Where do you want to go next?

When you’re behind the wheel of a Toyota, where you go next is up to you. You could start your search for the best burger in the city or journey up an unfamiliar coastline on the other side of the country. But going places is more than just collecting experiences, going places is also about challenging your limits. It’s driving downtown for a night class or traveling another state over for a client presentation. Wherever you’re headed, one thing’s for sure: Life wants to take you somewhere. Make sure you’re ready. Let’s go places.

“Open the window. It’s a big world outside.”
—Sakichi Toyoda

Highlander SE AWD shown in Salsa Red Pearl with available roof rack cross bars. Vehicle shown with some accessories not available from Toyota. See numbered footnotes in Disclosures section.
Follow your inspiration in the all-new 2019 Toyota Avalon, and never look back. Its low, wide stance and flowing roofline give it a sleek silhouette, while strong character lines add definition to its shape — creating an undeniable presence wherever you go.

**Avalon XLE | XSE | TOURING | LIMITED**

**Avalon Touring** shown in Wind Chill Pearl® with available Advanced Safety Package.

See numbered footnotes in Disclosures section.
Designed for safety.

Toyota Safety Sense™ (TSS)* is a bundle of active safety features on many new Toyota vehicles at no additional cost. These innovative features were designed to help protect you and your passengers from harm.

**PRE-COLLISION SYSTEM** with Pedestrian Detection

Using an in-vehicle camera and radar to help detect a vehicle or a pedestrian in front of you, the Pre-Collision System (PCS) with Pedestrian Detection (PCS w/PD) can help you mitigate or avoid a potential collision. If the system determines that a frontal collision is likely, it prompts you to take action using audio and visual alerts. If you notice the potential collision and apply the brakes, PCS w/PD may apply additional force using Brake Assist (BA). If you don’t brake in time, it may automatically apply the brakes to reduce your speed, helping to minimize the likelihood of a frontal collision or reduce its severity.

**LANE DEPARTURE ALERT WITH STEERING ASSIST** and Road Edge Detection

Using Road Edge Detection, Lane Departure Alert with Steering Assist (LDA w/SA) issues both an audible alert and visual warning on the Multi-Information Display (MID) screen. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to help keep the vehicle in the lane.

**AUTOMATIC HIGH BEAMS**

Automatic High Beams (AHB) are a safety system designed to help you see more clearly at night — without distracting other drivers. Designed to activate at speeds above 25 mph, AHB rely on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggle between high and low beams accordingly to provide the appropriate amount of light. By using high beams more frequently, the system may allow earlier detection of pedestrians and obstacles.

*Not all TSS or TSS 2.0 features available on all models and model grades. See dealer for details. See numbered footnotes in Disclosures section.
TOYOTA SAFETY SENSE™ 2.0 (TSS 2.0)

FULL-SPEED RANGE DYNAMIC RADAR CRUISE CONTROL

Intended for highway use and similar to “constant speed” cruise control, Dynamic Radar Cruise Control (DRCC) lets you drive at a preset speed. DRCC uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. If a driver is traveling slower than you, or within your preset range, DRCC will automatically slow your vehicle down without deactivating cruise control. If DRCC determines you need to slow down more, an audio and visual alert notifies you and brakes are applied. When there’s no longer a vehicle driving slower than your set speed in front of you, DRCC will then accelerate to your preset speed.

LANE TRACING ASSIST

When Lane Tracing Assist (LTA) is on and Dynamic Radar Cruise Control is enabled, the vehicle is designed to use visible lane markers and/or a preceding vehicle to help keep the vehicle centered while also displaying the vehicle’s position within the MID screen. The system is designed to reduce driver strain, increase convenience and benefits drivers most during traffic jam situations — but can be turned off using the MID.

ROAD SIGN ASSIST

Road Sign Assist (RSA) helps keep the road safe. Using a forward-facing intelligent camera, Road Sign Assist is designed to detect speed-limit signs, stop signs, do-not-enter signs and yield signs, and display them on the MID.

*Not all TSS or TSS 2.0 features available on all models and model grades. See dealer for details. See numbered footnotes in Disclosures section.
Not all colors available on all model grades. See dealer for details. *Extra-cost color. **The available R-Code adds differentiation with a black- or white-painted roof and side mirrors. See numbered footnotes in Disclosures section.

1. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details.
2. Apple CarPlay® is a registered trademark of Apple Inc. Apps and services subject to change at any time without notice. 3. CAUTION! When driving a hybrid vehicle, pay special attention to the areas around the vehicle. Because there is little vehicle noise in EV Mode, pedestrians, people riding bicycles or other people and vehicles in the area may not be aware of the vehicle. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change at any time without notice. See Owner’s Manual/entune for details. 9. The Smart Key System may interfere with some makers of cardkey-type or other keyless entry systems. If you are one of these medical devices, please talk to your doctor or nurse to see if you should deactivate this system. 10. The Bird’s Eye View Camera does not provide a comprehensive view of the area surrounding your vehicle. Look around to confirm surrounding clearance. 11. Dynamic Navigation is dependent upon an operable telematics device, a cellular connection, navigation data map and GPS satellite signal reception, and other factors outside of Toyota’s control, which can limit the ability or functionality of the system. To learn about Toyota Entune™ 3.0’s data collection, use, sharing and retention, please visit https://www.toyota.com/privacyvts/. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Subscription required upon end of trial service period. See Navigation System Owner’s Manual for additional details. 12. JBL® and Clari-Fi™ are registered trademarks of Harman International Industries, Incorporated. 13. Do not overload your vehicle. See Owner’s Manual for weight limits and restrictions. 14. 2018 EPA-estimated 54 city/50 highway/52 combined mpg for Prius. Actual mileage will vary. 15. EPA-estimated 25 miles in EV Mode. Quick acceleration and braking, road and vehicle conditions, or climate control use may prevent or limit usage or effectiveness of EV Mode. See www.fueleconomy.gov. 16. Driving speed and distance is limited. See Owner’s Manual for details. 17. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See Owner’s Manual for details. 18. Do not rely exclusively on Blind Spot Monitor. Look over shoulder and use turn signal. 19. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See Owner’s Manual for additional limitations and details. 19. 2018 EPA-estimated combined 33 MPGe. Actual MPGe will vary. Battery capacity will decrease with time and use. See www.fueleconomy.gov. 20. 2018 Prius Prime EPA-estimated driving range with a full tank of gas. Based on 45% highway, 55% city driving. Actual mileage will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. See www.fueleconomy.gov. 21. Cargo and load capacity limited by weight and distribution. 22. The backup camera does not provide a comprehensive view. Always look over shoulder and use outside mirrors. 23. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to deploy only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner’s Manual for additional limitations and details. 24. 2019 EPA-estimated mileage. Actual mileage will vary. 25. 2018 EPA-estimated 67 city/67 highway/67 combined MPGe for Mirai and 312-mile driving range. Actual mileage will vary. Range measurement pursuant to SAE J2601 standards (ambient temperature: 70°F or 21°C, humidity: 50%, atmospheric pressure: 14.7 psi). 26. Fuel economy improvement may vary based on driving conditions and weather. 27. Vehicle Stability Control is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and steering input can affect whether VSC will be effective. 28. Torsen® is a registered trademark of Zexel Torsen, Inc. 29. The available R-Code adds differentiation with a black- or white-painted roof and side mirrors. 30. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 31. Low-Speed Pre-Collision System operates at speeds 18 mph or less. It is intended to assist a driver, but it is the driver’s responsibility to be aware of the vehicle’s surroundings. The system cannot prevent all collisions, and performance is dependent on road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 32. See Owner’s Manual for additional limitations and details. 33. May not be compatible with all mobile phones, MP3/WMA players and like models. 34. Never tow beyond a vehicle’s published towing capacities. See Owner’s Manual for details. 35. Trailer-Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 36. Wi-Fi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. 37. Based on 2018 Prius Prime EPA-estimated combined 133 MPGe, and non-luxury plug-in hybrid segment from www.fueleconomy.gov. Actual mileage will vary. 38. A Blu-ray Disc™/DVD player is standard. A separate Blu-ray Disc™/DVD player or game system utilizing the center console’s audio/video inputs is required in order to use the split-screen function of the Dual-View system. 39. Do not exceed 120V. See Owner’s Manual for additional limitations and details. 40. Auto LSD is an electronic, brake-actuated limited-slip differential that automatically activates when VSC is disengaged at low speeds. 41. Crawl Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling braking, allowing the driver to control steering. The Toyota 4Runner and Toyota Tacoma are designed to meet off-road driving requirements, but off-road is inherently dangerous. Always wear seatbelts. 42. See Owner’s Manual for additional limitations and details. 43. FOX® is a registered trademark of FOX Factory, Inc. (©FOX Factory, Inc.) 44. The TSS Pre-Collision System is not a substitute for safe and attentive driving practices. See Owner’s Manual for additional limitations and details. 45. The Pedestrian Detection System, and in some models the Pre-Collision System, is designed to detect a pedestrian or bicyclist ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, and weather, light and road conditions. See Owner’s Manual for additional limitations and details. 46. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, and tire and road conditions. See Owner’s Manual for additional limitations and details. 47. Lane Departure Alert with Steering Assist is not a substitute for safe and attentive driving practices. See Owner’s Manual for additional limitations and details. 48. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 49. Do not rely exclusively on Road Sign Assist (RSA). RSA is a driver support system that utilizes the vehicle’s forward-facing camera and navigation system to recognize certain road signs and provide information to the driver via the multi-information display and/or Head-Up Display. Effectiveness is dependent on road, weather, vehicle and sign conditions. Use common sense when using RSA as it is not a substitute for safe and attentive driving practices. See Owner’s Manual for additional limitations and details. 50. The available R-Code adds differentiation with a black- or white-painted roof and side mirrors. 51. Lane Departure Alert with Steering Assist is not a substitute for safe and attentive driving practices. See Owner’s Manual for additional limitations and details. 52. 2019 preliminary mpg estimates determined by Toyota. EPA estimates not available at time of printing. Actual mileage will vary.

For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota Dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle. All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.
CARDS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

**Basic:** 36 months/36,000 miles (all components other than normal wear and maintenance items).

**Powertrain:** 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

**Rust-Through:** 60 months/unlimited miles (corrosion perforation of sheet metal).

**Emissions:** Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

**Accessories:** For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage. You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

**Hybrid-Related Component Coverage:** Hybrid-related components, including the HV battery, battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. The HV battery may have longer coverage under emissions warranty. Refer to applicable Warranty and Maintenance Guide for details.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order.

Toyota vehicles are designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing hitch receivers/ball mount kits are not intended to provide crash protection.

We want everything about your experience with Toyota to exceed your expectations. The Toyota Customer Experience Center is one way we hope to satisfy you. Got a question, comment or concern? Please contact us at:

Toyota Motor Sales, U.S.A., Inc.
