One giant step for humankind.

The only thing better than dreaming about a more sustainable world is actually creating it. That’s why we at Toyota remain steadfast in our commitment to providing better mobility for all. And it’s why we put sustainability at the forefront of everything we do. It’s this thinking that led us to create the 2019 Mirai Fuel Cell Electric Vehicle (FCEV). It’s powered by hydrogen and its only emission is water. Mirai comes packed with the advanced tech features you want, and its forward-thinking design ensures it looks like nothing else on the road. This is the next generation of mobility, available right now.
Buying into clean energy doesn't mean buying into the unknown.

As with Prius, we proved that alternative-fuel vehicles can be mainstream as well as fashionable. Now we’re doing the same with Mirai. Toyota engineers have spent decades developing Mirai’s fuel cell powertrain to deliver the quality, reliability and dependability expected from Toyota. This means that Mirai operates just like a regular passenger car, while creating zero emissions. Since its hydrogen fuel can be created from renewable resources like solar, wind and biowaste, Mirai is helping to usher in a new era powered by clean energy.

Learn More at: Toyota.com/Mirai/Safety

**FIRST COMES AIR**
The FCEV’s front intake grilles deliver the outside air to the fuel cell system.

**WHICH MAKES ELECTRICITY**
Hydrogen travels from the tanks to the fuel cell system. In the fuel cell system, hydrogen and oxygen from the air combine in a chemical reaction that creates electricity to power the vehicle.

**MOVING YOU FORWARD**
When you put your foot on the accelerator, electricity from the fuel cell system is sent to the motor.

**LEAVING NOTHING BUT WATER**
In the end, the only by-product of creating electricity with hydrogen and oxygen in our fuel cell system is water, which leaves through a hatch located on the bottom of Mirai.
“If the name of your car means ‘the future’... it better look futuristic.”

— Satoshi Ogiso, Former Managing Officer, Toyota Motor Corporation
Advanced design. One powerful statement.

Mirai means “future” in Japanese, so we made sure it lives up to its name. Multi-LED lighting in the front and rear accent the highly aerodynamic shape. Color-keyed front bumpers feature black inserts for a touch of sportiness, with the chrome garnish bringing just the right amount of sophistication. As if its forward-thinking shape didn’t give things away, exclusive FUEL CELL badging reminds others that this sedan is like no other.

---

STANDARD ALLOY WHEELS

Designed exclusively for Mirai, standard 17-in. engraved alloy wheels bring the perfect amount of sophistication and style.

LED HEADLIGHTS

Efficiency can be seen throughout Mirai, including the lighting. Multi-LED headlights provide lots of light while requiring very little power. Standard Automatic High Beams (AHB)² enhance driving comfort at night, too.

See numbered footnotes in Disclosures section.
AN AERODYNAMIC SHAPE

Mirai’s sleek lines do more than just look good; they help give it an ultra-low coefficient of drag. This means that Mirai’s shape helps it slip through the air for a quieter ride and increased efficiency.
Innovation at every corner.

Oftentimes it’s the thoughtful touches that make the biggest difference. That’s why Mirai comes standard with a host of high-tech features designed to bring more convenience to every drive. The integrated backup camera\textsuperscript{23} includes a projected path feature, making it easier to back into those tight spots. A heated steering wheel and windshield wiper de-icer help bring warmth when things get chilly. And the frameless auto-dimming rearview mirror includes a HomeLink\textsuperscript{28} universal transceiver for easier access to your compatible gates, garages and more.

**WIDE-ANGLE FOG LIGHTS**
One of Mirai’s most striking visual elements is vertically integrated, wide-angle LED fog lights. With their wide beam of light, these color-calibrated fog lights help provide an exceptionally clear view of the road at night.

**HEATED OUTSIDE MIRRORS**
The simple push of a button warms up Mirai’s outside power mirrors, helping to clear moisture and fog. These mirrors also include a power-folding feature to help minimize this FCEV’s footprint when parked.

**FRONT AND REAR PARKING SONAR\textsuperscript{42}**
When parking, sonar sensors on the front and rear of Mirai scan for walls, curbs and other objects that might be hidden from your view. Audio and visual cues are sent to the cabin, helping to take some of the guesswork out of parking.

**TOUCH-SENSOR DOORS**
With the Smart Key\textsuperscript{27} fob in your pocket or bag, you can lock and unlock the doors of Mirai using only your touch.

