3.0-Liter Turbocharged Inline-Six

The fire-breathing heart of GR Supra is its turbocharged 3.0-liter inline 6-cylinder engine. 6-Speed Manual Transmission

Intensify the connection between you and your GR Supra. Available with a 6-speed intelligent Manual Transmission (iMT) that optimizes revs as you shift, GR Supra puts 382 horsepower ² and 368 lb.-ft. of torque at your fingertips.

8-Speed Automatic Transmission

GR Supra's 8-speed Automatic Transmission is compact, lightweight and strong. Its placement has been precisely calculated to help optimize the overall center of gravity, and its components are robust enough to welcome the ferocity of the turbocharged engine.

Normal and Sport Driving Modes

Own the streets or conquer the track with the push of a button. Normal Mode is perfect for your commute, offering a smooth ride, easy handling and effortless shifting, while Sport Mode transforms GR Supra into a true track-dominating beast, punctuated by a deeper, meaner exhaust rumble.
