6-lens LED light cluster for optimum brightness and clarity. Automatic High Beams (AHB)³⁰ come standard, for an optimum blend of safety and style.

MANANANAN

Where sport meets comfort.

The 2021 GR Supra's interior is the ideal blend of form, function and beauty. Designed with the driver in mind, this cockpit features a number of inspired touches to help you get the most out of every drive. Deeply bolstered sport seats match up with console-mounted side knee padding to ensure you're comfortably in place, no matter the tightness of the turn.

INTERIOR

SPORT SEATS

GR Supra's seats are designed for maximum hold, offering deep side bolsters and high-grip material to keep you upright when the roads get sideways. Available 14-way power adjustment helps you find that perfect driving position. Available leather trim and two-stage heating features also ensure that these sport seats help keep you feeling comfortable on any drive.

DIGITAL DISPLAY

An 8.8-in. high-resolution display rests in GR Supra's gauge pod. A three-dimensional tachometer sits prominently in the center, showing not only engine speed, but also current gear selection and suggested driving gear. It's flanked by displays that can be customized to show current speed, current entertainment selection, navigation and other key driving info.

SPORT STEERING WHEEL

Taking hold of your dreams starts here. GR Supra features a leatherwrapped tilt/telescopic steering wheel for quick response and easy controllability. Steeringcolumn-mounted paddle shifters give you even more control over GR Supra's power.

3.0 Premium interior shown in Black leather trim. Prototype shown with options.

An intelligent connection between car and driver.

The tech found inside GR Supra is just as advanced as its engineering. All GR Supra grades feature an 8.8-in. high-resolution display to let you take command. GR Supra 3.0 Premium and A91 Edition also come standard with wireless Apple CarPlay^{®15} compatibility, integrated navigation¹⁴ and 12 tuned JBL^{®11} speakers, for the ultimate driving soundtrack.

QI-COMPATIBLE WIRELESS CHARGING²⁴

No charging cable? No problem. Supra's cabin is available with Qicompatible wireless smartphone charging. Just place your Qicompatible smartphone onto the nonslip surface and charge up wirelessly.

SUPRA COMMAND

The Supra Command dial gives you access to GR Supra's key multimedia features. Its available touch-sensitive surface lets you use your fingers to write in addresses for the navigation system¹⁴ and zoom in and out of the map. Selecting between functions is as simple as a twist and press of the dial.⁴³ Genuine carbon-fiber accents bring additional sports-car cred to this intuitive piece of tech.

It's not just the performance that's advanced.

GR Supra is equipped with the latest safety technologies, including Lane Departure Warning with Steering Assist (LDW w/SA),²⁹ Pre-Collision System²⁷ with Pedestrian Detection²⁸ (PCS w/PD), Automatic High Beams (AHB)³⁰ and Speed Limit Information.⁴⁴

0

AVAILABLE BLIND SPOT MONITOR (BSM)⁴⁵ WITH REAR CROSS-TRAFFIC ALERT (RCTA)⁴⁶

SAFETY

When the Blind Spot Monitor detects a vehicle, it illuminates a warning indicator on the appropriate sideview mirror to help let you know when it's safe to change lanes. And when you slowly back out of a driveway or parking spot, Rear Cross-Traffic Alert is designed to provide audible and visual indicators to warn you of approaching vehicles.

AVAILABLE FRONT AND REAR PARKING SENSORS⁴⁷

When you're parking, the available sensors on the front and rear of GR Supra scan for walls, curbs and other objects that might be hidden from your view. Audio and visual cues are sent to the cabin, helping to take some of the guesswork out of parking.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags). Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live.

