2019 Land Cruiser
Elevate your status, figuratively and literally.

The ultimate expression of luxury and capability, the 2019 Toyota Land Cruiser is ready to make an impression wherever you go. A powerful 381-hp V8 and legendary off-road prowess help you tackle some of the toughest terrain, while inside, spacious heated and ventilated semi-aniline perforated leather-trimmed front seats let you enjoy it all in comfort. There's even a cooler box mounted in the center console to keep drinks nice and cool, because taking a break from civilization doesn't mean you can't remain civilized.

The legend continues.

For over 60 years, around the globe, the Toyota Land Cruiser has remained an icon in 4WD performance and reliability. See how it's progressed over the years to what it has become today — a sophisticated blend of off-road prowess, on-road comfort and unparalleled refinement, with seating for up to eight. After all, adventures are best shared.
Go where most SUVs simply can’t.

Many SUVs claim off-road prowess, but few can actually deliver when you need it most. So when you have serious terrain to conquer, Land Cruiser’s sophisticated off-road capabilities — including Crawl Control (CRAWL) with Off-road Turn Assist (OTA), Multi-terrain Select and the Kinetic Dynamic Suspension System (KDSS) — help get you there safely. Wherever “there” happens to be.

Land Cruiser has gained a loyal following virtually unmatched by any other SUV. And its loyalty is well earned, with unrivaled off-road performance enabled by sophisticated technologies — like enhanced 5-speed Crawl Control with Off-road Turn Assist, which helps even less experienced off-road drivers master extremely challenging conditions.
OFF-ROAD CAPABILITY

CRAWL CONTROL\textsuperscript{21} WITH OFF-ROAD TURN ASSIST\textsuperscript{46}

When your off-road travels get tough,\textsuperscript{46} Crawl Control (CRAWL) is an advanced system that automatically modulates the throttle and brakes on five low-speed settings. Off-road Turn Assist allows for a tighter turning radius in Crawl Control Mode in order to navigate turns when off-road.

KINETIC DYNAMIC SUSPENSION SYSTEM

The Kinetic Dynamic Suspension System (KDSS) helps keep optimal traction on uneven terrain. When activated, KDSS automatically disconnects the sway bar and adjusts the suspension system for better wheel articulation. So when the road ahead looks challenging, Land Cruiser is ready to help you conquer it with ease\textsuperscript{45}.

MULTI-TERRAIN MONITOR\textsuperscript{2} WITH 9-IN. DISPLAY SCREEN

Demanding off-road situations\textsuperscript{46} often make you wish you could check your immediate surroundings for potential trouble. With the Multi-terrain Monitor, you can. Simply press a button to display front, rear and side camera views on the 9-in. navigation screen.

200 Series

The 200 Series Land Cruiser was first introduced globally in 2002. Over six decades of know-how went into the engineering of this SUV, fusing new, modern luxuries with legendary capability. And in 2013, this icon was transformed into the off-road standard-bearer it is today.

By now, every Land Cruiser came loaded with refined creature comforts like heated and ventilated front seats, leather-wrapped surfaces and four-zone automatic climate control. Terrain-conquering prowess was enhanced with standard technologies like an advanced 5.7-liter V8, standard Crawl Control\textsuperscript{21} and a Multi-terrain Monitor\textsuperscript{2}.
An upgrade in presence.

Some say less is more. With Land Cruiser, we’ve taken the opposite approach. From its leather-trimmed, heated steering wheel to its 9-in. full-color touch-screen display and perforated leather seating surfaces with front and rear multi-stage heating, this is one cockpit that really knows how to coddle.

The VDJ79 is an evolution of the 70 series Land Cruiser that was first introduced in late 1984. Though never offered in the United States, the 70 series is the true inheritor of the FJ40’s no-nonsense spirit. Light and compact compared to its 60 and 80 series contemporaries, the 70 series has always maintained a strong emphasis on capability over creature comfort. Its rugged, simple sensibilities have helped to keep it in production for over 20 years.

For 2007, the VDJ79 was fitted with the brand-new 1VD-FTV engine, Toyota’s first intercooled turbo-diesel V8.
REAR-SEAT DVD ENTERTAINMENT SYSTEM
Rear-seat passengers can personalize their entertainment options with the available rear-seat DVD entertainment system. The latest movies, video games and more can be enjoyed on the two 11.6-in. screens placed behind the driver and front passenger seats. So no matter where your expedition takes you, the comforts of home can come along for the ride.

