Go beyond zero.

Get ready for a new way to take on the day. Introducing the first-ever, all-electric Toyota bZ4X. Designed to be more than just a sleek SUV with modern innovations, bZ4X is focused on enhancing the driving experience and elevating the connection to your world. It’s time to go “beyond Zero” and discover a better future just around the corner.
PERFORMANCE

Plug and play.

Experience the smooth acceleration, instant torque delivery and quiet drive of bZ4X. Powered by its electric motor — one for front-wheel-drive models and two for all-wheel-drive models — you’ll enjoy a confident drive that’s always ready for what the day has to offer.

e-TNGA platform

bZ4X will be the first Toyota vehicle to utilize the brand-new e-TNGA (Toyota New Global Architecture) platform. Made specifically for Toyota electric vehicles, this structure allows for more space that you can feel in the cabin and provides a solid foundation for outstanding driving performance, ride comfort and stability for the road ahead.

All-Wheel Drive with X-MODE

Whether helping you navigate through a downpour or hug the curves of a winding road, bZ4X’s available AWD capability gives you confidence to stay the course. And with the push of a button, X-MODE maximizes bZ4X’s AWD potential. By adjusting drive force, braking and throttle input, you’ll enjoy its impressive performance in tougher conditions.

Powerful electric motor

bZ4X takes advantage of an electric powertrain by delivering almost instantaneous torque to a drive that comes naturally. Front-wheel-drive models use one electric motor to produce 201 hp with 196 lb.-ft. of torque, while all-wheel-drive models harness two electric motors to deliver 214 hp with 248 lb.-ft. of max torque to both axles combined.
BATTERY PERFORMANCE

Powered to take on every day.

From daily commutes to trips around town, find yourself getting things done. Thanks to a meticulous production process and multiple monitoring systems, bZ4X’s batteries are designed to have a battery capacity retention of 90% after ten years of ownership. Add a reputation for build quality, and you can feel confident your bZ4X will be there for you, day in and day out.

All-day range

With bZ4X’s EPA-estimated driving range of up to 252 miles for front-wheel-drive models and up to 228 miles for all-wheel-drive models, you can enjoy all the fun of electric driving, knowing it’s a Toyota.

Up to 252 miles of EPA-estimated range²
Easy as one, two, three.

Charging bZ4X is as easy as plugging in your smartphone. Included is a portable 120V AC charger (Level 1) that simply plugs into a standard household outlet to charge. For faster charging times, bZ4X is compatible with and can be plugged into a 240V AC charger (Level 2) or DC Fast Charging.

**LEVEL 1 – 120-Volt AC Charging**
- A great pick for drivers with short commutes.
- You can charge anywhere there is a common household 3-prong outlet.

**LEVEL 2 – 240-Volt AC Charging**
- The best setup for faster charging at home.
- Can be installed at home by a licensed electrician. ChargePoint® and Qmerit offer possible charger and installation options.
- You can also find Level 2 chargers at public charging stations nationwide.

**LEVEL 3 – DC Fast Charging**
- Under ideal conditions, it can be the quickest way to charge up on the go.
- Currently only available at public charging stations.

Limited shown in Heavy Metal with Black roof.
**EXTERIOR**

**Sharp looks with purpose.**

**Striking design**

Sleek character lines that flow from front to back, and an athletic stance, give bZ4X a look that’s unmistakable.

**Aerodynamic performance**

Lower front bumper vents and a fully covered underbody help air flow around the front and under the vehicle. The aerodynamic design is finished off with a streamlined rear that features a rear lip spoiler and an available split roof rear spoiler.

**20-in. alloy wheels**

bZ4X’s available 20-in. machine-finished alloy wheels do more than accentuate its powerful SUV stance — they command your attention.
Centered around you.

Discover refined comfort inside bZ4X’s modern design. With its soft-touch materials and an instrument panel that puts all your system controls within reach, the future will always look optimistic.

