Pack-leading capability.
The 2018 Toyota Tacoma.

Those who know dirt, know Tacoma. Backed by Toyota's heritage of toughness, it’s the pickup truck that defines off-road cred, proving itself daily as it conquers extreme terrain all over the globe. It’s the stuff that’s made Tacoma one of the most sought-after nameplates in trucks, and this rig is only getting better. New for 2018 is Toyota Safety Sense™ P (TSS-P)™ — an advanced suite of active, high-tech safety features. And best of all, it comes standard on every 2018 Tacoma. So wherever your weekend takes you, you can bet that Tacoma’s got your back.

TRD Off-Road Double Cab shown in Cement with available Premium and Technology Packages and mudguards. Prototype shown with options. See numbered footnotes in Disclosures section.
“The real fun starts where the trail ends. Let’s do this!”
Wears dirt like a badge of honor.

Whether freshly waxed, coated in dust or caked in mud, Tacoma’s good looks impress from every angle. Up front, its aggressive grille and available hood scoop hint at the power that lies under the hood. The strong profile reveals chiseled lines, muscular fenders and a purposeful off-road stance. Out back, a tailgate embossed with the Tacoma logo finishes off this truck’s athletic look.

PROJECTOR-BEAM HEADLIGHTS

Let’s light it up. Standard projector-beam headlights shine brightly, helping you get a better nighttime view of the road ahead.

EASY LOWER TAILGATE

The easy lower tailgate opens smoothly, is easily removed when needed, and can be locked to help keep your gear secure.

REAR COMBINATION TAILLIGHTS

Smoked taillights give TRD Off-Road and TRD Sport a bold touch. And on Limited, these lights feature clear lenses to add just the right amount of sophistication.

See numbered footnotes in Disclosures section.
TRD Off-Road Double Cab shown in Cement with available Premium and Technology Packages and mudguards. Prototype shown with options.
The power to play harder.

When the adventures get bigger, so do the toys. Good thing Tacoma's got the brawn to help bring them all with you. When equipped with the available 3.5-liter V6, which includes a standard Tow Package, this truck can tow up to 6800 lbs. And the 4-/7-pin connector sits cleanly inside the three-piece bumper, helping you haul things out without hitting any snags.

3.5L V6 DIRECT-INJECTION ENGINE
Tacoma’s available 3.5-liter DOHC V6 direct-injection Atkinson-cycle engine gives you more of everything you want. It’s got 278 hp and 265 lb.-ft of torque, giving you the muscle you need to tow, haul and run the dunes. It’s also more efficient, helping the engine get better mpg too.

BILSTEIN® SHOCKS
Available Bilstein® shocks know how to keep their cool under pressure, delivering consistent performance when the going gets rough. Standard on TRD Off-Road, these shocks help soak up the impacts of the trail, thanks to high-performance components and valving tuned specifically for off-road driving.
TRD Off-Road Double Cab shown in Cement with available Premium and Technology Packages and mudguards. Prototype shown with options.

See footnotes 42 and 36 in Disclosures section for more information on payload and towing.
Obstacles don’t stand a chance.

This is where the rubber meets the dirt. With available equipment like an electronically locking rear differential, Crawl Control (CRAWL)\(^3\)\(^4\) and Multi-terrain Select, Tacoma’s ready to help you take on difficult terrain. We’re talking the same legendary capability that has helped make Toyota king of the off-road, wrapped in one rugged, advanced package. So when the trail gets tough, this truck’s got the guts to keep things going.
TRD Off-Road Double Cab shown in Cement with available Premium and Technology Packages and mudguards. Prototype shown with options.
Don’t just take the path less traveled – make it. The 2018 Toyota Tacoma TRD Pro is built for action, packed with the toughness you need to get to those places not found on a smartphone app. Designed by the pros at Toyota Racing Development (TRD), the Tacoma TRD Pro comes equipped with robust features like a TRD-tuned suspension with 2.5-in. FOX Internal Bypass shocks, a ¼-in.-thick aluminum skid plate and Rigid Industries® fog lights. It’s the same awesome prowess that’s helped the TRD Pro Series conquer volcanoes, the Arctic Circle and extreme jungle terrain, and it’s ready to help you conquer your next challenge. Keep pushing those limits. Let’s get dirty.
What is TRD?

