ABOUT TOYOTA
World-Class Quality

Since the company’s founding over 75 years ago, Toyota has always gone the extra mile to do things differently – embracing change and challenge alike on the road to worldwide success, innovation, and manufacturing excellence.

In 2022, Toyota continues to drive the international automotive industry forward with its commitment to class-leading engineering, groundbreaking design, and game-changing technological advancements.

1957
Toyopet Crown arrives in the U.S.

2000
Prius hits the road in the U.S.

2021
"Fully Electric" concept SUV debuts in the U.S.
The Toyota Difference

Toyota has been part of the cultural fabric of the United States for over 60 years, empowering American businesses by advancing sustainable, next-generation mobility.

Diversity & Inclusion
The future of Toyota depends on the wellbeing of dealership employees and the company’s ability to embrace diversity, respect, and inclusivity.

Jobs & Investments
Toyota has fully modernized the manufacturing process – expanding biodiversity efforts and doubling down on electrified vehicles.

Sustainability
Toyota offers more hybrid choices than any other full-line manufacturer, and has sold more than 15 million hybrid vehicles worldwide.¹

Vehicle Production
Toyota is proud to continue production in the States, where assembly is completed on models like Tundra, Corolla, Camry, and Avalon.

Business Continuity
Toyota is dedicated to helping address supply shortages, production obstacles, and even large-scale market fluctuations.
Investing in America

Toyota raised its stake in U.S. operations to increase production and create a wealth of new jobs, with direct investments in the American economy totaling $30.6 billion. Additionally, Toyota has paid it forward by investing $1.15 billion in total U.S. donations for non-profits – along with hundreds of millions in dealerships and facilities across the country.

- People directly employed in the U.S.: 176,000+
- Total jobs created in the U.S.: 470,000+
- Toyota dealerships across the country: 1,200+
- Total investments in U.S. economy since 1957: $30.6+ Billion
- Five-year committed investment plan fulfilled one year early: $13 Billion
- Total USA donations: $1.15+ Billion
Optimized Productivity

The Toyota Production System is a well-oiled machine, responsible for Toyota’s position as one of the most capable, efficient, and productive automotive manufacturers on the planet. In 2021, Toyota has kicked the system into overdrive – increasing its yearly worldwide output to a record high of over 9.2 million vehicles.

To maintain this industry-leading advantage and better serve Fleet customers, Toyota coordinates with manufacturers, suppliers, and customers to minimize costs while maximizing quality, production speed, and vehicle availability.
Innovation Meets Collaboration

Drawing on the diverse backgrounds and perspectives of dedicated employees across the country, Toyota has been able to drive innovation, collaboration, and a refined manufacturing process – creating new jobs and providing a boost to the U.S. economy.105

Recognized as a Top 10 diversity leader

Received 13 consecutive perfect scores for LGBTQ+ workplace equality

Honored for investments in minority businesses totaling $1 billion
Fueling the Future

Toyota fosters a more sustainable society by addressing global environmental issues like climate change, resource depletion, and habitat loss. Recently, Toyota Financial Services issued its fifth Green Bond of $750 million to fund new vehicle contracts that meet clean air criteria.

Toyota has set its sights on six global challenges that will lead to positive changes in its manufacturing process – and the overall environment – by 2050.

1. New Vehicle Zero CO₂ Emissions Challenge
2. Life Cycle Zero CO₂ Emissions Challenge
3. Plant Zero CO₂ Emissions Challenge
4. Challenge of Minimizing and Optimizing Water Usage
5. Challenge of Establishing a Recycling-based Society and Systems
6. Challenge of Establishing a Future Society in Harmony with Nature
Strategy & Supply

Toyota’s fine-tuned business continuity plan helps to ensure quality and consistency, building toward a sustainable supply chain that cuts down on waste and increases production capacity.

Given the surge of demand for electrified Toyota Fleets, Toyota has combined its highly effective inventory management with a cutting-edge assembly system and a world-class network of suppliers and component manufacturers.104

- **14** Active manufacturing plants in North America110
- **+17%** Total increase in production over 2020
- **1+ Million** Money invested every hour into worldwide R&D
- **26+ Billion** Total parts, materials and components purchased in 2020.
Build Your Electrified Fleet

Toyota is a leader in electrified mobility – with a diverse lineup of hybrid, plug-in hybrid, fuel cell, and battery electric vehicles. And with electric vehicle emissions dropping by 15% in the last three years, clean energy is getting cleaner all the time.

So it’s no surprise that Toyota is committed to a lineup that includes electrified versions of every model by 2025.