ENTUNE™ PREMIUM JBL® Audio with Integrated Navigation5 and Entune® App Suite6
Land Cruiser’s Entune™ Premium JBL® Audio with Integrated Navigation and Entune® App Suite gives you a high-end entertainment experience. Its high-resolution 9-in. touch-screen display lets you access the navigation system, your music and more. SiriusXM® Satellite Radio13 and iPod®9 connectivity mean you’ll always have the perfect soundtrack to your adventure. And with 14 JBL Synthesis® speakers, including a subwoofer and amplifier, it will all sound amazing too.

LEATHER-TRIMMED HEATED STEERING WHEEL WITH MOUNTED CONTROLS
Land Cruiser’s leather-trimmed steering wheel is not only heated, it also features controls for the audio system, Multi-Information Display (MID) and Bluetooth®11 wireless technology.

The worldwide response to the new 80 series was overwhelming. The main plant had to stay open around the clock for six months straight. That was unprecedented — much like the 80 series itself.

Luxury and capability were integrated like never before. The long-standing solid axles were replaced with a coil-spring suspension, but with greater suspension travel. Passengers were met with available leather trim and a refrigerator — and a space in the dashboard allowed for a two-way radio.

And off-road competence just increased. Full-time 4WD replaced the part-time system, and a locking center differential was added to the drivetrain.

Utilitarian models of the 80 series continued to be used on Australian ranches. But luxury models were here to stay. Where would Land Cruiser go from here?
Versatile enough for the extended family.

There are family SUVs. And then there are SUVs that are versatile enough to accommodate even the extended family. With seating for up to eight people in comfort — and second and third rows that can fold down to open up over 80 cu. ft. of cargo room — Land Cruiser is as versatile as it is spacious.

The FJ62 shares the 60 series category with the FJ60. The notable upgrades from the FJ60 to the FJ62 were the fuel-injected 4.0-liter 6-cylinder 3F-EFI engine, an automatic transmission, rectangular headlights, larger sideview mirrors and power options. As on the FJ60, FJ62 owners enjoyed plenty of interior space compared to owners of previous Land Cruisers.
81.7 CU. FT. OF CARGO VOLUME**

With the third- and second-row seats folded, you’ll be greeted by a cavernous 81.7 cubic feet of cargo capacity. So the next time you’re wondering if that supersize, bargain-price flat-screen will fit, the answer is probably yes.

8-PASSENGER SEATING

Expeditions often require the assistance of an entire crew. Fortunately, Land Cruiser’s spacious cabin offers seating for up to eight. And everyone can ride in comfort, thanks to multi-stage heated and ventilated front seats, a multi-stage heated 40/20/40 split second-row seat with center armrest, and a 50/50 split third-row seat.

FOLDAWAY THIRD-ROW SEAT

Up, up and away. Land Cruiser’s 50/50 split rear seats not only fold flat, they also fold away against the interior walls of the vehicle to create a level load floor.

When asked about the 60 series, one Land Cruiser mechanic smiles and talks about the mileage on one he’d just seen: 450,000.*

The all-new 60 series got its start in 1980 with new gasoline and diesel engines, new transmissions and new luxuries, like a moonroof, sport bucket seats and a third-row seat.

Toyota was aiming for on-road comfort, but off-road standbys were retained: front and rear solid axles and two locking differentials. The result was a blended vehicle like no other. Eventually, some 2500 variations would be made throughout the world.

The mechanic concludes his comments with the story of a guy who’s got 650,000 miles* on his Land Cruiser. But it’s not being towed to the junkyard. It’s his daily driver.

*These mileage performances are exceptional. Do not expect to obtain the same mileage with your Toyota. Powertrain warranty: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).
TOYOTA SAFETY SENSE™ P (TSS-P)

A suite of active features to help keep you safe.

Whether you’re cruising through the city or leaving civilization behind, it helps to have someone looking out for you. That’s the idea behind Toyota Safety Sense™ P (TSS-P), an available suite of intelligent active safety packages that are designed to help keep you and everyone around you safe.

Land Cruiser shown in Blue Onyx Pearl.
See numbered footnotes in Disclosures section.

