2026 GR Corolla

2026 GR COROLLA

Built for the track. Ready for every day.

Engineered for pure exhilaration, GR Corolla delivers a powerfully refined and exciting drive with tuned-up performance.

Engineered for you.

Inspired by the World Rally Championship, GR Corolla's powertrain was developed to handle a variety of driving conditions, pumping 300 horsepower ¹ and 295 lb.-ft. of torque out of its compact G16E-GTS turbocharged engine.

Info 3

3-Cylinder Turbocharged Engine

Lightweight yet robust, GR Corolla delivers 300 hp ¹ and 295 lb.-ft. of torque out of its G16E-GTS turbocharged engine. The tuned powertrain strengthens its valvetrain and shaped pistons, enhancing GR Corolla's wear and thrust resistance, while its weight provides balance as you navigate every turn.

Info 4

Gazoo Racing Direct Automatic Transmission With Paddle Shifters

Dive into precision with GR Corolla's close-ratio 8-speed Direct Automatic Transmission (DAT). More gears and intelligent software help put it in optimal gear to provide faster shifting speed so you can concentrate on conquering every twist and turn.

Info 5

Launch Control

GR Corolla's available Launch Control ² keeps the revs coming at an optimal speed to help you blaze off the line while gripping the track.

PERFORMANCE

Intelligent Manual Transmission

All hands and feet on deck. With an offered 6-speed short-shift intelligent Manual Transmission (iMT), you have total control of every gear shift. Hit the sport-pedal clutch and express yourself with every rev, your connection growing with every shift through the gears.

Triple Exhaust

GR Corolla's three brushed stainless steel exhaust tips not only show off a unique look, they also reduce exhaust back pressure while singing a sporty exhaust note that's music to your ears.

Unleash confidence in every corner.

GR-FOUR All-Wheel Drive

Developed to handle a variety of driving conditions, the GR-FOUR AWD system features three selectable power settings: Choose to split front and rear torque distribution to 60:40 for everyday driving, 50:50 for track and maximum stability, or 30:70 for more torque to the rear wheels.

Enhanced Handling

With rear geometry that digs in deep and rebound springs dialed to help keep your wheels down in the corners, GR Corolla's calibrated suspension boosts traction and stability, so you can fully enjoy its hair-raising power. Boost your traction even more with front and rear Torsen[®] limited-slip differentials, for dynamic handling.

GR Circuit-Tuned Suspension

Up front, the MacPherson strut suspension, with its circuit-tuned coil springs, shock absorbers and stabilizer bars, enhances power delivery and cornering capabilities. In the rear, the double-wishbone multi-link system maximizes AWD grip and performance.

High-Performance Brakes

Save the heat for burning up the track. GR Corolla's ventilated and slotted brake rotors, with red-painted four-piston front fixed calipers and two-piston rear calipers, help dissipate heat for better brake performance, while a mechanical hand-lever brake helps you lock up the rear.

HANDLING

Rigid Body

Feel the precision in every turn. GR Corolla's available carbon-fiber roof lowers the vehicle's weight and its center of gravity, for improved aerodynamics and handling. And thanks to multiple weld points, body bracing and extensive use of structural adhesive, GR Corolla's underlying structure helps reduce flex so you can be confident in sharp turns and long curves.

Enhanced Vehicle Stability Control

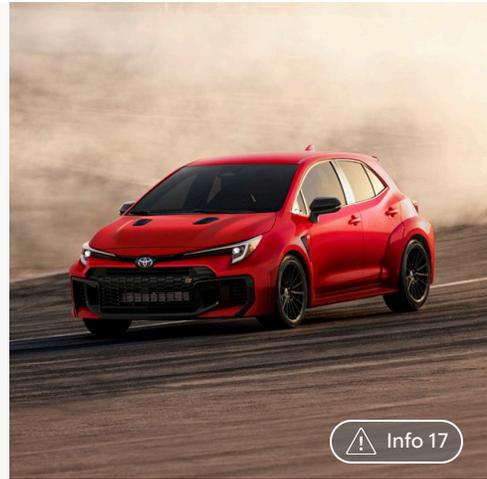

Maximize traction and control with the help of GR Corolla's VSC.⁹ It reduces power to the wheels by automatically applying brake pressure to up to three wheels. Switch to Expert Mode to disable these features if you want more control of what you do behind the wheel.

Curated to command.