Hybrid Electric
Toyota’s hybrid electric vehicles have made history, renowned for top notch efficiency and low emissions.

Plug-in Hybrid Electric
PHEVs meet in the middle – using a mix of rechargeable battery power and conventional fueling systems.

Fuel Cell Electric
FCEVs utilize hydrogen to generate their own electric charge. As for their emissions? Nothing but water vapor from the tailpipe.

Battery Electric
These pure electric vehicles replace combustion engines with electric motors, providing silent, smooth, and clean propulsion.
The Height of High Tech

Every Toyota model on the market delivers state-of-the-art technology that prioritizes safety, convenience, capability, performance, and entertainment.

The goal? Advanced features that can fully unlock a Fleet’s potential with effortless, seamless, and intuitive mechanics.

Connectivity
The 2022 Toyota lineup is designed to stay connected to the driver, dealer, and beyond.

Safety
Advanced safety is a core piece of the Toyota formula.

Advanced Powertrains
New powertrain units significantly improve both driving and environmental performance.
It’s All Connected

True connectivity is the driving force behind Toyota’s achievements in mechanical and software engineering. With Connected Services, Toyota Fleet drivers are instantly plugged into a suite of intuitive convenience features that are available with an active subscription.

Meanwhile, Toyota Data Solutions allows Fleet Managers to monitor the condition and location of their entire fleet – 24 hours a day, 7 days a week – as well as helping with driver safety and vehicle efficiency with on-demand data that includes driver behavior analytics, collision detection warnings, and custom event notifications.

Connected Services
Enjoy added convenience, safety, and peace of mind.

Toyota Data Solutions
Critical telemetry services to help manage fleet vehicles.
Enjoy 24/7 Connectivity

Toyota’s available Connected Services*3 help provide Toyota Fleet managers with added convenience, safety, and peace of mind.

**Remote Connect**
1-Year Trial Period

- ✓ Remote lock/unlock doors, start/stop the engine, and locate the vehicle.
- ✓ Receive alerts when a Guest Driver exceeds the speed limit, curfew, or miles driven.
- ✓ Receive vehicle status alerts.

**Safety Connect**
1-Year Trial Period

- ✓ Automatic Collision Notifications
- ✓ Enhanced Roadside Assistance6
- ✓ Emergency Assistance Button
- ✓ Stolen Vehicle Locator7

**Service Connect**
10-Year Trial Period

- ✓ Receive vehicle alerts from your preferred dealer when maintenance is required.
- ✓ Get updates on fuel level, mileage, applicable recalls and more.

**Wi-Fi Connect**
3-Month Trial Period/Up to 2GB

- ✓ In-vehicle Wi-Fi hotspot using a 4G LTE cellular network.
- ✓ Connectivity for up to five devices simultaneously.
  (Trial period information can vary by model.)

**Destination Assist**
1-Year Trial Period

- ✓ Enjoy 24-hour access to a live agent who can give directions to an address via the navigation system.

  Display map data, routes and points of interest on the navigation system

**Dynamic Navigation**
Up to 3-years Trial Period

- ✓ Display map data, routes, and points of interest on the navigation system.
- ✓ Access favorite destinations, view recent searches, or choose an address from the Contacts list.

*Select models only.
Fleet Management Made Easy

More than 20 Toyota models now offer critical telemetry services to help Fleet Managers stay up to date on their vehicles. By eliminating installation time and providing a built-in OEM hardware solution, keeping track of drivers and vehicles has never been easier. Learn more at toyotadatasolutions.com.
Safety Comes Standard

Safety is a key part of the Toyota Fleet formula. Which is why every Fleet vehicle in the 2022 lineup comes standard with a wide range of active and passive safety features, like Toyota Safety Sense™ (TSS)\(^1\) and the Star Safety System™ – as well as comprehensive airbag\(^2\) arrangements and standout safety tech like an available Blind Spot Monitor (BSM)\(^3\) with Rear Cross-Traffic Alert (RCTA)\(^4\).
Toyota Safety Sense™

**Pre-Collision System**
An integrated camera and radar system that helps reduce the likelihood of colliding with a preceding car or pedestrian.

**Dynamic Radar Cruise Control**
This high-tech cruise control uses radar to adjust the vehicle’s speed, helping drivers maintain a preset distance from nearby cars.

**Lane Departure Alert**
A windshield camera that may help drivers avoid unintended visible lane departures by alerting them when the vehicle veers from its lane.

**Lane Tracing Assist**
Lane Tracing Assist uses the visible lines on the road and preceding vehicles to help keep the vehicle centered and in its lane.