Based on the FJ40, the FJ45 was a pickup version of that model. The FJ45 was only available in the United States from 1963–1967. The FJ45 featured either a fixed roof or a removable hardtop. The FJ45 Land Cruiser was available as a 4-Door Wagon, a Short Bed Pickup or a Long Bed Pickup. While existing Long Bed and Wagon models are rare, the Short Bed version is extremely rare.
Toyota Safety Sense™ P

Toyota Safety Sense™ P (TSS-P)\(^{19}\) is a bundle of active safety features on most new Toyota vehicles at no additional cost. These innovative features were designed to help protect you and your passengers from harm.

LANE DEPARTURE ALERT (LDA)\(^{24}\) WITH SWAY WARNING SYSTEM (SWS)\(^{25}\)
Under certain circumstances, Lane Departure Alert (LDA) with Sway Warning System (SWS) is designed to detect lane departure on roads with visible lane markings. It only activates when you’re traveling at a speed of 32 mph or faster. When you hear and see the alert, after carefully checking the road around you, you should safely direct your vehicle back to the center of your lane.

PRE-COLLISION SYSTEM\(^{23}\) WITH PEDESTRIAN DETECTION\(^{29}\) (PCS w/PD)
Using an in-vehicle camera and radar to help detect a vehicle or a pedestrian in front of you, the Pre-Collision System with Pedestrian Detection (PCS w/PD) can help you mitigate or avoid a potential collision. If it determines that a frontal collision is likely, it prompts you to take action using audio and visual alerts. If you notice the potential collision and apply the brakes, PCS w/PD may apply additional force using Brake Assist.\(^{32}\) If you don’t brake in time, it may automatically apply the brakes to reduce your speed.

AUTOMATIC HIGH BEAMS (AHB)\(^{30}\)
Automatic High Beams (AHB) are a safety system designed to help you see more clearly at night — without distracting other drivers. Designed to activate at speeds above 25 mph, AHB rely on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggle between high and low beams accordingly to provide the appropriate amount of light.

See numbered footnotes in Disclosures section.

The FJ40 is the most iconic Land Cruiser. It is instantly recognizable: a simple, two-box hardtop with wraparound rear windows and dual swing-out doors. But durability made the design a legend. According to one expert, it is still “the standard of the industry,” with more 40 series still running than any other off-road vehicle.

The 40 series gave the marque low-range gearing, a jump in horsepower and payload, and a greater variety of body styles and engines than ever before. And in the 40 series, Land Cruiser’s growing popularity meant it was no surprise to spot one almost anywhere on the planet.
Safety that never sits still.

When it comes to safety, Land Cruiser comes with a wealth of active and passive safety features built right in. The standard airbag system features ten airbags, including our Advanced Airbag System for driver and front passenger. And to reduce your chance of needing those airbags, we made our Star Safety System™ features standard: Vehicle Stability Control (VSC), Active Traction Control (A-TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA), and Smart Stop Technology® (SST). See numbered footnotes in Disclosures section.

With real doors, roll-down windows and available air conditioning, the 20 series brought the BJ-era Land Cruiser into civilian life. But a subtle design trait on the dashboard foretold Land Cruiser’s future: The glove box and instrument panel were identically shaped and interchangeable, making manufacturing a left-hand- or right-hand-drive version equally easy. For Toyota, foreign markets were the new target.

Toyota called it the “Land Cruiser Strategy”: Establish a bridgehead in a new country with Land Cruiser and then follow it with passenger cars. Other marketing savvy included adjusting chassis length to market demand, and creating pickups and wagons — soft- and hardtops, 4-doors and 2-doors.
SAFETY

Create your own legacy.

With over 60 years as an off-roading icon, Land Cruiser has cemented its place in automotive history. Now it’s your turn to add to Land Cruiser’s fabled mystique. Land Cruiser has the capability to take your adventures farther than you thought possible. It’s time to own the legend and see where it takes you.

TIRE PRESSURE MONITOR SYSTEM (TPMS)\(^{22}\) WITH INDIVIDUAL TIRE LOCATION ALERT

Because maintaining the correct tire pressure is important for both handling stability and prolonging the life of your tires, we made this advanced Tire Pressure Monitor System (TPMS) standard. It not only alerts you if a tire loses pressure, it also gives you direct pressure readouts and even tells you which tire is low.

