Where do you want to go next?

When you’re behind the wheel of a Toyota, where you go next is up to you. You could start your search for the best burger in the city or journey up an unfamiliar coastline on the other side of the country. But going places is more than just collecting experiences, going places is also about challenging your limits. It’s driving downtown for a night class or traveling another state over for a client presentation. Wherever you’re headed, one thing’s for sure: Life wants to take you somewhere. Make sure you’re ready. Let’s go places.

“Open the window. It’s a big world outside.”
—Sakichi Toyoda
Follow your inspiration in the 2019 Toyota Avalon, and never look back. Its low, wide stance and flowing roofline give it a sleek silhouette, while strong character lines add definition to its shape — creating an undeniable presence wherever you go.

- Standard Toyota Safety Sense™ P (TSS-P)
- Available 38-gallon fuel tank
- Available LED headlights with LED Daytime Running Lights
- Available Entune™ Premium Audio with JBL® Audio with Integrated Navigation and Entune® App Suite
- Available leather-trimmed and heated front bucket seats
From harsh deserts to deep jungles to sub-zero temperatures of the Arctic Circle, the 2019 TRD Pro series is ready to devour some of the world’s most-challenging terrain. And they’re hungry for more. Whether it’s the full-size Tundra TRD Pro, the adventurous 4Runner TRD Pro, or the action-packed Tacoma TRD Pro, these trucks will take you places you never thought possible. What else would you expect from the experts at Toyota Racing Development? It’s time to crank things up a notch — or ten. Let’s get dirty!

DON’T JUST BLAZE TRAILS. OWN THEM.
DESIGNED FOR SAFETY — TSS 2.0 FEATURES

Toyota Safety Sense™ (TSS)*,† is a bundle of active safety features on many new Toyota vehicles at no additional cost. These innovative features were designed to help protect you and your passengers from harm.

**PRE-COLLISION SYSTEM‡ WITH PEDESTRIAN DETECTION‡‡**

Pre-Collision System‡ with Pedestrian Detection‡‡ (PCS w/PD) helps keep the road safe by detecting a pedestrian under certain daytime conditions. If the system determines that the possibility of frontal collision with a pedestrian is high, it prompts the driver to take evasive action and brake by using an audio/visual alert. If the driver reacts and brakes, the system may use Brake Assist (BA)‡‡ to provide additional brake force. If the driver doesn’t react and brake and the system determines that the risk of collision is high, the system may automatically apply the brakes, reducing speed to help mitigate the impact or avoid the collision entirely, if possible.

**LANE DEPARTURE ALERT WITH STEERING ASSIST.§ AND ROAD EDGE DETECTION**

Using Road Edge Detection, Lane Departure Alert with Steering Assist (LDA w/SA)§ issues both an audible alert and visual warning on the Multi-Information Display (MID) screen. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to help keep the vehicle in the lane.

**AUTOMATIC HIGH BEAMS¶**

The Automatic High Beams (AHB)¶ feature is a safety system designed to help you see more clearly at night — without distracting other drivers. Designed to activate at speeds above 25 mph, AHB relies on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggles between high and low beams accordingly to provide the appropriate amount of light. By using high beams more frequently, the system may allow earlier detection of pedestrians and obstacles.

*Not all TSS or TSS 2.0 features available on all models and model grades. See dealer for details. See numbered footnotes in Disclosures section.
TOYOTA SAFETY SENSE™ 2.0 (TSS 2.0)*

**FULL-SPEED DYNAMIC RADAR CRUISE CONTROL**

Intended for highway use and similar to “constant speed” cruise control, Dynamic Radar Cruise Control (DRCC) lets you drive at a preset speed. DRCC uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. If a driver is traveling slower than you, or within your preset range, DRCC will automatically slow your vehicle down without deactivating cruise control. If DRCC determines you need to slow down more, an audio and visual alert notifies you and brakes are applied. When there’s no longer a vehicle driving slower than your set speed in front of you, DRCC will then accelerate to your preset speed.

**ROAD SIGN ASSIST**

Road Sign Assist (RSA) helps keep drivers informed of important signs. Using a forward-facing intelligent camera, Road Sign Assist is designed to detect speed-limit signs, stop signs, do-not-enter signs and yield signs, and display them on the MID.