**Automatic High Beams**
Designed to aid nighttime driving by detecting headlights and taillights of preceding vehicles.

**Road Sign Assist**
Road Sign Assist detects speed limit signs, stop signs, do not enter signs, and yield signs – then shows them on the Multi-Information Display.

*Not on TSS-P.*
The Toyota Safety Sense™ (TSS) suite of active safety systems is currently offered across several bundles – and they all come standard. Here’s how the applicability breaks down.

### Across the Lineup

</tr>
</tbody>
</table>
Star Safety System

The Star Safety System comes standard on every Toyota vehicle – helping drivers maintain control, keep an eye on surrounding traffic, and avoid collisions.

These six systems are designed to enhance driver reaction times, give Fleet Managers added peace of mind, and help keep everyone in the vehicle safe and secure.
The Bright Future of Mobility

Mobility as a Service (MaaS) is when a customer pays to access transportation means through a third-party service provider who owns vehicles, like a car or bike. By 2040, Toyota expects to grow its MaaS ecosystem through car sharing, subscription services, and micro-mobility solutions – with the added benefits of reduced accidents, congestion, and pollution.

Rent a Toyota
A dealership-based rental platform that leverages the latest model Toyota vehicles.

KINTO Share
A ride share service connecting drivers to Toyota vehicle rentals on an hourly or weekly basis with unlimited mileage, insurance, maintenance, and customer service.

Ride Hailing
Toyota is teaming up with ride-hailing partners like Aurora to develop driverless mobility services, working to build and deploy self-driving vehicles around the world.
Get What You Pay For, And Then Some

Backed by outstanding sales numbers, automaker accolades, consumer evangelism, and an always growing lineup of technologically advanced and fun-to-drive vehicles, Toyota stands at the top of the industry as one of the most valuable automobile brands in the world.

Total Cost of Ownership
Reliability, durability, and efficiency lead to Toyota models that are built to last and affordable to maintain.

ToyotaCare
Toyota’s complimentary maintenance plan covers factory scheduled service for 2 years or 25,000 miles, along with 24-hour Roadside Assistance for 2 years.

Warranty
Every new Toyota is covered by comprehensive warranty packages, including standard 3-year/36,000-mile coverage and an industry-leading 10-year/150,000-mile hybrid battery warranty.

Awards & Accolades
Toyota’s award-winning vehicles race ahead of the competition – picking up multiple IIHS, NHTSA, and Kelley Blue Book value awards.
Long-Term Payoffs

Toyota takes special care to keep the cost of ownership as low as possible – always striving to maintain quality and affordability. And when measured against the industry’s best-selling models, Toyota punches well above its weight. Toyota models have earned a reputation for efficiency and impressive MPG on highways and city streets, putting in the work to keep fuel costs to a minimum. On top of that, Toyota Fleet vehicles stand apart with the best resale (and lowest depreciation) values in the industry, maintaining high-quality performance year after year after year.

Backed by over 30 years of automotive research and analysis, IntelliChoice provides comprehensive long-term cost estimates and value ratings for nearly every vehicle on the market, and it’s no surprise that Toyota frequently comes out on top.
You’re Covered

Toyota Fleet is devoted to safety and dependability – and proper vehicle maintenance is important to both. That’s why Toyota includes a maintenance plan and roadside assistance with every new Fleet vehicle.

No Cost Maintenance Plan

2 Years/25,000 Miles*

Toyota-trained technicians will perform factory recommended maintenance on Toyota Fleet vehicles, including:

- Replace engine oil and oil filter
- Rotate tires
- Multi-point vehicle inspection
- Inspect and adjust all fluid levels

*Whichever comes first.

24-Hour Roadside Assistance

2 Years/Unlimited Miles

24-hour roadside assistance is provided at no cost for 2 years from the effective date, for unlimited miles. Services include:

- Battery jump start
- Lockout protection
- Emergency fuel delivery
- Tire service
- Towing
- Winching
A Worthy Warranty

Every Toyota Fleet vehicle comes standard with a comprehensive warranty package that includes 3 years or 36,000 miles of limited coverage. But the buck doesn’t stop there.

Gold Star Standards

On top of a robust warranty and a low cost of ownership, Toyota has been recognized as an industry leader across the board when it comes to safety, performance, reputation, and value.