Toyota Racing Development (TRD) is Toyota’s factory-backed racing division. While TRD USA has been building go-fast parts for Toyotas since 1979, our racing legacy traces back well over two decades before that. With a history rich in motorsports, TRD engineers have continued to apply their knowledge to help enthusiasts get more performance from their vehicles, while maintaining factory levels of quality and reliability. Our TRD Pro Series vehicles are factory-tuned and built to take you way off-road. No off-the-shelf components here; our engineers spend countless hours designing, testing and tuning with passion. And with capability this exciting, they will help fuel your passion too.

ACCESSORIES

You know your Tacoma is supremely capable right out of the box. But when you want to crank up the attitude, turn to those who know your truck best. Toyota Racing Development (TRD) brings you a line of accessories engineered just for your Tacoma. Each and every part is designed to give you maximum performance with proven dependability. And it’s all available from your local Toyota dealer. All you have to do is pick out which parts are right for you.

OTHER TRD PERFORMANCE PARTS AND ACCESSORIES

- TRD 16-in. off-road beadlock-style alloy wheel
- TRD oil cap
- TRD performance air filter
- TRD performance air intake
- TRD performance exhaust system
- TRD performance oil filter
- TRD radiator cap
- TRD shift knob (A/T)
- TRD shift knob (M/T)

Prototype shown with options.

TRD EXHAUST

The bark to match the powerful V6 bite. This cat-back exhaust is constructed from 304 stainless steel, and its precise CNC mandrel bends help maximize efficiency. Helping finish off the package is a chrome-plated, dual-walled tip with embossed TRD logo.

RIGID INDUSTRIES® LED FOG LIGHTS

These intense LED fog lights pack a lot of brightness into a compact package. Rugged construction and a wide-angle beam pattern help ensure you have light when, and where, you need it.

OTHER EXTERIOR ACCENTS

Projector-beam headlights with LED Daytime Running Lights (DRL) and black sport bezels border its heritage-inspired “TOYOTA” front grille. Bold badging hints at performance, and taillights with black bezels keep things looking subtly different in the rear. A blacked-out hood scoop and black overfenders finish off this truck’s bad-boy look.
TRD PRO SERIES

TRD PRO SERIES SKID PLATE
A unique TRD Pro skid plate comes standard on Tacoma TRD Pro. Constructed from ¼-in.-thick aluminum, this piece of armor helps protect crucial mechanical components underneath the front end, so you can even go beyond points on the map.

LEATHER-TRIMMED SEATS
Hard-core comfort. Heated, leather-trimmed seats help keep you warm when you’re charging through the snowy wilderness. And with TRD Pro logos embossed on the headrests, this truck’s interior is the most stylish cabin on the mountain.

OTHER INTERIOR ACCENTS
The interior features unique TRD Pro floor mats and a leather-wrapped shifter with a TRD shift knob. With its red contrast stitching, embossed TRD logo and bright chrome accent ring, taking control never looked — or felt — so good.

FOX INTERNAL BYPASS SHOCKS TUNED BY TRD
This is extreme engineering. FOX Internal Bypass shocks tuned by TRD give you the ultimate in performance and control. Featuring 2.5-in. aluminum housings; hardened, oversize shock shafts; a raised front ride height; and remote reservoirs in the rear; this suspension helps knock the edge off the rough stuff.

2017 model shown. Skid plate colors may vary.
FOX is a registered trademark of FOX Factory, Inc. (© FOX Factory, Inc.). See numbered footnotes in Disclosures section.
The comforts of base camp, wherever you go.

More than a command center, Tacoma's cabin is the ultimate hangout. Its clean layout and intuitive controls were designed with the driver in mind, and the soft-touch materials used throughout help everyone relax in style. Tacoma Off-Road grade brings even more good stuff, with features like available leather-trimmed seating surfaces and standard dual zone automatic climate control. And with room for up to five, Tacoma makes it easy to bring the whole crew along for the ride.

**TRD Off-Road Double Cab** interior shown in Black leather trim with available Premium and Technology Packages. Prototype shown with options.

GoPro® mount on the windshield is to be used with GoPro HERO cameras. GoPro® camera not included. GoPro, HERO, the GoPro logo, and the GoPro Be a Hero logo are trademarks or registered trademarks of GoPro, Inc. See numbered footnotes in Disclosures section.

