Take charge of your day.

Discover a freedom that takes you farther. As the most efficient Toyota hybrid yet, Prius Prime is ready to make the most of your day. Keep your adventures going with an EPA-estimated 25-mile EV Mode driving range rating. Charge it whenever you can, or don’t. When the charge runs low, Prius Prime will continue to run as an efficient hybrid with an EPA-estimated 54 mpg combined rating. Uniquely designed with intelligent tech, premium materials, thoughtful engineering and room for five, the 2022 Toyota Prius Prime reimagines the possibilities.
**PLUG-IN HYBRID**

The best of both worlds.

Prius Prime is more than just a hybrid; it’s a hybrid you can charge for maximum efficiency. Drive in EV Mode without using a drop of fuel or switch to hybrid mode when needed — it’s a no-compromise solution that offers the best of both EV and hybrid options. Add the versatility of five-passenger seating with 19.8 cu. ft. of cargo space still available in the rear, and your potential is endless.

**Intelligent efficiency**

Its lightweight materials, proven hybrid technology and optimized Plug-in Hybrid Vehicle (PHV) system all work together to give Prius Prime an EPA-estimated 133 MPGe rating. And with a full tank of gas and fully charged battery, get ready to go farther than you’ve ever gone before.

**Impressive performance**

A 4-cylinder gas engine and electric motor generators seamlessly work together to help maximize your miles before your next fill-up. You can even go all the way up to highway speeds in EV Mode. And when the charge runs low, Prius Prime will continue to run like a conventional hybrid with an impressive EPA-estimated 54 combined mpg rating.

**On-road confidence**

Go the distance. Prius Prime’s battery is designed to last the life of the vehicle. An impressive 10-year or 150,000-mile hybrid system warranty that covers you for the long haul is only the beginning. The ToyotaCare plan covers normal factory scheduled service for the first 2 years or 25,000 miles, whichever comes first, and comes with 3-year, unlimited-mileage, 24-hour Roadside Assistance to keep you going. Additionally, local savings, incentives and HOV eligibility make the decision to drive a Prius Prime even easier.

PERFORMANCE

Plug in to potential.

Every last detail of Prius Prime has been optimized to help make it the most advanced — and efficient — Prius yet. Simply charge up from a standard household outlet or any public charging station and go even farther.

EV power

Prius Prime features a dual motor drive system that uses both motors to help propel Prius Prime. The result is a boost in acceleration feel, enhanced efficiency and the added benefit of EV Mode at full highway speeds.

EV driving range

On a full charge, Prius Prime has an EPA-estimated 25-mile EV Mode driving range rating, which may cover many commutes. It only takes about 5.5 hours to fully charge from a standard outlet or you can take advantage of fast charging stations and shorten the time to a little more than two hours. And remember, if you can’t or forget to charge, it’s OK. Prius Prime will still run on its efficient gas engine as long as you have fuel.

Body rigidity

A solid chassis means Prius Prime was built to be confident. With increased torsional rigidity from laser-screw welding, high-tensile-strength steel and uniquely shaped frame structures, Prius Prime offers a ride that’s comfortable yet ready for spirited driving.

Versatile driving modes

Prius Prime also offers different driving modes so that the driver stays in control: EV (Electric Vehicle) Mode, EV Auto Mode and HV (Hybrid Vehicle) Mode. EV Auto Mode intelligently selects between EV and hybrid driving based on demand and driving conditions to help optimize your efficiency. HV Mode combines the gas engine and electrical power from the HV battery to most efficiently drive Prius Prime.

See numbered footnotes in Disclosures section.
Aerodynamic design

Prius Prime’s purposeful features include an active front grille shutter that closes at high speeds, underbody covers, side body fins and an exclusive dual-wave rear glass design — all which help Prius Prime slip through the air.

LED lighting

Prius Prime even finds efficiency in its lighting design. The visually striking Quad-LED projector headlights use LEDs that consume less energy and produce a brighter light compared to regular bulbs. Available LED fog lights, accent lights and rear taillights are also equipped to complete the look.

Carbon-fiber-reinforced-polymer rear hatch

Prius Prime’s rear hatch features more than just the unique design of the dual-wave glass. Made of carbon-fiber reinforced polymer, a Toyota first, the rear hatch is made to be rigid while still being lightweight. Using this advanced material reduces the overall weight of the car and helps contribute to its fuel efficiency.

**EXTERIOR**

An innovative drive with style to match.

The combination of purposeful, aerodynamic elements and lightweight components helps Prius Prime strike the perfect balance between its elevated efficiency and eye-catching style. It’s an uncompromising approach that ensures you’ll enjoy every moment.
INTERIOR

Make every drive more personal.

Get into a space that’s designed to welcome you as much as it is to inspire you. Prius Prime’s modern interior shows off a sleek look with piano-black accents and offers smart tech so you can enjoy every drive to its fullest possible potential.