See numbered footnotes in Disclosures section.
Mirai interior shown in Deep Ocean Blue. Prototype shown.
It’s impressive on the inside, too.

Mirai’s cabin is as refined as it is advanced. Acoustically treated glass helps keep outside noises outside, allowing occupants to glide in comfort as they relax in the standard, heated SofTex®-trimmed seats. Carbon-fiber-style interior accents perfectly complement the futuristic interior design. The premium JBL® audio system is tuned specifically to Mirai for rich, full sound performance. Multiple charging points, including one 12V rear auxiliary power outlet, two rear USB 2.1A charging ports and one USB media port help to ensure that everyone’s mobile tech can stay powered through the day.

Taking an active role in safety.

Mirai’s suite of active safety technologies helps you keep a watchful eye on the road ahead — and behind you, too. It has an advanced array of sensors and cameras that are designed to help you look out for traffic and alert you, so you can stay focused on your drive. Smart safety innovations were created for the fuel cell system, too. In the event of a collision, for example, special sensors are designed to deactivate Mirai’s high-voltage battery and close the H₂ tank valves.

BLIND SPOT MONITOR³ AND REAR CROSS-TRAFFIC ALERT⁴

When the Blind Spot Monitor (BSM) detects a vehicle, it illuminates a warning indicator on the appropriate sideview mirror to let you know when it’s safe to change lanes. And when backing out of a driveway or parking spot, Rear Cross-Traffic Alert (RCTA) is designed to provide audible and visual indicators to warn of approaching vehicles.

See numbered footnotes in Disclosures section.
Designed for safety.

Toyota Safety Sense™ 2.0 (TSS 2.0) is a bundle of active safety features standard on every 2019 Mirai. These innovative features were designed to help protect you and your passengers from harm.

**Pre-Collision System with Pedestrian Detection**
Pre-Collision System with Pedestrian Detection (PCS w/PD) helps keep the road safe by detecting a vehicle, pedestrian or bicyclist in certain situations. The latest system has enhanced low-light capabilities to help detect a pedestrian at night. By combining millimeter-wave radar with a camera capable of shape recognition, the system provides an audio/visual alert, warning you of a possible collision under certain circumstances. If you don’t react, the system is designed for automatic braking support to help mitigate the potential for a collision.

**Lane Departure Alert with Steering Assist and Road Edge Detection**
Using Road Edge Detection or by detecting visible lane markings, the Lane Departure Alert with Steering Assist (LDA w/SA) issues both an audible alert and visual warning on the MID screen if an inadvertent lane departure is detected. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to help keep Mirai in the lane.

**Automatic High Beams**
Automatic High Beams (AHB) are a safety system designed to help you see more clearly at night — without distracting other drivers. Designed to activate at speeds above 25 mph, AHB rely on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggle between high and low beams accordingly to provide the appropriate amount of light. By using high beams more frequently, the system may allow earlier detection of pedestrians and obstacles.

See numbered footnotes in Disclosures section.
TOYOTA SAFETY SENSE™ 2.0 (TSS 2.0)

### DYNAMIC RADAR CRUISE CONTROL

Intended for highways and similar to “constant speed” cruise control, Dynamic Radar Cruise Control (DRCC) lets you drive at a preset speed. DRCC uses vehicle-to-vehicle distance control, which is designed to adjust your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. If a driver is traveling slower than you, or within your preset range, DRCC is designed to automatically slow your vehicle down without deactivating cruise control. If DRCC determines you need to slow down more, an audio and visual alert notifies you and brakes may be applied. When there’s no longer a vehicle driving slower than your preset speed in front of you, DRCC will then accelerate and regular cruise control will resume.

### ROAD SIGN ASSIST

Mirai’s Road Sign Assist (RSA) helps keep the road safe. Using a forward-facing intelligent camera, Road Sign Assist is designed to detect speed limit signs, stop signs and yield signs, and displays them on the MID.

See numbered footnotes in Disclosures section.
Proven peace of mind.

Over the years, Mirai prototypes have been meticulously evaluated — including rigorous in-house crash testing and more than 10,000 miles of extreme climate testing — helping to ensure the same world-class safety you’ll find in any Toyota vehicle. The cabin is equipped with a driver and front passenger Advanced Airbag System,\(^{38}\) front seat-mounted side airbags for the driver and front passenger, front and rear side curtain airbags, plus driver knee and front passenger seat-cushion airbags. They’re all part of a system designed to help keep you safe.

