Let’s make some family memories that don’t rely on a Wi-Fi signal. Meet the commanding 2016 Toyota Sequoia, the SUV built to inspire your kids’ most-liked status updates. Sequoia provides seating for up to eight;¹ along with the cargo room you want for everyone’s gear. Inside, its host of high-tech features gives your family the ultimate in convenience and comfort. And to help bring your dream adventures to life, Sequoia offers a powerful V8 engine and genuine all-terrain capability. Sequoia gets the job done and helps you live the lifestyle you love with room to spare. Now when you share the family blog everyone will be impressed. Let’s go places.

Nothing brings a family together quite like traveling. New experiences in new places make for lasting memories. And with so much capability, Sequoia is the ideal vehicle to help your family create those memories.

120 cubic feet of family room:
Sequoia's big cabin offers much more than just space. There's comfortable seating for eight\(^2\) with the standard third row, and a variety of seating configurations to handle any combination of passengers and payload. Or fold all the seats flat and reveal 120 cubic feet of cargo capacity—perfect for that drum kit, those home improvement materials or that eight-person tent.

VERSATILITY AND CIVILITY
There's more to Sequoya's interior than meets the eye. There's also a hidden storage compartment under the rear floor, a 12V auxiliary power outlet and grocery bag hooks. Third-row passengers will find cup holders, personal storage and, on Limited and Platinum, retractable sunshades.

---

Sequoia’s reclining third-row seat is wide enough for three adults to ride in real comfort. Or utilize its 60/40 split-fold versatility to quickly accommodate both people and cargo.

As you might expect, the sliding second row is versatile too. Its 40/20/40 split-fold design lets second-row passengers slide their seat to match their own idea of leg room.

The second row also features one-touch access to the third row. When entering the passenger-side door, simply pull the lever on the outside of the second-row seat, which simultaneously folds and slides forward to make entry a breeze.

With spacious seating for eight, Sequoia has room for the whole family and then some. And what could be better? After all, adventures are best shared.
If only your work schedule were this flexible.

No matter what you’ve got planned, Sequoia is happy to oblige. Both the sliding second-row and third-row seats fold flat, making it easy to load and unload all the gear your road trip requires. And the split-fold seat design lets you choose how to stow your cargo: upright or flat. Of course, with its spacious interior, reclining third-row seats and available second-row console, Sequoia is as accommodating to passengers as it is to cargo. So what are you waiting for?

Power® Reclining and Fold-Flat Third-Row Seat
When it comes to comfort, the available power reclining and fold-flat third-row seat will make settling in for the long haul as easy as pushing a button.

Front-Seat Console
The front-seat console on the Platinum edition offers climate controls and cup holders for those in the second row. There are also RCA jacks for the rear-seat Blu-ray Disc™ player and a handy 115V AC power outlet.

Open to adventure.

It’s remarkable what you can put in Sequoia, but it’s even more remarkable what you and your family will get out of it. Sequoia’s available power liftgate makes it easy to access that cavernous cargo bay and all your gear. Just press a button on the key fob and the liftgate gently releases upward. Let the fun begin.

Sometimes you don’t realize how much you might appreciate something until you have one yourself. Then you don’t know what you ever did without it. Sequoia’s convenient available power liftgate is one of those things.
Platinum 4x4 interior shown in Graphite.
Tell your neighbors you spent the weekend “roughing it.”

Judging by the pamphlets you brought back from Death Valley and the Badlands, your friends might think you had just subjected your family to an inhospitable ordeal. How wrong they’d be. In addition to the available heated/ventilated driver and front passenger seats offered in Sequoia Platinum, there’s also a standard™ rear-seat Blu-ray Disc™ player. And when it’s time to depart, simply set the standard™ Dynamic Laser Cruise Control (DLCC)® and let your “adventure” unfold.

**Rear-Seat Blu-Ray Disc™ Player**
Sequoia’s second-row seat will have your kids hoping they’re not there yet. That’s because they can watch the latest movies or play video games on the available rear-seat Blu-ray Disc™ player with 9-in. display. Plus, all their movies and games will stow tidily away in Sequoia’s many storage compartments. And to keep front-seat occupants from feeling left out, Sequoia offers an excellent JBL Synthesis® audio system with 14 speakers.