**MULTI-INFORMATION DISPLAY**

The available 4.2-in. color Multi-Information Display can be customized to show info like your current mpg, song selection, individual tire pressure™ and available Multi-terrain Select setting.
It’s capable on the inside too.

Your location may be remote, but Tacoma’s tech helps keep you connected. The available Entune™ Premium JBL® Audio with Integrated Navigation® and Entune® App Suite® keeps you in tune with your music, phone book and more. Siri® Eyes Free® technology lets you access your compatible Apple® device using only your voice. And the standard GoPro® mount™ on the windshield makes it easy to capture all the weekend’s action.

INTERIOR TECHNOLOGIES

QI-COMPATIBLE WIRELESS CHARGING®
Leave the charging cable at home. With available Qi-compatible wireless smartphone charging, you just place your Qi-compatible device on top of the nonslip surface to help keep it charged up and ready to go.

INTEGRATED BACKUP CAMERA®
When backing up on a trail — or just backing out of your driveway — you need to see what’s behind you. The standard backup camera, mounted in the tailgate handle, helps you see an image of what the camera detects behind you on the audio display.

GOPRO® MOUNT™ ON WINDSHIELD
It’s time to make your adventures go viral. Tacoma comes standard with an integrated GoPro® mount on the windshield, so you and your crew can share the good times with the world.

MOONROOF
Open up to the elements. An available power moonroof helps bring the outside in, giving you everything from a cool breeze to an epic view of the stars.

GoPro® mount on the windshield is to be used with GoPro HERO cameras. GoPro® camera not included. GoPro, HERO, the GoPro logo, and the GoPro Be a Hero logo are trademarks or registered trademarks of GoPro, Inc. See numbered footnotes in Disclosures section.
TRD Sport Double Cab shown in Blazing Blue Pearl with available Premium and Technology Packages and mudguards. Prototype shown with options.
Leave nothing behind.

Tacoma’s standard composite bed surface is built to withstand the bumps, impacts and scuffs of your high-octane weekend. Its integrated heavy-duty deck rail system offers lots of adjustment, making it easy to tie down gear of all sizes. Now, when action calls, you’ll be ready to go.

COMPOSITE BED
Tacoma’s bed is comprised of an ultra-durable, fiber-reinforced Sheet-Molded Composite (SMC) surface. This material boasts a greater impact strength than steel and will help keep the bed of your truck looking good for years to come.

120V/400W POWER OUTLET
The available bed-mounted 120V/400W AC outlet helps you keep the action powered up, even when you’ve left civilization in your dust.

DECK RAIL SYSTEM
It’s easy to strap down your gear. The standard deck rail system features C-channel frames and four heavy-duty adjustable tie-down cleats, giving you the strength you need to keep your cargo secure.

See numbered footnotes in Disclosures section.
TRD Off-Road Double Cab shown in Cement with available Premium and Technology Packages and mudguards. Prototype shown with options.
High-tech backup for the road ahead.

Toyota Safety Sense™ P (TSS-P) is an active safety package that comes standard on every new Toyota Tacoma. This advanced precautionary safety system combines the Pre-Collision System with Pedestrian Detection (PCS w/PD), Lane Departure Alert (LDA), Automatic High Beams (AHB), and Dynamic Radar Cruise Control (DRCC) to assist you. TSS-P’s comprehensive features create in-the-moment safety designed to support your awareness and decision-making on the road.

**Pre-Collision System with Pedestrian Detection (PCS w/PD)**
Using an in-vehicle camera and radar to help detect a vehicle or a pedestrian in front of you, the Pre-Collision System with Pedestrian Detection (PCS w/PD) can help you mitigate or avoid a potential collision. If the system determines that a frontal collision is likely, it prompts you to take action using audio and visual alerts. If you notice the potential collision and apply the brakes, PCS w/PD may apply additional force using Brake Assist (BA). If you don’t brake in time, it may automatically apply the brakes to reduce your speed, helping to minimize the likelihood of a frontal collision or reduce its severity.