2021 IIHS Top Safety Pick
Six Toyota models awarded Top Safety Pick, and three models awarded Top Safety Pick+.

2020 NHTSA Safety Rating
10 Toyota models awarded a 5-Star Overall Safety Rating.

2021 Vincentric Best Fleet Value in America
Six models awarded for outstanding value, more than any other manufacturer.

2021 Kelley Blue Book® Best Buy Award
Tacoma, Sienna, RAV4, and RAV4 Prime awarded “Best Buy” by KBB.

2021 Autotrader Best New Car Award
The new-to-market 2021 Venza tops Autotrader’s standings.
TOYOTA FLEET INFORMATION
A Custom-Fit Toyota Fleet

Committed to delivering vehicles that meet and exceed the expectations of Fleet customers, Toyota Fleet goes above and beyond to tailor individual vehicles to a client’s unique situation. This means partnering with companies that can provide upfitting solutions by adding additional equipment to a new vehicle, along with full-scale mobility conversions that implement holistic removals and replacements.

**Auto Truck Group**

Auto Truck Group specializes in the design, manufacture, and installation of truck equipment for a wide variety of customers, trades, and industries. They are ready to help pool/dealer customers, fleets, construction, energy and telecommunications, utilities, municipal and state governments, railroads, and many other businesses and industries.

**Knapheide**

Efficient manufacturing processes and flexible assembly lines enable Knapheide to produce both standard and highly customized truck and van bodies. Their products include service bodies, KUV bodies, platform bodies, gooseneck bodies, dump bodies, forestry bodies, pickup accessories, mechanic’s trucks, fuel and lube trucks, and water trucks.

**BraunAbility**

Voted #1 in overall quality, service, safety, and value, BraunAbility is the most-certified accessible vehicle manufacturer in the industry. Engineering built-to-trust mobility vehicles, BraunAbility converts vehicles by removing ancillary equipment and installing vendor-specific replacements – developing customized mobility solutions for every kind of driver.

**Vantage Mobility International (VMI)**

A pioneer in the mobility vehicle industry, VMI builds cutting-edge accessibility conversions that are tailored to the needs of disabled drivers. Working arm-in-arm with original equipment manufacturers, VMI’s state-of-the-art conversion process features the latest in assembly-line technology and CAD software.
Long Distance? No Problem.

Toyota Fleet can ship its entire line of vehicles to a wide range of delivery and pickup locations, including approved drop-ship locations and Toyota Executive Delivery dealers. Over 800 Toyota dealerships around the country are enrolled in the Commercial Toyota Executive Delivery (TED) program.

As part of the TED agreement, these dealers will:

- ✔ Perform quality courtesy delivery of vehicles
- ✔ Appoint a dealership contact to coordinate deliveries
- ✔ Negotiate a delivery fee not to exceed $350/vehicle

A list of TED dealers can be found at fleet.toyota.com.
High Value, Low Cost

Competitive pricing is offered across the entire Toyota lineup. So not only is Toyota Fleet’s trademark value evident in its high-quality, fuel-efficient vehicles, but through available Fleet pricing and discount incentives.

PRODUCT PORTFOLIO
WHAT’S NEW FOR 2022

The 2022 model year showcases an impressive lineup that includes both new and updated vehicles. These models continue to push the envelope for active safety technologies, audio multimedia enhancements, and high-tech convenience features – on top of stylish, refreshed designs both inside and out.

- 2022 Corolla Cross
- 2022 Tundra
- 2022 RAV4
Corolla Cross delivers classic Corolla convenience and dependability with a crossover spin – the perfect entry into America’s fastest growing vehicle segment.

Inside, the intuitive interior layout offers ample space for cargo and comfortable seating for five, while outside, it’s the perfect size to maneuver through traffic or tight spots in the city.

And on the road, Corolla Cross has excellent fuel economy ratings and provides peace of mind from a range of standard safety and convenience equipment.

Up to 26.5 cu. ft. cargo volume

66.8 cu. ft. with rear seats folded

EPA-est. 32 mpg (comb.)

30 mpg (comb.) with available AWD

3.0” longer than C-HR

5.3” shorter than RAV4
The Toyota Safety Sense™ 2.012 suite of active safety systems comes standard on all grades.

The available Front and Rear Parking Assist with Automatic Braking™ helps with getting in and out of a tricky spot.

Dynamic Force 2.0L 4-Cylinder Engine w/ Direct Shift CVT
169 hp | 151 lb.-ft. of torque

EPA-est. MPG (city/highway/combined)
FWD: 31/33/3213 city/hwy/comb
AWD: 29/32/3015 city/hwy/comb

An available power liftgate provides easy access to Corolla Cross’ rear cargo area.

Qi wireless charging17 is available to make tangled cables a thing of the past.

Available All-Wheel Drive (AWD) provides added traction for all grades.

A 1,500-lb. tow rating18 comes standard on every grade.