BLIND SPOT MONITOR (BSM)\(^{27}\) WITH REAR CROSS-TRAFFIC ALERT (RCTA)\(^{38}\)

When backing out of your driveway, Rear Cross-Traffic Alert (RCTA) is designed to warn you if vehicles are approaching. On the road, the Blind Spot Monitor (BSM) illuminates a warning indicator on the appropriate sideview mirror if it detects a vehicle in your vehicle’s blind spot. And once you arrive, standard front and rear parking assist sonar\(^{22}\) helps you park, using audible and visual cues that help you gauge your distance from other vehicles.

SAFETY CONNECT\(^{28}\)

Another standard feature, Safety Connect\(^{®}\) combines Emergency Assistance, Roadside Assistance\(^{36}\) Automatic Collision Notification and even a Stolen Vehicle Locator. Includes a three-year trial subscription\(^{10}\).

See numbered footnotes in Disclosures section.
Powertrain
- 5.7L V8 engine with 381 hp @ 5600 rpm; 401 lb.-ft. @ 3600 rpm
- 8-speed Electronically Controlled automatic Transmission
- Full-time 4WD system with Active Traction Control (A-TRAC)
- Torsen® limited-slip differential with locking feature

Exterior Features
- Projector-beam LED low-/high-beam headlights
- 18-in. split-spoke alloy wheels
- Skid plates on front suspension, radiator, fuel tank and transfer case

Interior Features
- 8-passenger seating with semi-aniline perforated leather-trimmed seating surfaces
- Multi-stage heated and ventilated front seats
- 40/20/40 split, sliding, reclining, folding, tumble and multi-stage heated second-row seat
- Multi-Terrain Select
- 5-Speed Crawl Control (CRAWL)²¹ with Off-road Turn Assist (OTA)

Safety/Convenience
- Toyota Safety Sense™ P (TSS-P)²⁹

Color
- Midnight Black Metallic
- Blue Onyx Pearl
- Brandywine Mica
- Magnetic Gray Metallic
- Classic Silver Metallic
- Blizzard Pearl

Trim
- Black semi-aniline perforated leather
- Terra semi-aniline perforated leather

Wheel
- 18-in. alloy wheel

Accessories
- All-weather floor liners
- Cargo mats

To learn about all the accessories available for Land Cruiser, visit your local Toyota dealer or toyota.com/landcruiser
**INTERIOR**

- Four-zone automatic front and rear climate control with air filter, dust and pollen filtration mode, push-button controls, separate second-row control panel, individual temperature settings for driver, front passenger and rear-seat passengers, and second- and third-row vents
- Enhanced Multi-terrain Monitor® with selectable front, side or rear views
- Integrated backup camera® with projected path
- Rear-seat DVD entertainment system with two individual 11.6-in. display screens, RCA jacks, HDMI input, remote and two wireless headphones
- Qi™-compatible wireless smartphone and mobile device charging with full-charge indicator light (located at the bottom of the dashboard center stack)
- 8-passenger seating with semi-aniline perforated leather-trimmed seating surfaces in Black or available (no-cost) Terra
- Multi-stage heated and ventilated front seats with seatback pockets; 10-way power-adjustable driver’s seat with three-position memory function and power lumbar support
- 40/20/40 split, sliding, reclining, folding, tumble and multi-stage heated second-row seat with center armrest and abrasion-resistant seatback material
- 50/50 split, fold-down third-row seat with folding headrests and abrasion-resistant seatback material
- Dynamic Radar Cruise Control (DRCC)™
- Leather-trimmed heated power tilt/telescopic steering wheel with wood-grain-style accents and audio, Siri® Eyes Free, Multi-Information Display (MID), Bluetooth® hands-free phone, voice-command, Toyota Safety Sense™ P (TSS-P)™ and Dynamic Radar Cruise Control (DRCC)™ toggle
- Optirion instrumentation with turquoise-illuminated edges and white-backlit speedometer, tachometer, voltmeter, coolant temperature, fuel and engine oil pressure gauges, TFT Multi-Information Display (MID) with odometer, tripmeter, speedometer, shift position, current and average fuel economy, distance to empty, average speed, parking assist, steering wheel angle, ECO Driving Indicator zone display, Multi-terrain Select including Crawl Control (CRAWL)™ with Off-road Turn Assist (OTA)™, TPMS® with individual tire location including spare, Dynamic Radar Cruise Control (DRCC)™ adjustment information, TSS-P Pre-Collision System (PCS)™, warning alarm adjustment, Lane Departure Alert (LDA)™ and Sway Warning adjustment, maintenance information and warning messages
- Smart Key System® on all doors and liftgate with remote keyless entry system, remote illuminated entry and Push Button Start
- Power windows with one-touch auto up/down with jam protection in all positions
- Power door locks with shift-linked automatic lock/unlock feature
- Auto-dimming rearview mirror with compass and HomeLink® universal transceiver
- LED accent lighting illuminating from the front- and rear-door upper trim
- Overhead console with maplights, sunglasses storage and Safety Connect™ controls
- Bi-level covered center console with cooler box and second-row vents
- Two center console area 12V auxiliary power outlets, and one rear cargo area 120V AC power outlet
- Front- and rear-door storage pockets
- Twelve cup and bottle holders
- Dual extendable sun visors with illuminated vanity mirrors and secondary visors
- Second- and third-row LED illumination and second-row LED maplights

