# Build Your Electrified Fleet

Toyota is a leader in mobility, with America's largest and most diverse lineup of Hybrid, Plug-in Hybrid, Fuel Cell and Battery Electric vehicles.<sup>6</sup> And as we accelerate toward a net-zero carbon future, there's a Toyota made just for your business needs.

# Blended Powertrain Fleet

With more vehicles equipped with electrified powertrains on the U.S. roads than any other automaker, we're not just promising a cleaner future, we are helping to provide one. From internal combustion engines (ICE) to all-electric vehicles — the easiest way to start reducing carbon emissions is by creating a fleet made up of a variety of powertrains.

## Hybrid Electric (HEV)

Toyota's hybrid electric vehicles have made history and are renowned for top-notch efficiency and low emissions.

- ✓ Short commutes

## Battery Electric (BEV)

These pure-electric vehicles use only powerful electric motors to provide smooth, silent and clean propulsion.