**Premium interior**

Gain a sense of luxury every time you enter bZ4X. From its standard leather-wrapped steering wheel to the personalized comfort of available heated and ventilated front seats, you’ll feel the dedication in every detail.

**Inviting space**

bZ4X’s interior exudes a feeling of warmth and comfort. Its open layout creates a cabin space that naturally provides impressive leg room for everyone and makes no compromise on convenience.

**Fixed panoramic moonroof**

The future looks brighter in bZ4X. Just open its power sunshade that spans across the roof. And whether sitting in the front or rear seats, you can always gaze at the stars or let the sunshine in.
TECHNOLOGY

Discover more ease in every drive.

Experience a drive that’s more effortless, with a connection that caters to your needs. Standard Qi wireless charging and five USB ports let you personalize your experience and power up a variety of devices to keep you going. That versatility and added convenience help simplify every movement, for a more captivating drive.

12.3-in. Toyota Audio Multimedia touchscreen display

bZ4X’s standard 12.3-in. Toyota Audio Multimedia touchscreen display seamlessly rises from the center console, for a modern look. Here, you can control a variety of functions with an intuitive touch. Clearly see where you’re going with turn-by-turn directions, access multimedia functions, and connect your smartphone to enjoy your favorite apps, playlists and more.

Top-mount Multi-Information Display

Information that meets the eye. bZ4X’s top-mount Multi-Information Display is placed right above the steering wheel to clearly give you vehicle details, outside temperature, driver assist systems and more—all to help keep your eyes on the road ahead.

Intelligent convenience

From rain-sensing wipers that automatically activate when the windshield gets too wet, to an auto-dimming rearview mirror that reduces glare, you’ll feel an ease with every drive. And to raise your comfort efficiently, bZ4X’s Eco function uses less overall energy by adjusting the air temp for front passengers while an available radiant foot-and-leg heater can quickly warm you up.
Amplify your drive.

Enhance every drive with an experience that’s all about you. Whether enjoying the sounds of your favorite soundtrack or interacting with an interface that you’re familiar with, you’ll always be surrounded by comfort.

JBL® Premium Audio System

Immerse yourself in quality sound with bZ4X’s available JBL® Premium Audio system. A 9-speaker, 800-watt audio system, equipped with a subwoofer, it provides phenomenal sound that amplifies every drive.

Wireless Apple CarPlay®

Bring along a familiar face. With bZ4X’s wireless Apple CarPlay® compatibility, you can use your compatible iPhone® with the multimedia system to get directions, make calls, send and receive messages and listen to music, all while staying focused behind the wheel.

Wireless Android Auto™

Stay connected on the road. By pairing your compatible Android™ phone with the audio multimedia system, Android Auto™ lets you get real-time traffic alerts, make and receive phone calls, listen to your favorite soundtrack and more.

SiriusXM® Platinum Plan 3-month trial

With a SiriusXM® 3-month Platinum Plan trial subscription, you get 425+ channels, including 165+ channels in your vehicle, to listen to ad-free music, plus sports, news, comedy and more. Innovative features in the bZ4X make it even easier to search, discover and listen than ever before, through personalized channel recommendations curated just “For You.” Plus, the Live Sports category puts all your games and teams in one place for easy access.

SAFETY & CONVENIENCE

Ready when you are.

With intelligent tech that looks out for you and helps you make the most of your connection, bZ4X is ready to help keep your adventures going. Add comprehensive active and passive safety features, and drive on with confidence.

Blind Spot Monitor with Rear Cross-Traffic Alert

The Blind Spot Monitor (BSM)\(^27\) is designed to warn you when a vehicle in the next lane enters bZ4X’s blind spot on either side of the vehicle. And when you’re in reverse, the Rear Cross-Traffic Alert (RCTA)\(^28\) helps detect vehicles approaching from either side, warning you with side mirror indicators and a warning tone.