Exterior

Functional Design

Calibrated for smooth airflow and stability, GR Corolla's unified design groups functional areas and boosts cooling performance, creating wide and low proportions with a sporty look, for a refreshing vibe.

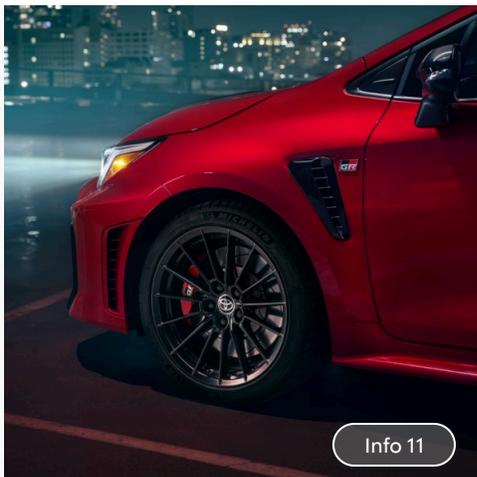

Info 17

Rear Styling

GR Corolla does more than look the part by sporting a triple exhaust, functional air vents and diffuser to add flair to its performance.

Aggressive Stance

Even at a standstill, GR Corolla looks like it's ready for action. Flared front and rear fenders show off its wide stance and excellent grip of the road, while sporty black accents combine form and function.

Info 11

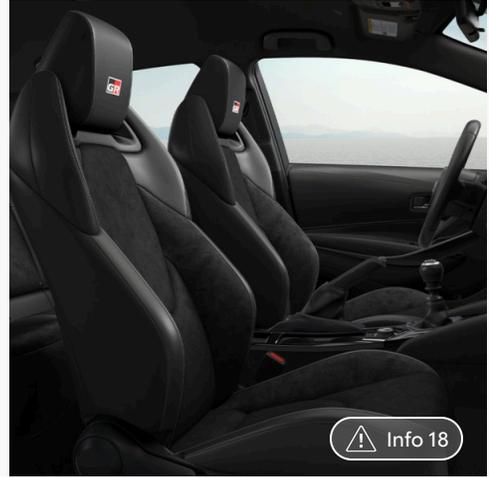

18-In. Alloy Wheels

Pound the pavement with GR Corolla's available matte-black 18-in. alloy wheels wrapped in Michelin®¹⁵ Pilot® Sport 5 performance tires¹⁶ that help you get a better grip of the road.

Interior

Seating Versatility

The more, the merrier. GR Corolla's versatile space offers seating for up to five people and a hatchback for easy cargo access to handle your everyday needs.

Racing Interior Touches

Feel fast at every stop. From gunmetal-finished accents to GR-stitched headrests and proper sport seats, GR Corolla's cockpit details are designed to enhance the thrill in every turn.

Dual Zone Climate Control

You like it hot. Your passenger likes it chill. Using GR Corolla's dual zone climate control system, you can set the temperature for both zones so everyone can keep their cool.

Heated Front Seats and Steering Wheel

With just the press of a button, GR Corolla's available heated front seats and steering wheel bring enhanced comfort, no matter the season.

GR Corolla has you covered.

GR Corolla's technology features help make your drive as seamless as possible so you can focus on the laps ahead.

Info 27

Head-Up Display

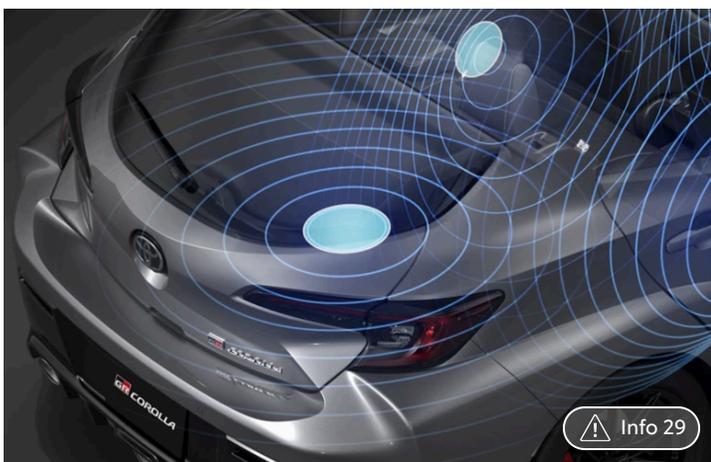

Heads up. Revvin' up. GR Corolla's available GR Head-Up Display (HUD) streamlines and projects your vital info onto the vehicle's windshield to help keep your undivided attention on the thrills ahead.