11.6-in. multimedia display

Prius Prime is loaded with innovative tech that you just can’t miss. Its available 11.6-in. multimedia display uses intuitive pinch, zoom, tap and swipe gestures to create a familiar smartphone-like experience while giving you easy access to the features that matter most.

JBL® Premium Audio system

Sound all around. The available JBL® Premium Audio features ten speakers to amplify output from less energy. What you hear is clear sound imaging that will help elevate any drive. You can also use Bluetooth® hands-free wireless technology to bring your favorite playlist, and backup singers, along for the ride.

Qi-compatible wireless charging

With Prius Prime’s available Qi-compatible wireless smartphone charging, you can charge your Qi-compatible smartphone or other compatible device without wires or worry. Place it on the nonslip holder and charge up before getting to your destination.

Heated front seats

Add warmth to every drive. With standard heated front seats, you and your front passenger can find a little more comfort with the flip of a switch.
Comfort within reach.

Prius Prime’s interior features a modern design with premium materials throughout. From every press of a button to every turn of the steering wheel, feel the quality come through. Add smart tech and innovative thinking, and get ready for a more engaging drive.

Spacious interior

Sit inside and find comfort in every seat. Large windows and slim pillars add to the sense of space, while its unique, futuristic layout keeps everyone looking forward to what’s possible.

Seating for five

Prius Prime seats up to five, plus has room for your things. Get ready to treat your passengers to space filled with premium materials and make the most of every moment.

Smart charging cable lock

The available charging cable lock gives you peace of mind when you charge up at a public charging station. The charge port has been equipped with a lock mechanism to help keep your charging cable securely locked so that your charge won’t be interrupted. When you’re ready, it will only unlock when your Smart Key is present.

60/40 split fold-down rear seats

When you require more space, Prius Prime’s rear seats can fold flat. Its 60/40 design also gives you the versatility to adapt to what you’ve got, and when both seats are folded down, 36.6 cu. ft. of cargo room opens up to maximize hauling.

**WARRANTIES**

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

**Basic:** 36 months/36,000 miles (all components other than normal wear and maintenance items).

**Hybrid-Related Component Coverage:** Hybrid-related components, including the battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. Refer to applicable Warranty and Maintenance Guide for details.

**Hybrid Battery:** HV battery is covered for 10 years or 150,000 miles, whichever comes first. Warranty coverage is subject to terms and conditions. Refer to applicable Warranty and Maintenance Guide for details.