DISCLOSURES

1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print). 2. 18-in. performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy or 20,000 miles, depending on driving conditions. 3. 19-in. performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy or 20,000 miles, depending on driving conditions. 4. Alcantara® is a registered trademark of Alcantara S.p.A. 5. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 6. Rated for 12 yolts. See Owner's Manual for additional limitations and details. 7. May not be compatible with all mobile phones, MP3/WMA players and like models. 8. Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area. 9. The engine immobilizer is a state-of-the-art anti-theft system that is initiated when you insert your key into the ignition switch or bring a Smart Key fob into the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. The transponder chip is embedded in the key/fob and can be costly to replace. If you lose a key or fob, your Toyota dealer can help or go to www.aloa.org to find a gualified locksmith in your area who can perform high-security key service. 10. Hill Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 11. JBL® is a registered trademark of Harman International Industries. Inc. 12. SiriusXM® audio services require a subscription sold separately by Sirius XM Radio Inc. If you decide to continue service after your trial. the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusXm.com. All fees and programming subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Current information and features may not be available in all locations, or on all receivers. ©2020 Sirius XM Radio Inc. Sirius XM and all related marks and logos are trademarks of Sirius XM Radio Inc. 13. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 14. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Includes a 4-year trial period. Enrollment in paid subscription required upon expiration of trial period. Service depends on an operative telematics device, a cellular connection, navigation map data and GPS signal strength, and other factors, all of which can limit service functionality or availability. Service not available in every city or roadway. Use common sense when relying on information provided. Service subject to change at any time without notice. For service details and limitations, see your Navigation System Owner's Manual or supraconnect.com. 15. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Apps and services are subject to change at any time without notice. Data charges may apply. Apple CarPlay® is a registered trademark of Apple Inc. 16. Voice recognition capabilities vary by head unit. 17. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Includes a 4-year trial period, except Enhanced Roadside Assistance, which is a 2-year period. Enrollment in a paid subscription required upon expiration of trial period. Services are dependent upon an operative telematics device, a cellular connection, navigation map data, GPS signal strength, and other factors, all of which can limit system functionality or availability, including access to response center and emergency support. Stolen vehicle police report required for use of Stolen Vehicle Recovery. Apps and services subject to change at any time without notice. Data charges may apply. For service details and limitations, see your Owner's Manual or supraconnect.com, and to learn about Supra Connect data collection, use, sharing and retention practices, visit Supra Connect Terms & Conditions. 18. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Includes a 4-year trial period. Enrollment in paid subscription required upon expiration of trial period. Service depends on an operative telematics device, a cellular connection, GPS signal strength, and other factors, all of which can limit service functionality or availability, including access to response center and emergency support. Service subject to change at any time without notice. For service details and limitations, see your Owner's Manual or supraconnect.com. To learn about Supra Connect data collection, use, sharing and retention practices, please visit Supra Connect Terms & Conditions. 19. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Includes 2 years for Roadside Assistance. Enrollment in paid subscription required upon expiration of trial period. Services depends on an operative telematics device, a cellular connection, and other factors, all of which can limit system functionality or availability. Roadside Assistance does not include parts and fluids, except emergency fuel delivery. Services may vary by region and are subject to change at any time without notice. Data charges may apply. For service details and limitations, see your Owner's Manual or www.supraconnect.com. 20. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Includes a 4-year trial period. Enrollment in a paid subscription is required upon expiration of trial period. Navigation must be functioning, and destination entered for service to function. Service depends on an operative telematics device, a cellular connection, GPS signal strength, and other factors, all of which can limit system functionality or availability. Services not available in every city or roadway. Use common sense when relying on information provided. Service subject to change at any time without notice. For service details and limitations, see your Navigation System Owner's Manual or supraconnect.com. 21. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Includes a 4-year trial period. Map updates based on your current North American region. If you relocate to a new region, the user region will be updated automatically after 45 days in that region. You can also visit your Supra dealer to have your map data manually updated, which may be at an additional cost to you. Map updates unavailable upon the expiration of the trial period, after which enrollment in a paid subscription is required, which provides up to 4 map updates per year. Service subject to change at any time without notice. Data charges may apply. For service details and limitations, see your Navigation System Owner's Manual. 22. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Includes a 4-year trial period. Enrollment in paid subscription required upon expiration of trial period. Service depends on an operative telematics device, a cellular connection, navigation map data, GPS signal strength, and other factors, all of which can limit service functionality or availability, including access to response center and emergency support. Service subject to change at any time without notice. For service details and limitations, see your Owner's Manual or supraconnect.com. 23. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package, 3.0 Premium and A91 Edition. Apps available only on iOS devices, vary by phone carrier, and are subject to change at any time without notice. Data charges may apply. See supraconnect.com for details. 24. Qi wireless charging may not be compatible with all mobile phones. MP3/WMA players and like models. When using the wireless charging system, avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns. 25. Airbag systems are Supplemental Restraint Systems and are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details. 26. When the system is on, Electric Parking Brake is designed to engage the Parking Brake under limited conditions. It may not hold the vehicle under all conditions. See Owner's Manual for additional limitations and details. 27. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 28. The Pedestrian Detection system is designed to detect a pedestrian or bicyclist ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrian or bicyclist, and weather, light and road conditions. See Owner's Manual for additional limitations and details. 29. Lane Departure Warning with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual and audible alert, and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for