**Entune™ Audio Plus with Connected Navigation App®**
The fun way to access music and data on the go. You won’t miss a beat with Sequoia’s standard Entune™ Audio Plus with Connected Navigation App, thanks to features like a 6.1-in. high-resolution touch-screen display, AM/FM CD player with MP3/WMA playback capability, auxiliary audio jack, Siri® Eyes Free® and USB port with iPod® connectivity. And when paired with a compatible smartphone equipped with the Scout® GPS Link®, Entune™ Audio Plus also becomes your source for turn-by-turn directions.

**Entune™ Premium Audio With Integrated Navigation® and App Suite®**
Sequoia takes high tech even higher with the available new Entune™ Premium Audio system with Integrated Navigation and App Suite. With the Entune® App Suite, you have a collection of popular apps including Destination Search, iHeartRadio, MovieTickets.com, OpenTable®, Pandora®, Yelp®, Facebook Places and Slacker Radio — all just a touch away. Need info on your stocks, weather, sports or fuel prices? No problem. Real-time info is included, even your local weather forecast to help plan your day. Sequoia Platinum takes it one step further with JBL® speakers and amplifier for crisp, dynamic sound that delivers a powerful punch.

**Storage Compartments**
In addition to its vast cargo area and a multitude of cup holders, Sequoia offers a variety of other storage options. The dual-level glove compartment has a large compartment below for, well — large things — and a smaller compartment above for documents and other flat items.

---

1. Available on Limited, standard on Platinum. 2. Standard on Platinum, not available on Limited or SRS. 3. See footnote 25 in Disclosures section. 4. Available on SR5 only. 5. See footnote 18 in Disclosures section. 6. See footnote 20 in Disclosures section. 7. See footnote 12 in Disclosures section. 8. See footnote 13 in Disclosures section. 9. See footnote 21 in Disclosures section. 10. See footnote 19 in Disclosures section.
You planned your trip. We planned your return.

With Sequoia, one thing you’ll never leave behind is peace of mind. Sequoia’s equipped with an array of active safety features to help you avoid trouble, and passive safety features to help protect you if trouble proves unavoidable. It also offers features such as available Dynamic Laser Cruise Control (DLCC). While not technically a safety feature, DLCC automatically adjusts vehicle speed to help maintain a preset distance between you and the vehicle in front of you. We go to these lengths because, as with any excursion, there’s no substitute for preparation.

**Star Safety System™**
Sequoia comes standard with the Star Safety System™, a suite of six advanced safety features designed to help keep drivers out of harm’s way. The system includes Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology® (SST).

**Tire Pressure Monitor System (TPMS)**
The Tire Pressure Monitor System (TPMS) evaluates the pressure of the tires. When pressure is critically low, the monitor issues a warning, allowing the driver to address concerns.

**Advanced Control Technologies**
An Anti-lock Brake System (ABS) helps prevent brakes from locking up, while the sophisticated Vehicle Stability Control (VSC) helps prevent front and rear wheelslip by monitoring your steering angle and comparing it to the direction in which your vehicle is traveling.

**Pet Travel Safety**
Toyota offers a wide range of available pet accessories designed to help you transport your furry companions in comfort and security. Ask your Toyota dealer for details.

ALL-ROW SIDE CURTAIN AIRBAGS
Helping to protect all three of Sequoia’s passenger rows from front to back are standard all-row side curtain airbags.

KNEE AIRBAGS
Sequoia’s comprehensive Supplemental Restraint System (SRS) provides a total of eight airbags, including standard driver and front passenger knee airbags.

3-POINT SEATBELTS
All seats offer 3-point seatbelts. The front seats have pretensioners and force limiters, while second-row seats have an adjustable shoulder anchor and pretensioner on outboard seats.