**Dynamic Radar Cruise Control (DRCC)**
Intended for highways and similar to “constant speed” cruise control, Dynamic Radar Cruise Control (DRCC) lets you drive at a preset speed. DRCC uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. If you notice a vehicle as you approach, DRCC will automatically slow your vehicle down without deactivating cruise control. If you need to slow down more, an audio and visual alert notifies you and your brakes are applied. When there’s no longer a vehicle driving slower than your preset speed in front of you, DRCC will then accelerate and regular cruise control will resume.

**Lane Departure Alert (LDA)**
Under certain circumstances, Lane Departure Alert (LDA) is designed to detect lane departure on roads with clear markings. LDA only activates when you’re traveling at a speed of 32 mph or faster. When you hear and see the alert, after carefully checking the road around you, you should safely direct your vehicle back to the center of your lane.

**Automatic High Beams (AHB)**
Automatic High Beams (AHB) are a safety system designed to help you see more clearly at night — without blinding other drivers. Designed to activate at speeds above 25 mph, AHB rely on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggle between high and low beams accordingly to provide the appropriate amount of light. By using high beams more frequently, the system may allow earlier detection of pedestrians and obstacles.

See numbered footnotes in Disclosures section.
COLOR/TRIM/WHEELS*

**Color**

- Midnight Black Metallic
- Blazing Blue Pearl
- Cavalry Blue
- Barcelona Red Metallic
- Inferno
- Quicksand
- Silver Sky Metallic
- Super White

**Trim**

- SR and SR5 fabric in Cement Gray
- SR5 fabric in Black with caramel accent stitching
- SR5 fabric in Black with red accent stitching
- Limited leather trim in Hickory
- Limited leather trim in Black
- Limited leather trim in Black with orange accent stitching
- TRD Sport and TRD Off-Road fabric in Graphite
- TRD Sport and TRD Off-Road leather trim in Black
- TRD Pro leather trim in Black with red accent stitching

**Wheels**

- 16-in. styled steel wheel
- 16-in. dark satin alloy wheel
- 16-in. silver alloy wheel
- 17-in. machined alloy wheel
- 16-in. machined contrast alloy wheel
- 18-in. polished alloy wheel
- 16-in. TRD Pro black alloy wheel

*Not all colors and trims available on all model grades. Cavalry Blue is only available on TRD Pro. See dealer for details.
Available in Access Cab and Double Cab

**SR**

**Drivetrain**
- 2.7-Liter DOHC 16-Valve 4-Cylinder with VVT-i; 159 hp @ 5200 rpm; 180 lb.-ft. @ 3800 rpm: 6-speed automatic transmission
- 3.5-Liter DOHC V6 direct-injection Atkinson-cycle with 278 hp @ 6000 rpm; 265 lb.-ft. @ 4600 rpm: 6-speed automatic transmission
- Rear-Wheel Drive (RWD) or 4WDemand part-time 4WD
- V6 Tow Package
- Automatic Limited-Slip Differential (Auto LSD)

**Exterior Features**
- Dark gray grille with black surround
- Color-keyed power outside mirrors
- Color-keyed rear bumper
- 16-in. styled steel wheels
- Integrated color-keyed tailgate spoiler
- Projector-beam headlights with turn Daytime Running Lights (DRL)
- Variable intermittent windshield wipers

**Interior Features**
- Entune™ Audio
- Power sliding rear window with privacy glass (V6 Double Cab only)
- Power windows and door locks
- Leather-trimmed tilt/telescopic steering wheel
- 4.2-in. color Multi-Information Display (MID)

**Safety Features**
- Toyota Safety Sense™ P (TSS-P) includes:
  - Pre-Collision System with Pedestrian Detection (PCS w/PD)
  - Lane Departure Alert (LDA)
  - Automatic High Beams (AHB)
  - Dynamic Radar Cruise Control (DRCC)

**Options**
- Hard tri-fold tonneau cover
- Mudguards
- SR Convenience Package
- Remote keyless entry

**SR5**

**Drivetrain**
- 2.7-Liter DOHC 16-Valve 4-Cylinder with VVT-i; 159 hp @ 5200 rpm; 180 lb.-ft. @ 3800 rpm: 6-speed automatic transmission
- 3.5-Liter DOHC V6 direct-injection Atkinson-cycle with 278 hp @ 6000 rpm; 265 lb.-ft. @ 4600 rpm: 6-speed automatic transmission
- Rear-Wheel Drive (RWD) or 4WDemand part-time 4WD
- V6 Tow Package
- Automatic Limited-Slip Differential (Auto LSD)