**BODY STRUCTURE AND DESIGN**

Mirai features a unique frame designed to distribute crash forces efficiently. In the event of a collision, the impact force is distributed around the passenger cabin and the Toyota fuel cell system and hydrogen tanks, reducing body deformation and helping to reduce the chance of injury. The collapsible steering column also helps protect the driver by absorbing force during impact.

**SAFETY CONNECT\(^{17}\)**

With available Safety Connect,\(^{\circledast}\) emergency assistance is within your reach. Safety Connect offers subscribers helpful features such as Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance\(^{41}\) and Automatic Collision Notification.

**ACTIVE SAFETY SYSTEM**

Mirai is equipped with Toyota’s Star Safety System,\(^{\circledast}\) a suite of safety features for braking, stability and traction control. These include Enhanced Vehicle Stability Control (VSC),\(^{39}\) Traction Control (TRAC), 4-wheel Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA),\(^{36}\) and Smart Stop Technology\(^{\circledast}\) (SST).\(^{37}\)

See numbered footnotes in Disclosures section.
Fuel a more sustainable tomorrow.

More than 5000 fuel cell vehicles are on the road today: Hydrogen fuel is a proven, eco-friendly alternative to gas and diesel. There are currently more than 35 public hydrogen fueling stations in California. Since it takes just minutes to refuel, these stations mean that Mirai can take you further than you ever thought possible.

Find stations at: Toyota.com/Mirai/Stations
One comprehensive benefits package.

The Mirai experience includes a number of exceptional services, including ToyotaCare™ with three years of no cost enhanced roadside assistance,™ regardless of mileage. Also included is a Complimentary Rental Experience, with use of a rental Toyota for up to 21 days within three years. An 8-year/100,000-mile warranty of the fuel cell components helps to ensure that this FCEV is ready to go the distance. And with 3 years or up to $15,000 worth of complimentary fuel,™ Mirai makes it even easier to embrace sustainability.

Mirai shown in Nautical Blue Metallic and Salsa Red Pearl. Prototypes shown.
See numbered footnotes in Disclosures section.
Exterior Features

- LED low- and high-beam headlights with Automatic High Beams (AHB)* with auto on/off feature
- LED Daytime Running Lights (DRL)
- LED stop lights
- Black sport front grille
- Exclusive fuel cell vehicle badging
- Color-keyed heated power auto-dimming outside mirrors with turn signal and blind spot warning indicators/ reverse tilt and power-folding features with 2-position memory function
- Color-keyed outside door handles with touch-sensor lock/ unlock feature on front doors
- 17-in. silver-painted, machined, engraved alloy wheels with black-painted accents and P215/55R17 tires
- Rain-sensing, washer-linked, variable intermittent windshield wiper with heated windshield wiper de-icer
- Acoustic noise-reducing windshield and front/rear side glass

Interior Features

- Dual zone automatic climate control with Intelligent Touch controls, cabin air filter and individually controlled rear-seat vents
- Intelligent Touch controls for heated seats, heated steering wheel and windshield wiper de-icer
- Entune™ 3.0*5 Premium Audio with JBL® w/Clari-Fi™ Dynamic Navigation® and App Suite*4 — includes 11 speakers including subwoofer, amplifier, 7-in. touch-screen, AM/FM CD player, MP3/WMA playback capability, auxiliary port, USB 2.0 port*8 with iPod® connectivity and control, Dynamic Navigation® with up to a 3-year trial; 7 Dynamic POI Search, Dynamic Voice Recognition® hands-free phone capability and music streaming via Bluetooth® wireless technology. Entune® App Suite*4, 5 with 3-month complimentary All Access trial*8 and Gracenote® album cover art. Toyota Connected Services — Safety Connect® includes Vehicle Stability Control (VSC), 35 Electronic Brake-force Distribution (EBD), Brake Assist (BA) 36 Traction Control (TRAC), Anti-lock Brake System (ABS), STAR Safety System™ — includes Vehicle Stability Control (VSC), 35 Electronic Brake-force Distribution (EBD), Brake Assist (BA) 36 Traction Control (TRAC), Anti-lock Brake System (ABS), Radar Cruise Control (DRCC), 26 Road Sign Assist (RSA) 34 Steering Assist (LDA w/SA) 24 and Road Edge Detection, Sway Warning System (SWS), 33 Automatic High Beams (AHB)* Dynamic Radar Cruise Control (DRCC)*29 Road Sign Assist (RSA)*24 Star Safety System™ — includes Vehicle Stability Control (VSC); 35 Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA)*29 and Smart Stop Technology® (SST)*27
- Eight airbags*24 — includes driver and front passenger Advanced Airbag System, driver and front passenger seat-mounted side airbags, driver knee airbag, passenger seat- cushion airbag, and front and rear side curtain airbags
- LATCH (Lower Anchors and Tethers for CHildren) includes lower anchors and upper tether anchors on rear seats
- Child-protector rear door locks
- Energy-absorbing collapsible steering column
- Front and rear energy-absorbing crumple zones
- Tire Pressure Monitor System (TPMS)*30
- Collision sensors: deactivate high-voltage battery and close H₂ tank valves
- Vehicle Proximity Notification System (VPNS)*32
- Safety Connect® — includes Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance® and Automatic Collision Notification, with three-year trial subscription.
- Blind Spot Monitor (BSM)*3 and Rear Cross-Traffic Alert (RCTA)*32
- Front and rear parking assist sonar*36
- LED Daytime Running Lights (DRL) with on/off feature
- Anti-theft system with engine immobilizer*44