Info 28

Toyota Audio Multimedia System

GR Corolla's standard 8-in. touchscreen comes with wireless Apple CarPlay[®] ²⁰ and Android Auto[™] ²¹ compatibility. With your active 1-year Drive Connect trial (on Premium) or subscription, ²² you can get directions through Cloud Navigation ²³ and interact with the system through touch or voice activation, all while keeping your focus on the road. 4G network dependent.

Info 29

JBL[®] Premium Sound System

Enhance the sound of every drive. GR Corolla's available JBL[®] ²⁴ Premium sound system features nine speakers—including a new subwoofer—for crisp, powerful audio. Active Noise Control (ANC) sharpens music clarity, while Active Sound Control (ASC) adds motorsports-inspired sound patterns tailored to the driving mode. Simulation shown.

Info 30

12.3-In. Digital Gauge Cluster

GR Corolla's standard 12.3-in. digital gauge cluster provides crucial info in your line of sight. Its GR meter features digital gauges for power settings and turbo pressure, while a center tach and gear-position indicator lights help make it easy to focus on the road ahead.

Blind Spot Monitor With Rear Cross-Traffic Alert

The standard Blind Spot Monitor (BSM) ²⁵ is designed to warn you when a vehicle in either adjacent lane enters GR Corolla's blind spot. And when you're in reverse, Rear Cross-Traffic Alert (RCTA) ²⁶ is designed to help detect vehicles approaching from either side, warning you with side mirror indicators and a warning tone.

Smart Key System With GR Push Button Start

With GR Corolla's standard Smart Key System with GR Push Button Start, you can conveniently lock and unlock the doors and hatch, all while the key fob sits in your pocket or bag. Designed with you in mind, the feature allows you to start and stop the engine with just the push of a button.

PCS w/PD is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrian or bicyclist and weather, light and road conditions. See Owner's Manual for limitations. **49.** Dynamic Radar Cruise Control is not a substitute for safe and attentive driving. See Owner's Manual for limitations. **50.** Corolla models with manual transmissions come with Dynamic Radar Cruise Control (DRCC); Full-Speed Range Dynamic Radar Cruise Control (DRCC) is only available on Corolla models with automatic transmissions. **51.** Lane Departure Alert with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual/audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors including road, weather and vehicle conditions. See Owner's Manual for limitations. **52.** The Lane Tracing Assist (LTA) lane centering function is designed to read visible lane markers and detect other vehicles under certain conditions. It is only operational when DRCC is engaged. See Owner's Manual for limitations. **53.** Road Sign Assist only recognizes certain road signs. See Owner's Manual for limitations. **54.** Automatic High Beams operate at speeds above 21 mph. See Owner's Manual for instructions and limitations. **55.** Whiplash-Injury-Lessening front seats can help reduce the severity of whiplash injury in certain rear-end collisions. **56.** The Parking Sensors system is designed to assist drivers in avoiding potential collisions at very slow speeds. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the system to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See Owner's Manual for limitations. **57.** The backup camera does not provide a comprehensive view. Always look over shoulder and use outside mirrors. See Owner's Manual for limitations. **58.** Smart Stop Technology® will reduce power to help the brakes bring vehicle to a stop during certain contemporaneous brake and accelerator pedal applications. See Owner's Manual for limitations. **59.** Airbag systems supplement the seatbelts and are designed to inflate only under certain conditions and in certain types of severe collisions. Always wear seatbelt, sit upright in middle and as far back in seat as possible to help decrease risk of injury. Do not put objects in front of an airbag. See Owner's Manual for limitations. **60.** The engine immobilizer is a state-of-the-art anti-theft system initiated when the key is inserted into ignition switch or a Smart Key fob is in/near the vehicle. Engine will only start if the code in the transponder chip inside the key/fob matches the code in vehicle's immobilizer. The transponder chip is embedded in the key/fob and can be costly to replace. For lost key or fob, see a Toyota dealer or go to www.aloa.org to find a qualified locksmith for high-security key service.

INFO AND DISCLOSURES

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order.

Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print).

Some vehicles are shown with available equipment. Seatbelts should be worn at all times. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Vehicles shown may be prototypes, shown using visual effects and/or shown with options. Actual models may vary.