**LANE TRACING ASSIST**

When Lane Tracing Assist (LTA) is on and Dynamic Radar Cruise Control is enabled, the vehicle is designed to use visible lane markers and/or a preceding vehicle to help keep the vehicle centered while also displaying the vehicle’s position within the MID screen. The system is designed to reduce driver strain, increase convenience and benefits drivers most during traffic jam situations — but can be turned off using the MID.

*Not all TSS or TSS 2.0 features available on all models and model grades. See dealer for details. See numbered footnotes in Disclosures section.

DISCLOSURES

1. Drivers are always responsible for their own safe driving. See Owner's Manual for additional limitations and details. 2. Apps and services subject to change at any time without notice. Data charges may apply. Apple CarPlay® functionality requires a compatible iPhone® tethered with an approved data cable into the USB media port. Apple CarPlay™ is a registered trademark of Apple Inc. 3. CAUTION! When driving a hybrid vehicle, pay special attention to the manual floor shifter, as it is different than in a conventional vehicle. 4. EV Mode works under certain conditions at low speeds for up to one-half mile. See Owner's Manual for details. 5. EV Mode works under certain conditions at low speeds up to one mile. Quick acceleration and braking, road and vehicle conditions, or climate control use may prevent or limit usage or effectiveness of EV Mode. See www.fueleconomy.gov. Driving speed and distance are limited. See Owner's Manual for details. 6. Extra-cost. 7. Amazon, Alexa, and all related logos and marks are trademarks of Amazon.com, Inc. or its affiliates. Amazon, prices and services vary by phone carrier and are subject to change at any time without notice. 8. See owner.com/entune for details. 9. The Bird's Eye View Camera does not provide a comprehensive view of the area surrounding your vehicle. Look around to confirm surrounding clearance. 10. Dynamic Navigation is dependent upon an operating telematics device, a cellular network, navigation map data and GPS satellite signal reception, and other factors outside of Toyota's control, which may limit the ability or functionality of the system. To learn about Toyota Entune™ 3.0’s data collection, use, sharing and retention, please visit https://www.toyota.com/privacyvts/. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See www.toyota.com/entune for details. 11. JBL® and Clari-Fi™ are registered trademarks of Harman International Industries, Inc. 12. Cargo and load capacity ratings are based on weight distribution. Always properly secure cargo and cargo area. 13. Roof rack with cross bars is not recommended for luggage. 14. 2019 preliminary mpg estimates determined by Toyota. EPA estimates not available at time of posting. Actual mileage will vary. 15. Do not rely exclusively on Blind Spot Monitor. Look over shoulders and use turn signal. 16. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look around you and use your surroundings to see what is behind and around your vehicle. 17. Calculations based on 2018 Prius Prime EPA-estimated EV Mode range of 25 miles when vehicle is fully charged. Excludes driving conditions. Actual mileage traveled in EV Mode will vary and is dependent on many factors such as traffic, road and weather conditions, vehicle maintenance, driving speed and cargo load. 18. 2018 Prius Prime EPA-estimated driving range with a full tank of gas. Based on 45% highway, 55% city driving. Actual mileage will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. See www.fueleconomy.gov. 19. Based on 2018 Prius Prime EPA-estimated combined 133 MPGe, and non-luxury plug-in hybrid segment from www.fueleconomy.gov. Actual mileage will vary. 20. 2018 EPA-estimated combined 133 MPGe. Actual MPG will vary. Battery capacity will decrease with time and use. See www.fueleconomy.gov. 21. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See Owner's Manual for details. 22. The backup camera does not provide a comprehensive view. Always look over shoulder and use outside mirrors. 23. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury of an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. In front of the seatback. 24. This manual contains general information on Supplemental Restraint System (SRS) and Components. See Owner's Manual for additional limitations and details. 25. Toyota recommends using only genuine Toyota parts when performing maintenance and repair. For additional information, see Toyota’s Warranty Coverage and Exclusions. 26. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. 27. Prototypes shown. Actual production vehicles may vary. 28. The TSS Pre-Collision System is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and steering input can all affect whether VSC will be effective. 29. Torsen® is a registered trademark of Zexel Torsen, Inc. 30. The available R-Code adds differentiation with a black- or white-painted roof and side mirrors. 31. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A connectable Bluetooth® end device must first be paired. Phone performance depends on software, compatibility, and carrier. 32. The Pedestrian Detection system is designed to detect a pedestrian or bicyclist ahead of the vehicle, determine if impact is imminent and help steer your vehicle. 