POWERED BY

Hybrid powertrain with 219 net horsepower

RAV4 Hybrid’s dual electric motors and an Electronically controlled Continuously Variable Transmission (ECVT) work together to provide impressive acceleration and help enhance fuel efficiency on every trip.

Dynamic Torque Vectoring All-Wheel Drive (TV-AWD)

Available on gas models, this AWD system helps enhance responsiveness and stability by sending up to 50 percent of the power to the rear and then further distributing that power to the right or left side — whichever needs it more.

Plug-in performance

With a 5.7-second 0–60 time, the power of RAV4 Prime will get you going fast. The advanced gas/electric powertrain delivers the power you need, while still delivering a smooth, comfortable ride.

Powered by efficiency.

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Hybrid-Related Component Coverage: Hybrid-related components, including the battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. Refer to applicable Warranty and Maintenance Guide for details.

Hybrid Battery: HV battery is covered for 10 years or 150,000 miles, whichever comes first. Warranty coverage is subject to terms and conditions. Refer to applicable Warranty and Maintenance Guide for details.

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

Wi-Fi Connect coverage and service not available everywhere. 8. Electronic and voice-activated controls also require use of Toyota's Entune App Mode. See Owner's Manual and https://www.toyota.com/connected-services/ for additional limitations and details. To learn about Toyota’s Connected Services data collection, use, sharing and retention practices, please visit https://www.toyota.com/privacyvts/. 9. Owner’s Manual for additional limitations and details. 10. Driving practices. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 11. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain
DISCLOSURES

limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 32. Lane Tracing Assist (LTA) is designed to read visible lane markers and detect other vehicles under certain conditions. It is only operational when DRCC is engaged. See Owner’s Manual for additional limitations and details. 33. Do not rely exclusively on Road Sign Assist (RSA). RSA is a driver support system that utilizes the vehicle’s forward-facing camera and navigation system (when data is available) to recognize certain road signs and provide information to the driver via the multi-information display and/or Head-Up Display. Effectiveness is dependent on road, weather, vehicle and sign conditions, and may not detect or provide information in certain situations or conditions. This system is not intended to detect all road signs on all roads and is not a substitute for safe and attentive driving. 34. May not be compatible with all vehicles, MP3/WMA players and like models. 35. The Drive Connect trial period is at the owner’s expense and begins on the original date of purchase or lease of a new vehicle. Paid subscription required after trial (if applicable) to access the service. Terms of Use apply. 36. Airbag systems are Supplemental Restraint Systems and are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rear-facing child seat in any front passenger seat. See Owner’s Manual for additional limitations and details. 37. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner’s Manual for additional limitations and details. 38. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See Owner’s Manual for additional limitations and details. 39. Installation of a tow hitch receiver or other accessories located near the rear bumper or side-door kick sensors may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. Water, weather, dirt, and other conditions also may cause the sensor to not operate properly or to operate unintentionally. See Owner’s Manual for limitations. 40. SofTex® is a registered trademark of Toyota Motor Sales, U.S.A., Inc. 41. At speeds of 9 mph or less, Front and Rear Parking Assist with Automatic Braking (PA w/AB) is designed to assist drivers in avoiding potential collisions with nearby static objects when the vehicle is in Drive or Reverse and approaching crossing vehicles when the vehicle is in Reverse. Do not overly rely on PA w/AB. Always look around outside the vehicle and use mirrors to confirm clearance. Certain weather and environmental factors, including an object or vehicle’s shape, size and composition, may affect the system’s effectiveness. See Owner’s Manual for additional limitations and details. 42. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 43. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system, avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and cause burns. 44. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner’s Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. “Added vehicle equipment” includes additional standard/optional equipment and accessories added by the manufacturer, dealer, and/or vehicle owners. The only way to be certain of your vehicle’s exact curb weight is to weigh your vehicle without passengers or cargo. [Calculated with the new SAE J2807 method.] 45. Installing a tow hook or other accessory that requires the sensor or removing the sensor after installation of the accessory may limit the sensor’s effectiveness. See Owner’s Manual for limitations. 46. Do not exceed 12V. See Owner’s Manual for additional limitations and details. 47. Falken is a registered trademark of Sumitomo Rubber Industries, Ltd. 48. This floor mat/floor liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. 49. The Multi-Vision Panoramic View would also look at your vehicle and use your mirrors to confirm surrounding clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner’s Manual for additional limitations and details. 50. EV Mode lets you operate solely on battery power at low speeds for short distances and in limited circumstances, such as in a parking garage. Different conditions may prevent output or limit usage. See your Owner’s Manual for limitations and details. 51. Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area. 52. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print). 53. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 54. When the system is on, Automatic Electric Parking Brake is designed to automatically engage the Electric Parking Brake under limited conditions. It may not hold the vehicle under all conditions and does not substitute for manual use of the Electric Parking Brake. See Owner’s Manual for additional limitations and details. 55. When the system is on, Brake Hold is designed to keep the brakes engaged after the driver releases the vehicle to a complete stop. It may not hold the vehicle under certain conditions and does not function when the vehicle is in Reverse. Brake Hold is not a substitute for safe and attentive driving. See Owner’s Manual for additional limitations and details. 56. Rated for 12 volts/10 amps. See Owner’s Manual for additional limitations and details. 57. Toyota app requires an active Remote Connect trial or subscription. 58. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 59. Brake Assist is designed to help the driver take advantage of ABS and is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner’s Manual for additional limitations and details. 60. Smart Stop Technology® operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner’s Manual for additional limitations and details. 61. The backup camera does not provide a comprehensive view of the rear area of the vehicle and you should also look around the vehicle, using mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner’s Manual for additional limitations and details. 62. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner’s Manual for additional limitations and details. 63. This device is not a substitute for safe and attentive driving practices, including using seatbelts, maintaining a safe distance from other cars and objects, and to drive the vehicle in a safe and attentive manner to avoid making contact. 64. Trailer-Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 65. Hill Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 66. Downhill Assist Control is designed to help driver maintain vehicle control and speed on steep, downhill descents and is not a substitute for safe driving practices. Factors including speed, road conditions and driver input can all affect the DAC’s ability to prevent loss of control. See Owner’s Manual for additional limitations and details. 67. The engine immobilizer is a state-of-the-art anti-theft device that is initiated when you insert your key into the ignition switch or bring a Smart Key fob into the key/fob reader. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle’s immobilizer. The transponder chip is embedded in the key/fob and can be costly to replace. If you lose a key fob, your Toyota dealer can help or go to www.aloa.org to find a qualified locksmith in your area who can perform high-security key service. 68. Before towing, confirm Stop and Start Engine System is disengaged (V6 gas models only). 69. Payload Capacity is the calculation of GVWR minus curb weight and should be used for comparison purposes only. The maximum amount of passenger and cargo weight your vehicle can carry is the Load Carrying Capacity indicated on the label(s) on the driver’s doorsjamb.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages.