To learn about Toyota's Connected Services data collection, use, sharing and retention practices, please visit https://www.toyota.com/privacyvts. The Safety Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. Paid subscription required after trial to access the service. Terms of use apply. Requires adequate cellular coverage and GPS signal strength. May not work in all areas. Service may vary by vehicle and region. See Toyota Dealer for details and exclusions. 7. Building and/or parking structures may limit system effectiveness. Stolen vehicle police report required to use Stolen Vehicle Locator. For additional assistance contact the Toyota Customer Experience Center at 1-800-331-3331. 8. Information provided is based on the last time data was collected from the vehicle and is not real time data. Service Connect depends on factors outside of Toyota's control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. Wi-Fi Connect trial begins at the time of activation and expires when 2GB of data is used or when the 3-month period ends. Service may vary by vehicle and region. Requires app download and registration (subscription after trial if applicable). Service subject to change at any time without notice. Terms of use apply. Data charges may apply. See usage precautions and service limitations in Toyota Owner's Manual and https://www.toyota.com/connected-services for additional limitations and details. To learn about Toyota's Connected Services data collection, use, sharing and retention practices, please visit https://www.toyota.com/privacyvts. 9. Service is not a substitution for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See owner's manual for additional limitations and details. 10. Destination Assist depends on factors outside of Toyota's control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. Wi-Fi Connect coverage and availability may not be limited or precluded. Wi-Fi Connect and service availability may not be available everywhere. Valid in the contiguous U.S. and Alaska. Do not drive distracted. Go to www.toyota.com for terms and conditions. Data usage and charges may apply. Up to 5 devices can be supported using in-vehicle connectivity. Apps and services subject to change at any time without notice. The Wi-Fi Connect trial begins at the time of activation and expires when 2GB of data is used or when the 3-month period ends. Service may vary by vehicle and region. Requires app download and registration (subscription after trial if applicable). Terms of use apply. Data charges may apply. Owner's Manual and Toyota.com/connected-services for additional limitations and details. To learn about Toyota's Connected Services data collection, use, sharing and retention practices, please visit https://www.toyota.com/privacyvts. The Destination Assist trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. Paid subscription required after trial to access the service. 11. Dynamic Navigation depends on factors outside of Toyota's control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. Services not available in every city or roadway. Use common sense when relying on information provided. Service may vary by vehicle and region. Registration is required. Subscription required after trial. Terms of use apply. Display may vary. See Owner's Manual and https://www.toyota.com/connected-services for additional limitations and details. To learn about Toyota's Connected Services data collection, use, sharing and retention practices, please visit https://www.toyota.com/privacyvts. The Dynamic Navigation trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. Paid subscription required after trial to access the service. 12. Toyota Safety Sense effectiveness is dependent on many factors including road, weather and vehicle conditions. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. See Owner's Manual for additional limitations and details. 13. Airbag systems are Supplemental Restraint Systems and are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details. 14. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details. 15. Do not rely exclusively on the Pre-Collision System. Always look over your mirrors to confirm completeness of object detection. There are limitations to the full-speed detection range of the system. See Owner's Manual for additional limitations and details. 16. The Pre-Collision System (PCS) is designed to detect and alert the driver of potential forward collisions at high speeds. See Owner's Manual for additional limitations and details. 17. The Dynamic Cruise Control (DCC) is designed to assist the driver to maintain a selected speed. It is not a substitute for safe and attentive driving. 18. Looping is the inadvertent operation of the cruise control system by an operator. 19. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain can all affect effectiveness of the system. 20. Lane Departure Alert (LDA) is designed to alert the driver of unintended lane departures. It is not a substitute for safe and attentive driving. Factors such as speed, road conditions and driver input can all impact detection. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner's Manual for additional limitations and details. 21. Lane Departure Alert (LDA) is designed to alert the driver of unintended lane departures. It is not a substitute for safe and attentive driving. Factors such as speed, road conditions and driver input can all impact detection. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner's Manual for additional limitations and details. 22. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving. 23. Electronic Stability Control (ESC) is designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving. 24. The Toyota Owner's Manual contains important safety Caution Practices. Please refer to the Toyota Owner's Manual for additional limitations and details. 25. ToyotaCare covers each owner's factory scheduled maintenance for two years or 25,000 miles, whichever comes first. Certain models require a different maintenance schedule as described in their Maintenance Guide. 24-hour Roadside Assistance is also included for two years, unlimited mileage. Roadside Assistance does not include parts and fluids, except emergency fuel delivery. See Toyota dealer for details and exclusions. Valid only in the continental U.S.