Interior Features (cont.)

- SoftTex®-trimmed two-stage heated front seats with contrasting inserts and seatback pockets, 8-way power- adjustable driver’s seat with 2-position memory function and power lumbar support; 8-way power adjustable front passenger seat with power lumbar support
- SoftTex®-trimmed two-stage heated rear seats
- Smart Key System® on front doors and trunk with Push Button Start and remote illuminated entry
- Power door locks with shift-linked automatic lock/unlock feature and anti-lockout feature
- Multi-function front seat center console with carbon-fiber-style accents, sliding cover and armrest, two front cup holders, Qi-compatible wireless smartphone charging*30 USB 2.0 port*8 with iPod® connectivity and control
- One 12V rear auxiliary power outlet and two USB 2.1A charging ports*8
- Four cup holders and two front bottle holders

Safety Features

- Toyota Safety Sense™ 2.0 (TSS 2.0)*30 — Pre-Collision System*31 with Pedestrian Detection*32 (PCS w/PD) with cyclist detection and improved low-light capabilities, Lane Departure Alert with Steering Assist (LDA w/SA)*30 and Road Edge Detection, Sway Warning System (SWS)*33 Automatic High Beams (AHB)* Dynamic Radar Cruise Control (DRCC)*29 Road Sign Assist (RSA)*24
- Star Safety System™ — includes Vehicle Stability Control (VSC); 35 Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA)*29 and Smart Stop Technology® (SST)*27
- Eight airbags*24 — includes driver and front passenger Advanced Airbag System, driver and front passenger seat-mounted side airbags, driver knee airbag, passenger seat- cushion airbag, and front and rear side curtain airbags
- LATCH (Lower Anchors and Tethers for CHildren) includes lower anchors and upper tether anchors on rear seats
- Child-protector rear door locks
- Energy-absorbing collapsible steering column
- Front and rear energy-absorbing crumple zones
- Tire Pressure Monitor System (TPMS)*30
- Collision sensors: deactivate high-voltage battery and close H₂ tank valves
- Vehicle Proximity Notification System (VPNS)*32
- Safety Connect® — includes Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance® and Automatic Collision Notification, with three-year trial subscription.
- Blind Spot Monitor (BSM)*3 and Rear Cross-Traffic Alert (RCTA)*32
- Front and rear parking assist sonar*36
- LED Daytime Running Lights (DRL) with on/off feature
- Anti-theft system with engine immobilizer*44

CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for every walk of life. From building advanced safety systems designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