33. The Bird’s Eye View Camera does not provide a comprehensive view of the area surrounding your vehicle. Look around to confirm surrounding clearance. 34. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury of an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. In front of the seatback. 35. Toyota recommends using only genuine Toyota parts when performing maintenance and repair. For additional information, see Toyota’s Warranty Coverage and Exclusions. 36. Toyota strongly encourages you to visit ToyotaCare.com for additional limitations and details. 37. Trailer-Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, weather and steering input can all affect whether TSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details. 38. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system, avoiding metal objects between the wireless charger and the mobile device when charging is active. Driving while disengaged at low speeds. 39. A Blu-ray Disc™/DVD player is standard. A separate Blu-ray Disc™/DVD player or game system utilizing the center console's video/audio inputs is required in order to use the split-screen function of the Dual-view system. 40. Crawl Control is designed for low-speed off-road driving on difficult terrain. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. 41. The Toyota 4Runner and Toyota Tacoma are designed to meet off-road driving requirements, but off-roading is inherently dangerous. Always wear seatbelts. 42. Auto LSD is an electronic, brake-actuated limited-slip differential that automatically activates when VSC is off. 43. Auto LSD is an electronic, brake-actuated limited-slip differential that automatically activates when VSC is off. 44. Do not use an automatic car wash if vehicle is equipped with Desert Air Intake accessory. Damage to vehicle may result which falls outside of the vehicle's warranty coverage. 45. The TSS Pre-Collision System is designed to detect a pedestrian or bicyclist ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, and weather, light and road conditions. See Owner’s Manual for additional limitations and details. 46. The Pedestrian Detection system is designed to detect a pedestrian or bicyclist ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, and weather, light and road conditions. 47. Lane Departure Alert with Steering Assist is not a substitute for safe and attentive driving practices. See Owner’s Manual for additional limitations and details. 48. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 49. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, and tire and road conditions. See Owner’s Manual for additional limitations and details. 50. Lane Departure Alert with Steering Assist is not a substitute for safe and attentive driving practices. See Owner’s Manual for additional limitations and details. 51. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 52. Do not rely exclusively on Road Sign Assist (RSA). RSA is a driver support system that utilizes the camera and the vehicle’s radar to identify traffic signs, display the sign and read the speed limit. Effectiveness depends on proper vehicle maintenance, and tire and road conditions. System effectiveness also depends on proper vehicle maintenance, and tire and road conditions. See Owner’s Manual for additional limitations and details. 53. Full-Speed Range Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving. System effectiveness also depends on road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 54. Lane Tracing Assist (LTA) is designed to read visible lane markers and detect other vehicles under certain conditions. When potential lane departure is detected, LTA provides a visual warning and either an audible alert or vibration in the steering wheel and can apply a slight steering force. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 55. 2019 EPA-estimated mileage. Actual mileage will vary. 56. GreenEdge® is a registered trademark of Harman International Industries, Inc. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle. All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.
CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

**Basic:** 36 months/36,000 miles (all components other than normal wear and maintenance items).

**Powertrain:** 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

**Rust-Through:** 60 months/unlimited miles (corrosion perforation of sheet metal).

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

Hybrid-Related Component Coverage: Hybrid-related components, including the HV battery, battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. The HV battery may have longer coverage under emissions warranty. Refer to applicable Warranty and Maintenance Guide for details.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Toyota vehicles are designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing hitch receivers/ball mount kits are not intended to provide crash protection.

We want everything about your experience with Toyota to exceed your expectations. The Toyota Customer Experience Center is one way we hope to satisfy you. Got a question, comment or concern? Please contact us at:

Toyota Motor Sales, U.S.A., Inc.
P.O. Box 259001, Plano, TX 75025-9001
Phone/Fax: 800-331-4331/310-468-7814
Monday – Friday, 7 a.m. – 7 p.m. CT/Saturday, 7 a.m. – 4:30 p.m. CT

Help reduce paper use: Visit toyota.com and type “brochure” into the search field to view an online brochure for each Toyota vehicle.