Bird’s Eye View Camera

bZ4X’s available Bird’s Eye View Camera\(^29\) with Perimeter Scan helps you check your surroundings for hazards. It uses four cameras, one on each side of the vehicle, to display a bird’s-eye view of the exterior on the touchscreen display. When you’re parked and using the Moving View setting, bZ4X creates an animated virtual view from above to give you a bigger picture of what’s around.

Hands-free power liftgate

Powered to help you out. With the push of a button, the available hands-free power rear liftgate\(^30\) can be opened and closed automatically. When your hands are full, bZ4X senses your Smart Key fob and opens automatically when you wave your foot under the center of the rear bumper.

Onboard charging cable

Find a charge almost anywhere you go. All you need to do is plug bZ4X’s included Level 1 charging cable into any standard household outlet to charge. And when not in use, it simply stows away in the storage compartment.

Toyota app connectivity

Take advantage of what your smartphone can do for you. With Toyota Connected Services\(^31\), the Toyota app gives you the ability to manage and stay connected to your bZ4X when you’re away from it. Keep track of your vehicle’s charge, find the nearest public charging station and more — for added peace of mind while on the go.

Digital Key compatibility

Convenience at hand. Remote Connect’s\(^23\) Digital Key\(^57\) available on bZ4X Limited, can detect your Bluetooth\(^®\)-connected\(^32\) smartphone, enabling you to lock/unlock and start/stop your vehicle. You can even share your Digital Key with others through the Toyota app to give them the same access to your bZ4X when you’re away.

See numbered footnotes in Disclosures section.
**TOYOTA SAFETY SENSE™ 3.0 (TSS 3.0)**

Peace of mind comes standard.

Toyota Safety Sense™ 3.0 (TSS 3.0)\(^33\) is the latest bundle of active safety features included at no additional cost. These innovative features were designed to help protect you and your passengers from harm.

- Pre-Collision System with Pedestrian Detection\(^34\)
- Full-Speed Range Dynamic Radar Cruise Control\(^35\)
- Lane Departure Alert with Steering Assist\(^36\)
- Automatic High Beams\(^37\)
- Lane Tracing Assist\(^38\)
- Road Sign Assist\(^39\)

bZ4X ACCESSORIES

This is a great way to add extra personality to your bZ4X. Not every accessory is available in your area, so for a complete list of accessories, go to toyota.com/bz4x/accessories.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

Basic Warranty: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain Warranty: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Restraint Warranty: 60 months/60,000 miles

Corrosion Perforation Warranty: 60 months/unlimited miles (corrosion perforation of sheet metal).

Electric Vehicle Drive Components Warranty: 96 months/100,000 miles

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

ChargePoint® Home stations by ChargePoint® (Manufacturer) Warranty: Home Flex EV Charger is covered by ChargePoint® Manufacturer’s Warranty:

3-year parts warranty

You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

See numbered footnotes in Disclosures section.
is dependent on many factors including road, weather and traffic conditions. Vehicles with manual transmission have regular DRCC. See Owner’s Manual for additional limitations and details. 36. Lane Departure Alert with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 37. Automatic High Beams operate at speeds above 25 mph. Factors such as a dry windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 38. The Lane Tracing Assist (LTA) lane centering function is designed to read visible lane markers and detect other vehicles under certain conditions. It is only operational when DRCC is engaged. Not available on vehicles with manual transmissions. See Owner’s Manual for additional limitations and details. 39. Do not rely exclusively on Road Sign Assist (RSA). RSA is a driver support system that utilizes the vehicle’s forward-facing camera and navigation system (when data is available) to recognize certain road signs and provide information to the driver via the multi-information display and/or Head-Up Display. Effectiveness is dependent on road, weather, vehicle and sign conditions. Use common sense when using RSA and do not drive distracted. See Owner’s Manual for additional limitations and details. 40. Airbag systems are Supplemental Restraint Systems and are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner’s Manual for additional limitations and details. 41. At speeds of 9 mph or less, Front and Rear Parking Assist with Automatic Braking (PA w/AB) is designed to assist drivers in avoiding potential collisions with nearby static objects when the vehicle is in Drive or Reverse and approaching crossing vehicles when the vehicle is in Reverse. Do not overly rely on PA w/AB. Always look around outside the vehicle and use mirrors to confirm clearance. Certain vehicle and environmental factors, including an object or vehicle’s shape, size and composition, may affect the system’s effectiveness. See Owner’s Manual for additional limitations and details. 42. This product is not a Genuine Toyota part or accessory and was not designed or manufactured by Toyota. This product is not warranted by Toyota, and Toyota expressly disclaims any warranty for this product, including without limitation, any implied warranties of merchantability and of fitness for particular purpose. Toyota also disclaims all liability for direct, indirect, special, incidental, or consequential damages, including but not limited to, damage to or loss of personal or commercial property, loss of use, cost of purchase of replacement goods, or claims of any Toyota dealer that result from the use of this product. 43. This floor mat/floor liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. 44. Do not overload your vehicle. See Owner’s Manual for weight limits and restrictions. 45. Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area. 46. The universal tablet holder is intended for passengers only. Drivers should always be sure to obey traffic regulations and maintain awareness of the road and traffic conditions at all times. Use of aftermarket accessories may pose an increased risk of injury to occupants in the case of an accident. Tablet sold separately. 47. Public charging experience can vary based on charger level and other vehicle and environmental conditions. Level 3 charging may not be possible below 32 degrees Fahrenheit. 48. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 49. When the system is on, Electric Parking Brake is designed to engage the Parking Brake under limited conditions. It may not hold the vehicle under all conditions. See Owner’s Manual for additional limitations and details. 50. When the system is on, Brake Hold is designed to keep the brakes engaged after the driver brings the vehicle to a complete stop. It may not hold the vehicle under certain conditions and does not function when the vehicle is in Reverse. Brake Hold is not a substitute for safe and attentive driving. See Owner’s Manual for additional limitations and details. 51. Rated for 12 volts/10 amps. See Owner’s Manual for additional limitations and details. 52. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 53. Brake Assist is designed to help the driver take advantage of ABS and is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner’s Manual for additional limitations and details. 54. Smart Stop Technology® operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner’s Manual for additional limitations and details. 55. The backup camera does not provide a comprehensive view of the rear area of the vehicle and you should also look around the vehicle, using mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner’s Manual for additional limitations and details. 56. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner’s Manual for additional limitations and details. 57. Digital Key function requires active Remote Connect trial or subscription. Depends on operating telematics device, availability of compatible wireless network and other factors. Use only if aware of vehicle surroundings and it is legal and safe (ex., do not use if vehicle is in an enclosed space or is occupied by a child). Subject to change without notice. Requires app download and registration/subscription after trial (if applicable). Not available on vehicles with manual transmission. Terms of Use apply. Data charges may apply. See Toyota Owner’s Manual and https://www.toyota.com/connected-services/. To learn about Toyota’s Connected Services data collection, use, sharing and retention practices, please visit https://www.toyota.com/privacy/ct. 58. This device is not a substitute for safe and attentive driving practices. It is the driver’s responsibility to maintain a lookout for pedestrians, cyclists, other cars and objects, and to drive the vehicle in a safe and attentive manner to avoid making contact. 59. The engine immobilizer is a state-of-the-art anti-theft system that is initiated when you insert your key into the ignition switch or bring a Smart Key fob into the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle’s immobilizer. The transponder chip is embedded in the key/fob and can be costly to replace. If you lose a key or fob, your Toyota dealer can help or go to www.aloa.org to find a qualified locksmith in your area who can perform high-security key service.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print). Some vehicles are shown with available equipment. Seatbelts should be worn at all times. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle. All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Vehicles shown may be prototypes, shown using visual effects and/or shown with options. Actual models may vary.