DISCLAIMERS

1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all areas. Contact your local Toyota dealer for more information. 2. Phone or Head-Up Display (HUD) may not be visible or with reduced visibility due to a number of factors, e.g., vehicle's interior ambient light intensity, vehicle's position relative to sun, etc. Also, the visibility of phone or HUD may be obstructed. See Owner’s Manual for additional limitations and details. 3. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner's Manual for additional limitations and details. 4. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details. 5. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change at any time without notice. See toyota.com/entune for details. 6. Navigation System Owner's Manual for additional details. 7. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Current information and features may not be available in all locations, or on all receivers. ©2019 Sirius XM Radio Inc. SiriusXM and all related marks and logos are registered trademarks of Sirius XM Radio Inc. All rights reserved. 8. The Dynamic Navigation three-year trial begins the earlier of when the vehicle hits 100 miles or a year after the multimedia system manufacture date, regardless of when you purchase or lease the vehicle. Terms and conditions of subscription service agreement apply. 9. Dynamic voice recognition capabilities vary by head unit. 10. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 11. Always drive safely, obey traffic laws and focus on the road while driving. Siri® is available on select iPhone®/iPad® models and requires Internet access. Siri® is not available in all languages or all areas and features vary by area. Some Siri® functionality and commands are not accessible in the vehicle. Data charges may apply. See apple.com and phone carrier for details. 12. The Smartphone Access via Enhanced Roadside Assistance (RSA) is a driver support system that utilizes the vehicle's forward-facing camera and navigation system to recognize certain road signs and provide information to the driver via the multi-information display and/or Head-Up Display. Effectiveness is dependent on road, weather, vehicle and sign conditions. Use common sense when using RSA and do not drive distracted. See Owner's Manual for additional limitations and details. 13. Toyota may share anonymized and aggregated fuel cell analytic reporting with federal and state regulatory agencies and non-profit organizations for the purpose of education and research related to environment and energy issues, advanced technology and usage analysis. 14. JBL® and Clari-Fi™ are registered trademarks of Harman International Industries, Incorporated. 15. Dynamic Navigation is dependent upon an operable telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Toyota's control, which can limit the ability or functionality of the system. To learn about Toyota Entune™ 3.0’s data collection, use, sharing and retention, please visit www.toyota.com/privacy/. Use common sense when relying on this information. Services and programming subject to change. Services not available in every city or roadway. Subscription required for additional details. 16. Navigation System Owner's Manual for additional details. 17. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Current information and features may not be available in all locations, or on all receivers. ©2019 Sirius XM Radio Inc. SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc. 18. Trial length and service availability may vary by model, model year or trim. 19. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 20. Photosyntheticetically (SO2) is a registered trademark of Toyota Motor Sales, U.S.A., Inc. 21. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details. 22. The Dynamic Navigation three-year trial begins the earlier of when the vehicle hits 100 miles or a year after the multimedia system manufacture date, regardless of when you purchase or lease the vehicle. Terms and conditions of subscription service agreement apply. 23. Owners Manual for additional limitations and details. 24. Toyota Safety Connect® is dependent upon an operative telematics device, a cellular connection and other factors outside of Toyota's control, which can limit the ability to respond to the request center or receive system support or otherwise limit the functionality or availability of the system. Terms and conditions of subscription service agreement apply. 25. To learn about Toyota's data collection, use, sharing and retention, please visit https://www.toyota.com/privacy/. Stolen vehicle police report required to use Stolen Vehicle Locator. 26. The Safety Connect® trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in paid subscription is required to access the service. Terms and conditions apply. 27. The Smart Key System may interfere with the operation of wireless communication devices (e.g., Landline and Mobile Phones, Medical Devices, GPS Navigation Systems). This interference can lead to the loss of signal or incorrect operation of these devices. Use common sense when relying on this information. To learn about Toyota Entune™ 3.0’s data collection, use, sharing and retention, please visit https://www.toyota.com/privacy/. See Owner's Manual for additional details. 28. The Destination Assist Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in paid subscription is required to access the service. Terms and conditions apply. 29. Qi wireless charging may not be compatible with all mobile phones. 30. Owners Manual for additional limitations and details. 31. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 32. iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 33. SiriusXM® audio services require a subscription sold separately by Sirius XM Radio Inc. All rights reserved. 34. The Dynamic Navigation three-year trial begins the earlier of when the vehicle hits 100 miles or a year after the multimedia system manufacture date, regardless of when you purchase or lease the vehicle. Terms and conditions of subscription service agreement apply. 35. The Dynamic Navigation three-year trial begins the earlier of when the vehicle hits 100 miles or a year after the multimedia system manufacture date, regardless of when you purchase or lease the vehicle. Terms and conditions of subscription service agreement apply. 36. JBL® and Clari-Fi™ are registered trademarks of Harman International Industries, Incorporated. 37. Dynamic Navigation is dependent upon an operable telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Toyota's control, which can limit the ability or functionality of the system. After the trial period expires, enrollment in paid subscription is required to access the service. Terms and conditions apply. 48. The Wi-Fi Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in paid subscription is required to access the service. Terms and conditions apply.
Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See 37.