---

**EXTERIOR**

- LED projector-beam low- and high-beam headlights, auto on/off feature, headlight cleaners and integrated Land Cruiser logo
- LED Daytime Running Lights (DRL)
- Front-bumper-integrated LED fog lights
- LED accent lighting with on/off feature
- Color-keyed heated power auto-dimming outside mirrors with cameras; turn signal indicators, vortex generators and automatic power-folding, reverse tilt-down and memory features
- Side-body chrome moldings with Land Cruiser logo
- Power open/close rear-door liftgate (with key remote)
- Power tilt/slide moonroof with sunshade and one-touch open/close with jam protection
- 18-in. 5-spoke alloy wheels with P285/60R18 116V tires
- Power open/close rear-door liftgate (with key remote)
- Side-body chrome moldings with Land Cruiser logo
- Color-keyed heated power auto-dimming outside mirrors with cameras; turn signal indicators, vortex generators and automatic power-folding, reverse tilt-down and memory features
- Side-body chrome moldings with Land Cruiser logo
- Power open/close rear-door liftgate (with key remote)
- Power tilt/slide moonroof with sunshade and one-touch open/close with jam protection
- 18-in. 5-spoke alloy wheels with P285/60R18 116V tires
- Power open/close rear-door liftgate (with key remote)
- Side-body chrome moldings with Land Cruiser logo
- Color-keyed heated power auto-dimming outside mirrors with cameras; turn signal indicators, vortex generators and automatic power-folding, reverse tilt-down and memory features
- Side-body chrome moldings with Land Cruiser logo
- Power open/close rear-door liftgate (with key remote)
- Power tilt/slide moonroof with sunshade and one-touch open/close with jam protection
- 18-in. 5-spoke alloy wheels with P285/60R18 116V tires
### SAFETY AND CONVENIENCE

**Toyota Safety Sense™ P (TSS-P)^19** — Pre-Collision System^23 (PCS w/PD), Lane Departure Alert (LDA)^24 with Sway Warning System (SWS),^25 Automatic High Beams (AHB)^30 and Dynamic Radar Cruise Control (DRCC)^38

**Star Safety System™** — includes Vehicle Stability Control (VSC),^31 Active Traction Control (A-TRAC), Multi-terrain 4-wheel Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA)^32 and Smart Stop Technology® (SST)^33

At speeds greater than five miles per hour, when the accelerator is depressed first and the brakes are then applied firmly for longer than one-half second, Smart Stop Technology® is designed to help the driver bring the vehicle to a stop.

Ten airbags — includes driver and front passenger Advanced Airbag System, driver and front passenger seat-mounted side airbags, second-row outboard seat-mounted side airbags, driver and front passenger knee airbags, and all-row Roll-sensing Side Curtain Airbags (RSCA)

Driver and front passenger active headrests^35

Driver and front passenger Active Seatbelt Pretensioning System with force limiters^35

3-point seatbelts for all seating positions; driver-side Emergency Locking Retractor (ELR) and Automatic/Emergency Locking Retractor (ALR/ELR) on all passenger belts^35

Adjustable front- and second-row outboard seatbelt anchors^35

LATCH (Lower Anchors and Tethers for CHildren) includes lower anchors on outboard second-row seats and tether anchors on all second-row seats