DISCLOSURES (continued)

additional limitations and details. 30. Automatic High Beams are activated under specific conditions. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner's Manual for additional limitations and details. 31. The backup camera does not provide a comprehensive view of the rear area of the vehicle and you should also look around the vehicle, using mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner's Manual for additional limitations and details. 32. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 33. Brake Assist is designed to help the driver take advantage of ABS and is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner's Manual for additional limitations and details. 34. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner's Manual for additional limitations and details. 35. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 36. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher for GR Supra 2.0, and an octane rating of 93 or higher for GR Supra 3.0. If premium fuel is not used, performance will decrease. 37. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 (AKI) or higher. If premium fuel is not used, performance will decrease. If unleaded gasoline with an octane rating of 91 (AKI) is not available, unleaded gasoline with an octane rating of 89 (AKI) may be used. See Owner's Manual for details. 38. Ratings achieved using the required premium unleaded gasoline with an octane rating of 93 (AKI) or higher. If premium fuel is not used, performance will decrease. If unleaded gasoline with an octane rating of 93 (AKI) is not available, unleaded gasoline with an octane rating of 89 (AKI) may be used. See Owner's Manual for details. 39. Launch Control is not intended for use on public roads or for repeated short-interval use. See Owner's Manual for additional limitations and details. 40. Brembo® is a registered trademark of Freni Brembo SpA. High-friction brakes may require additional maintenance, be louder and have a shorter life than conventional brakes, depending on driving conditions. See the Warranty and Services Guide for more information. 41. EPA-estimated 22 city/30 hwy/25 combined mpg for 2021 GR Supra 3.0, 3.0 Premium and A91 Edition; EPA-estimated 25 city/32 hwy/28 combined mpg for 2021 GR Supra 2.0. Use for comparison purposes only. Your mileage will vary for many reasons, including your vehicle's condition and how/where you drive. See www.fueleconomy.gov. 42. Extra-cost color. 43. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. 44. Do not rely exclusively on the Speed Limit Information (SLI) feature. SLI provides information to the driver when data is available. Effectiveness is dependent on many conditions. Use common sense when using SLI and follow posted speed limit signs. See Owner's Manual for additional limitations and details. 45. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details. 46. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See Owner's Manual for additional limitations and details. 47. The Parking Sensors system is designed to assist drivers in avoiding potential collisions at very slow speeds. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the Parking Sensors system to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See Owner's Manual for additional limitations and details. 48. ToyotaCare covers normal factory scheduled maintenance for two years or 25,000 miles, whichever comes first. Certain models require a different maintenance schedule as described in their Maintenance Guide. 24-hour Roadside Assistance is also included for two years, unlimited mileage. Roadside Assistance does not include parts and fluids, except emergency fuel delivery. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska. 49. Dynamic Radar Cruise Control (DRCC) is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors including road, weather and traffic conditions. See Owner's Manual for additional limitations and details. 50. Available on GR Supra 2.0 and 3.0 w/Safety and Technology Package. 3.0 Premium and A91 Edition. Includes a 4-year trial period. Enrollment in paid subscription required upon expiration of trial period. Services depend on an operative telematics device, a cellular connection. GPS signal strength, and other factors, all of which can limit system functionality or availability. Services subject to change at any time without notice. Data charges may apply. For service details and limitations, see your Owner's Manual or supraconnect.com, and to learn about Supra Connect data collection, use, sharing and retention practices, please visit Supra Connect Terms & Conditions. 51. Genuine Toyota Paint Protection Film by 3M^M is designed for specific sections of the vehicle most prone to chipping and may vary depending on vehicle model. Select applications may require an additional charge. Toyota Genuine Accessory Warranty only applies when installation is performed by a trained Toyota-approved installer. See Toyota dealer for details.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Vehicles shown may be prototypes and/or shown with options. Actual models may vary.

Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print).

Some vehicles are shown with available equipment. Seatbelts should be worn at all times. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only.