Automotive Engineers (SAE) hydrogen fueling interface protocol standards or laws that may supersede such SAE standards. Refer to the Mirai Hydrogen Stations Locator App in Entune,™ www.toyota.com, or call Toyota customer 43.

Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner’s Manual for additional limitations and details. 38. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner’s Manual for additional limitations and details. 39. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner's Manual for details. 40. This device is not a substitute for safe and attentive driving practices. It is the driver’s responsibility to maintain a lookout for pedestrians, cyclists, other cars and objects, and to drive the vehicle in a safe and attentive manner to avoid making contact. 41. Roadside Assistance coverage is 3 years unlimited mileage. Does not include parts and fluids, except emergency fuel delivery. See Toyota Mirai Fuel Cell Electric Vehicle Dealership for details and exclusions. Valid only in the continental U.S. & Alaska. 42. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See Owner’s Manual for additional limitations and details. 43. Parking assist sonar is designed to warn drivers of potential front and rear collisions at speeds of 6 mph or less. Certain vehicle and environmental factors, including an object’s shape and composition, may affect the ability of the front and rear parking assist sonar to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See Owner’s Manual for additional limitations and details. 44. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aioa.org. 45. Fueling time varies with hydrogen fueling pressure and ambient temperature. 46. Cargo and load capacity limited by weight and distribution. 47. 2019 EPA-estimated 67 city/67 highway/67 combined MPGe for Mirai and 312-mile driving range. Actual mileage will vary. Range measurement pursuant to SAE J2601 standards (ambient temperature: 20°C; hydrogen tank pressure when fueled: 70 MPa). Fueling time varies with hydrogen fueling pressure and ambient temperature. 48. TMS U.S.A. is not responsible for operability of stations or their progress in construction. Projected operational dates are estimates and subject to change as a result of permit application/approval process, construction process and station certification process. 49. Projected hydrogen station operational dates are TMS U.S.A.’s best estimates for when stations will be available for use by Mirai customers according to representation of construction progress by California Governor’s Office of Business and Economic Development (Go-Biz). Operational date estimates are based on construction start date. 50. Standard ToyotaCare covers normal factory scheduled maintenance for two years or 25,000 miles, whichever comes first and also includes 24-hour roadside assistance for two years, regardless of mileage. The Mirai enhancement of ToyotaCare — a total of 3 years or 35,000 miles, whichever comes first — is valid only at authorized Mirai Fuel Cell Electric Vehicle Dealership in the continental United States. See an Authorized Mirai Fuel Cell Electric Vehicle Dealership for details and exclusions. 51. The twenty-one complimentary days will expire after the third year and any unused days will not carry over. 52. Complimentary fuel for three years or $15,000 maximum, whichever comes first. The three-year period starts on the date of card activation or 90 days after vehicle sale or lease commencement date, whichever is earlier. Fuel card is nontransferable. The Mirai is a hydrogen-powered fuel cell electric vehicle that must be fueled at hydrogen stations conforming to the latest Society of Automotive Engineers (SAE) hydrogen fueling interface protocol standards or laws that may supersede such SAE standards. Refer to the Mirai Hydrogen Stations Locator App in Entune,™ www.toyota.com, or call Toyota customer service at 1-800-331-4331 for information on hydrogen fueling stations available to Mirai. 53. Extra-cost color.

**WARRANTIES**

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

**Basic:** 36 months/36,000 miles (all components other than normal wear and maintenance items).

**Fuel-Cell-System-Related Component Coverage:** Fuel Cell System components, including the FC Battery Pack, Battery ECU, FC Air Compressor, FC Boost Converter, FC ECU, H2 tanks, FC PCU (Power Control Unit), FC System, HF ECU (H2 Fueling ECU), and Power Management ECU (HV ECU).

**Powertrain:** 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

**Rust-Through:** 60 months/unlimited miles (corrosion perforation of sheet metal).

**Emissions:** Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

Some vehicles are shown with available equipment. Seatbelts should be worn at all times. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty. For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage. You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about ToyotaAccessories, please visit www.toyota.com, or refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.