Child-protector rear door locks and power window lockout control

Head-impact protection structure with energy-absorbing soft upper interior trim

Highly rigid body structure with side-impact door beams

Tire Pressure Monitor System (TPMS)^32 with direct pressure readout and individual tire location alert

Safety Connect®^28 — includes Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance^36 and Automatic Collision Notification; with three-year trial subscription^28

Front and rear parking assist sonar^20

Blind Spot Monitor (BSM)^37 with Rear Cross-Traffic Alert (RCTA)^38

Trailer-Sway Control (TSC)^39

Hill Start Assist Control (HAC)^40

Anti-theft system with engine immobilizer^41

ToyotaCare^42 featuring a no cost maintenance plan with roadside assistance^16

### OPTIONS

Rear-seat DVD entertainment system with two individual 11.6-in. display screens, RCA jacks, HDMI input, remote and two wireless headphones^16

---

See numbered footnotes in Disclosures section.

S = Standard  O = Optional
MECHANICAL/PERFORMANCE

ENGINE
5.7-Liter DOHC 32-Valve V8 with Dual Independent Variable Valve Timing with intelligence (VVT-i); 381 hp @ 5600 rpm; 401 lb.-ft. @ 3600 rpm

EMISSION RATING
Ultra Low Emission Vehicle II (ULEV-II)

TRANSMISSION
8-speed Electronically Controlled automatic Transmission with intelligence (ECT-i); sequential shift mode and uphill/downhill shift logic

IGNITION SYSTEM
Electronic, with Toyota Direct Ignition (TDI)

DRIVETRAIN
Full-time 4WD system with Active Traction Control (A-TRAC) and Torsen® limited-slip center differential with locking feature

BODY CONSTRUCTION
Unitized steel body on 10-member high-tensile-steel ladder frame

SUSPENSION
Independent double-wishbone front suspension with coil springs and stabilizer bar; 4-link rear suspension with coil springs, stabilizer bar and semi-floating axle

STEERING
Vehicle speed-sensing, variable gear ratio, power-assisted rack-and-pinion

BRAKES
Power-assisted rear ventilated disc brakes with hydraulic brake booster and Star Safety System™

CARS BUILT FOR THE WAY YOU LIVE

1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. If you would prefer a vehicle with no or different options, contact your dealer to check for current availability or the possibility of placing a special order. 2. The Multi-terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner’s Manual for additional limitations and details. 3. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner’s Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added equipment vehicle. “Added vehicle equipment” includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle’s exact curb weight is to have an authorized Toyota dealer weigh your vehicle in accordance with the conditions described in your owner’s manual. If you would like to ensure your vehicle meets the curb weight recommendation, your authorized Toyota dealer can weigh the vehicle. 4. JBL® is a registered trademark of Harman International Industries, Incorporated. 5. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See Owner’s Manual for details. 6. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carer; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change at any time without notice. See toyota.com/entune for details. 7. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation. HD Radio™ and the HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. 8. May not be compatible with all mobile phones, MP3/WMA players and like models. 9. iPod® and iPhone® are registered trademarks of Apple Inc. All rights reserved.

DISCLOSURES

1. Advanced voice recognition capabilities vary by head unit. 2. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. 3. Certain vehicle and environmental factors, including an object’s shape and composition, may affect the ability of the front and rear parking assist sonar to detect it. Always look around outside the vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner’s Manual for additional limitations and details. 4. Headphones are for passenger use only. Do not use while operating vehicle. 5. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system, avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns.

Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It monitors steering wheel movements and data from sensors around the vehicle, and makes brake and engine control changes to help maintain vehicle stability. It is not a collision-avoidance system or a substitute for safe driving practices. Effectiveness is dependent on many factors including road, weather and traffic conditions. See Owner’s Manual for additional limitations and details. 6. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 7. Front and rear parking assist sonar is designed to warn drivers of potential front and rear collisions at speeds of 6 mph to less than 19 mph. The system will not detect all objects, and the detection range may vary depending on conditions. Always look around outside your vehicle and use your mirrors to confirm rear clearance. See Owner’s Manual for additional limitations and details. 8. Crawl Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on operating the vehicle. The Toyota Land Cruiser is designed to meet off-road driving requirements, but off-road driving is inherently dangerous. Always wear seatbelts. See Owner’s Manual for additional limitations and details. 9. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the TPMS. See Owner’s Manual for additional details. 10. The Smart Key System is a convenient feature for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions.