**Exterior Features**
- Charcoal grille with chrome surround
- Chrome rear bumper
- Projector-beam headlights with LED Daytime Running Lights (DRL) and integrated fog lights
- Power sliding rear window with privacy glass (V6 Double Cab only)

**Interior Features**
- Entune™ Audio Plus
- 4.2-in. color Multi-Information Display (MID)
- Leather-trimmed tilt/telescopic steering wheel
- Remote keyless entry
- Tire Pressure Monitor System (TPMS) with individual tire location alert
- Power sliding rear window with privacy glass (V6 Double Cab only)

**Safety Features**

S = Standard  O = Optional  — = Not available  P = Feature is available as part of an option package.

See numbered footnotes in Disclosures section.
3. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system, avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot, and could cause burns. Do not charge mobile devices that are not Qi enabled.
4. For additional limitations and details, see your dealer for details. See Owner's Manual for details.
5. SiriusXM is a satellite radio service. SiriusXM satellite radio is subject to all applicable international and domestic regulations. SiriusXM Services require a subscription, sold separately, and are available at all times with a vehicle key fob. Subscriptions sold separately through all authorized dealers and SiriusXM dealer locations. See your dealer for a complete list of channels.
6. Apple CarPlay and Android Auto are available on select devices with iOS 11.0 and Android 5.0 or later. For more information, see toyota.com/entune for details.
7. A Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. Bluetooth® and/or Bluetooth word mark are proprietary trademarks of Bluetooth SIG, Inc.
8. XM Radio Inc. and SiriusXM are trademarks of Sirius XM Radio Inc.
9. smartDeviceLink is a registered trademark of Toyota Motor Corporation.
10. Telenav, Inc.
11. HVAC is an acronym for Heating, Ventilation, and Air Conditioning.
12. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a tire pressure gauge; do not rely solely on the monitor system. See Owner's Manual for additional limitations and details.
13. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 20. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, and tire and road conditions. See Owner's Manual for additional limitations and details. 21. Smart Stop Technology® operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner's Manual for details. 22. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 23. The TSS-Possible Collision System is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. It is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 24. The Pedestrian Detection System is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, age of pedestrians and position of other vehicles. The system is designed to read visible lane markers under certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details. 25. Active front headrests can help reduce the extent of whiplash in certain types of rear-end collisions. The Tire Pressure Monitoring System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner's Manual for details. 26. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details. 27. Dynamic Radar Cruise Control is designed to control the speed of your vehicle automatically without stopping unnecessary, or driving excessively fast. It can help you maintain a safe distance from the vehicle ahead. Vehicle Control assists the driver in steering the vehicle to keep it in the lane centred and in the lane. See Owner's Manual for additional limitations and details. 28. The Pre-Collision System may help reduce the severity of a collision by providing a warning and, if certain conditions are met, automatically applying the brakes. See Owner's Manual for additional limitations and details. 29. During inclement weather or under certain types of severe collisions, to decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details. 30. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner's Manual for details. 31. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details. 32. Crawl Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The Toyota Tacoma is designed to be used on roads and paved surfaces under certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details. 33. During inclement weather or under certain types of severe collisions, to decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details. 34. The Keyless Access feature is designed to help the driver open and close the doors and trunk without using a key. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether Keyless Access will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 35. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 36. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealer, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. 37. Trailer-Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 38. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, Toyota can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by searching online for "high-security locksmith." 39. John Deere® is a registered trademark of Deere & Company. "The GoPro® mount on the windshield is to be used with GoPro HERO cameras." 40. See Owner's Manual for weight limits and restrictions. 56. Available for vehicles with factory remote keyless entry.
CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

**Basic:** 36 months/36,000 miles (all components other than normal wear and maintenance items).

**Powertrain:** 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

**Rust-Through:** 60 months/unlimited miles (corrosion perforation of sheet metal).

**Emissions:** Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

**Accessories:** For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty. For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage. You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details. For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Toyota Tacoma is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times.

Please do not allow passengers to ride in the cargo area. Towing hitch receiver/ball mount kits are not intended to provide crash protection. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle. All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.