LATCH
LATCH (Lower Anchors and Tethers for CHildren) includes lower anchors on all second-row seats and tether anchors on all second-row seats and the center seat in the third row.

1. See footnote 29 in Disclosures section.
When you take your family into the sticks, you need a vehicle that’s strong and reliable. Precisely what you get with Sequoia. It’s forged on a fully boxed frame for strength and durability. It also boasts an available 381-hp 5.7L V8 with up to 7400 lb. of towing capacity. Plus, a TOW/HAUL Mode that selects transmission shift points to optimize that power. So grab the gang and the gear. Where you’re going, you won’t need to fight for a space to put the picnic blanket.

1. See footnote 8 in Disclosures section for more information on towing. 2. Do not overload your vehicle. See Owner’s Manual for weight limits and restrictions.
POWERFUL V8 ENGINE
Sequoia comes standard with an all-aluminum 5.7L V8 that puts out 381 hp and 401 lb.-ft. of torque. Plus, this powerplant has received an Ultra Low Emission Vehicle II (ULEV-II) rating, because with power comes responsibility.

ELECTRONICALLY MODULATED AIR SUSPENSION
Maintaining ride height is important when the vehicle is carrying many passengers or a lot of cargo weight. That’s why Sequoia’s Platinum model features Electronically Modulated Air Suspension. It allows the driver to adjust ride height to compensate for changes in load. So Sequoia’s ride is always the same: smooth.

BLIND SPOT MONITOR (BSM)™
LANE CHANGE ASSIST
Even with adjusted side mirrors, adjacent vehicles may enter “blind spot” areas to the side and rear of the vehicle that are outside of view. Sequoia’s Blind Spot Monitor system, standard on Platinum, optional on Limited, uses radar to scan these blind spots for other vehicles.

TRAILER-SWAY CONTROL (TSC)™
When towing, winds or load undulation can cause trailer sway. TSC is designed to apply brake pressure at individual wheels and manage engine torque to help the driver maintain control of the trailer.

FRONT AND REAR SUSPENSION
Sequoia’s independent double-wishbone front and rear suspension gives you the best of both worlds: responsive handling on pavement and a smoother ride off-road. This sophisticated suspension utilizes low-pressure gas-filled shock absorbers and hollow stabilizer bars. Also enhancing Platinum’s on-road performance is Adaptive Variable Suspension (AVS) with three settings ranging from “comfort” to “sport.”

MULTI-MODE 4WD
This available system can turn mountains into molehills. Just turn the shift dial to engage the 4WD mode and let the Torsen® limited-slip center differential go to work. The differential locks up to get maximum traction on slippery or uneven surfaces.

AUTOMATIC LIMITED-SLIP DIFFERENTIAL (AUTO LSD)
Sequoia’s advanced Automatic Limited-Slip Differential (Auto LSD) uses the brakes to help reduce wheelspin and enhance traction performance on unpredictable road surfaces like sand or mud.

For more information about our available audio systems, as well as Bluetooth®-compatible features, please contact your local Toyota dealer.

See numbered footnotes in Disclosures section.
speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your driving practices.

HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp.

Subscriptions governed by SiriusXM Customer Agreement available at www.siriusxm.com. If you decide to continue your SiriusXM service at the end of your free trial, the source of your vehicle is limited by weight and distribution. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost from your dealer. Please see your Navigation System Owner's Manual for details. 19. Pandora®, the Pandora® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., used with permission. 20. Always drive safely, observe traffic laws and focus on the road while driving. Driving performance depends on phone/carrier. Functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details. 21. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on phone, coverage and carrier. 22. Advanced voice recognition capabilities vary by head unit. 23. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 24. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details. 25. Dynamic Laser Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner’s Manual for important instructions and cautions. 26. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 27. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner’s Manual for further details. 28. Smart Stop Technology® operates only in the event of certain simultaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner’s Manual for further details. 29. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or lean against the seatback. Do not put a forward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner’s Manual for further information/warnings.

The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help, or you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org.

For your vehicle to be kept overnight for repairs covered under warranty, please see your authorized Toyota dealership for further details. For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.