Driver Monitoring System alerts the driver to possible inattentive or drowsy driving. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 11. Lane Departure Alert is designed to read visible lane markers under certain conditions, and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 12. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 13. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 14. Toyota Safety Connect® is dependent upon the operability of the telematics device, cellular connection and other factors that limit the ability to reach the response center or receive emergency support or otherwise limit the availability or functionality of the system. See Owner’s Manual for additional limitations and details. 15. Stolen vehicle police report required to use Stolen Vehicle Locator. The Safety Connect® trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See Owner’s Manual for additional limitations and details. 16. The Smart Key System is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, and tire and road conditions. See Owner’s Manual for additional limitations and details. 17. Smart Stop Technology® operates only in the event of certain precrash front collisions. The system is not designed to prevent collisions or mitigate their effects at speeds over 25 mph. See Owner’s Manual for additional limitations and details. 18. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors including road, weather and traffic conditions. See Owner’s Manual for additional limitations and details. 19. Adaptive High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 20. Vehicle Stability Control is a system designed to help the driver maintain vehicle control under adverse conditions. It is not a collision-avoidance system or a substitute for safe driving practices. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 21. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, and tire and road conditions. See Owner’s Manual for additional limitations and details. 22. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 23. Smart Stop Technology® operates only in the event of certain precrash front collisions. The system is not designed to prevent collisions or mitigate their effects at speeds over 25 mph. See Owner’s Manual for additional limitations and details. 24. The Preventive Maintenance Indicator System alerts the driver to the need for service. The system also reminds the driver of the importance of regular maintenance and service to maintain the vehicle’s performance. See Owner’s Manual for additional limitations and details. 25. Crawl Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on operating the vehicle. The Toyota Land Cruiser is designed to meet off-road driving requirements, but off-road driving is inherently dangerous. Always wear seatbelts. See Owner’s Manual for additional limitations and details. 26. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 27. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 28. Toyota Safety Connect® is dependent upon the operability of the telematics device, cellular connection and other factors that limit the ability to reach the response center or receive emergency support or otherwise limit the availability or functionality of the system. See Owner’s Manual for additional limitations and details. 29. Stolen vehicle police report required to use Stolen Vehicle Locator. The Safety Connect® trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See Owner’s Manual for additional limitations and details. 30. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 31. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a collision-avoidance system or a substitute for safe driving practices. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 32. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, and tire and road conditions. See Owner’s Manual for additional limitations and details. 33. Smart Stop Technology® operates only in the event of certain precrash front collisions. The system is not designed to prevent collisions or mitigate their effects at speeds over 25 mph. See Owner’s Manual for additional limitations and details. 34. All the airbags are Supplemental Restraint Systems. 35. Active front headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 36. Roadside Assistance coverage is 2 years unlimited mileage. Does not include parts and fluids, except emergency fuel delivery. See Toyota.com for details and exclusions. Valid only in the continental U.S. and Alaska. 37. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your mirrors to confirm rear view. There are limitations to the function, detection and range of the monitor. See Owner’s Manual for additional limitations and details. 38. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear view. There are limitations to the function, detection and range of the system. See Owner’s Manual for additional limitations and details.
DISCLOSURES (continued)

39. Trailer-Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 40. Hill Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 41. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 42. ToyotaCare plan covers normal factory scheduled service for 2 years or 25K miles, whichever comes first. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska. 43. Torsen® is a registered trademark of Zexel Torsen, Inc. 44. Cargo and load capacity limited by weight and distribution. 45. 2019 Land Cruiser EPA 13 city/18 hwy/15 combined mpg estimates. Actual mileage will vary. 46. The Toyota Land Cruiser is designed to meet most off-road driving requirements, but off-roading is inherently dangerous and may result in vehicle damage. Toyota encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn at all times. Do not allow passengers to ride in the cargo area. 47. Extra-cost color. 48. This floor mat/floor liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. 49. Do not overload your vehicle. See Owner’s Manual for weight limits and restrictions. 50. The Safety Connect® trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in paid subscription is required to access the service. Terms and conditions apply.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/ transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Toyota Land Cruiser is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing hitch receiver/ball mount kits are not intended to provide crash protection.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage. You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

For Toyota Mobility program details, go to www.toyota.com/mobility or call the Toyota Customer Assistance Center at 1-800-331-4331.