**Powertrain:** 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

**Rust-Through:** 60 months/unlimited miles (corrosion perforation of sheet metal).

**Emissions:** Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

**Accessories:** For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

DISCLOSURES

1. Extra-cost color.
2. Do not overload your vehicle. See Owner's Manual for weight limits and restrictions.
3. EPA-estimated 25-mile all-electric driving range when fully charged for 2022 Prius Prime. Use for comparison purposes only. Your mileage will vary for many reasons, including your vehicle's condition and how/where you drive. See www.fueleconomy.gov.
4. EPA-estimated 133 combined MPGe for 2022 Prius Prime. MPGe is the EPA-estimated gasoline equivalency for electric operation. EPA-estimated 55 city/53 highway/54 combined mpg for use for comparison purposes only. Your MPG/MPGe will vary for many reasons, including your vehicle's condition and how/where you drive. See www.fueleconomy.gov.
5. Cargo and load capacity shown is for all Toyota hybrid, plug-in hybrid, full-electric, and battery electric vehicles beginning with model year 2020, the hybrid (HV) battery is covered for 10 years from original date of first use or 150,000 miles, whichever comes first. Coverage is subject to the terms and conditions of your New Vehicle Limited Warranty. See Owner's Warranty and Maintenance Guide for details.
6. ToyotaCare for Prius and Prius Prime covers normal factory recommended road, weather and vehicle conditions. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. See Owner's Manual for additional limitations and details.
7. The engine immobilizer is a state-of-the-art anti-theft system that is initiated when you insert your key into the ignition switch. Consult with your tax professional to determine eligibility, if any, and details. State incentive data is updated regularly by the U.S. Dept. of Energy and is available at https://www.afdc.energy.gov/laws/state. All credits and rebates subject to approval by issuing entity. Please check with your local, state, or federal agency (IRS) and/or a tax professional for eligibility requirements.
8. ToyotaCare for Prius and Prius Prime covers normal factory recommended road, weather and vehicle conditions. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. See Owner's Manual for additional limitations and details.
9. Government incentives are not within Toyota's control. Consult with your tax professional to determine eligibility, if any, and details. State incentive data is updated regularly by the U.S. Dept. of Energy and is available at https://www.afdc.energy.gov/laws/state. All credits and rebates subject to approval by issuing entity. Please check with your local, state, or federal agency (IRS) and/or a tax professional for eligibility requirements.
10. Use of CA HOV lanes (single occupant permitted). Eligibility for government incentives, including any rebate and/or sticker, is based on income and is subject to change at any time. See cleanvehiclerebate.org for more details.
12. JBL® is a registered trademark of Harman International Industries, Inc.
13. The Pre-Collision System (PCS) is designed to assist the driver and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, including road, weather and traffic conditions. Vehicles with manual transmission have regular DRCC. See Owner's Manual for additional limitations and details.
14. Lane Tracing Assist (LTA) is designed to detect lane boundary markers and to take corrective measures to keep your vehicle within the lane. The Driver Monitoring System and are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear your seatbelt and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback.
15. Do not overload your vehicle. See Owner's Manual for weight limits and restrictions.
16. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 17. Connected Services depends on factors outside of Toyota's control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded, including access to response center and emergency support. Service may vary by vehicle and region. Subscription required after trial. Terms of Use apply. Data charges may apply. Apps and services subject to change at any time without notice. See toyota.com/connectedservices for details. To learn about Toyota's data collection, use, sharing and retention practices, please visit www.toyota.com/privacyvts/. Service Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. Paid subscription required after trial to access the service. 18. Requires adequate cellular coverage and GPS signal strength. May not work in all areas. Service may vary by vehicle and region. See Owner's Manual for additional limitations and details. 19. Service Connect renewal will be included when Safety Connect®, Remote Connect or Subscription required after trial. Service Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. Paid subscription required after trial to access the service. 20. The Safety Connect® trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. Paid subscription required after trial to access the service. 21. Service Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. Subscription required after trial. Service Connect renewal will be included when Safety Connect®, Remote Connect or Destination Assist connected service renewal is selected. Service Connect is not renewable as a stand-alone service. 22. Use only if aware of circumstances surrounding vehicle and it is legal and safe to do so (e.g., do not remotely start engine if vehicle is in an enclosed space or vehicle is occupied by a child). Toyota Remote Connect depends on factors outside of Toyota's control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. Service May vary by vehicle and region. Registration required. Paid subscription required after trial to access the service. 23. Apps and services subject to change at any time without notice. Terms of Use apply. Data charges may apply. Full-Speed Range Dynamic Radar Cruise Control (DRCC) is designed to assist the driver and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, including road, weather and traffic conditions. Vehicles with manual transmission have regular DRCC. See Owner's Manual for additional limitations and details.
24. The Pre-Collision System (PCS) with Pedestrian Detection (PD) is designed to assist the driver and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, including road, weather and traffic conditions. Vehicles with manual transmission have regular DRCC. See Owner's Manual for additional limitations and details.
25. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge, do not rely solely on the monitor system. See Owner's Manual for additional limitations and details.
26. Do not perform oil changes on a vehicle that has the Vehicle User Interface (VUI)-equipped Bluetooth® word mark and logos, or any use of such marks by Toyota is under license.
27. A Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. Data usage and charges apply. Up to 5 devices can be supported using in-vehicle connectivity. Apps and services subject to change at any time without notice. 28. Do not overload your vehicle. See Owner's Manual for weight limits and restrictions.
29. Do not overload your vehicle. See Owner's Manual for weight limits and restrictions.
30. Toyota Safety Sense™ is designed to assist the driver and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, including road, weather and traffic conditions. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. See Owner's Manual for additional limitations and details. 31. The Pre-Collision System (PCS) with Pedestrian Detection (PD) is designed to determine if impact is imminent and help reduce impact speed and damage in certain frontal collisions involving a vehicle, pedestrian or a bicyclist. PCS w/PD is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrian or bicyclist and weather, light and road conditions.
32. Full-Speed Range Dynamic Radar Cruise Control (DRCC) is designed to assist the driver and is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and traffic conditions. Vehicles with manual transmission have regular DRCC. See Owner's Manual for additional limitations and details.
33. Lane Departure Alert with Steering Assist is designed to detect visible lane markers and detect other vehicles under certain conditions. It is only operational when DRCC is engaged. See Owner's Manual for additional limitations and details.
34. Automatic High Beams operate at speeds above 25 mph.
35. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner's Manual for additional limitations and details.
36. Do not rely exclusively on Road Sign Assist (RSA). RSA is a driver support system that utilizes the vehicle's forward-facing camera to assist the driver in detecting and identifying traffic signs. RSA should be used as a supplement to driver observation for traffic signs. RSA only provides information to the driver via the multi-information display and/or Head-Up Display. Effectiveness is dependent on road, weather, vehicle and sign conditions. Do not use RSA for 180 mph on a straight road without traffic.
37. The backup camera does not provide a comprehensive view of the rear area of the vehicle and you should also look around the vehicle, using mirrors to confirm rearward clearance.
38. Does not support all MPGe driving conditions. Owners should be diligent when using Regenerative Braking. See Owner's Manual for additional limitations and details.
39. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge, do not rely solely on the monitor system. See Owner's Manual for additional limitations and details. 40.
