Go above and beyond the ordinary in the 2023 Toyota Highlander. Its all-new 2.4L 4-cylinder turbo engine with available all-wheel-drive capabilities efficiently delivers power, to make the drive just as exciting as the destination. Riding around in the plush, spacious and teched-out interior will have you feeling relaxed and in control every step of the way. And wherever you choose to show up, Highlander’s bold yet refined design will keep all eyes on you. So get your crew together and get ready to elevate every journey.
PERFORMANCE

A step up in performance.

Highlander’s new 2.4L turbo powertrain is big on torque and efficiency, so you can find greater adventures. Multi-Terrain Select is designed to help keep you in control in dynamic environments, so you can explore with ease and peace of mind.

2.4L turbo powertrain

A new 2.4L turbo 4-cylinder engine provides 265 horsepower with an enhanced 310 lb.-ft. of torque. Along with up to an EPA-estimated combined 25 mpg,1 Highlander is ready to take on your adventures.

XSE sport-tuned suspension

Unique to Highlander XSE is a sport-tuned suspension that lets it hug the road a little tighter. Retuned shock absorbers, higher-rate springs and a rear stabilizer bar give you enhanced handling on the road, while its lower, athletic stance shows everyone that it’s ready to hit the ground running.

Dynamic Torque Vectoring AWD

Enjoy an upgrade in all-wheel-drive performance. Available Dynamic Torque Vectoring All-Wheel Drive increases responsiveness and stability by sending up to 50 percent of the power to the rear and then further distributing more power to the wheel that needs it.

Towing capacity

The epitome of power and smoothness. Highlander’s new 2.4L turbo engine flexes some muscle with its 5000-lb. towing capacity.2

Multi-Terrain Select

Offering you more capability when the pavement ends, Highlander features Multi-Terrain Select (MTS) on All-Wheel Drive (AWD) models. Choose between four modes (Mud & Sand, Rock & Dirt, Snow and Normal) for enhanced traction. When activated, the system is designed to sense slippage and regulate wheelspin — helping to maximize driving performance on different surfaces.

Drive modes

Three distinct drive modes let you tailor Highlander’s driving dynamics to match your mood. Sport Mode provides sharper acceleration, Eco Mode helps maximize fuel efficiency, and Normal Mode blends fuel economy with performance.

See numbered footnotes in Disclosures section.
EXTERIOR

Elegant from every angle.

Highlander’s bold design is hard to ignore. Its sculpted shape and contoured lines display the perfect balance between power and refinement. Now available in a new-to-Highlander Cypress color, it sets another standard for curb appeal. Get ready to turn heads wherever you go.

Twin-tip exhaust

Underneath XSE’s unique rear bumper features Highlander’s available twin-tip exhaust. Chrome-plated for durability and added attention, it helps finish off the sportier rear design.

20-in. wheels

Highlander shows off more style with its available 20-in. alloy wheels. Standard on XSE, Limited and Platinum, these sleek wheels add more sophistication without compromising performance.

Hands-free power liftgate

Experience freedom, even with your hands full. When you need to engage its available hands-free power liftgate, Highlander senses your Smart Key fob and is designed to open automatically when you kick your foot under the rear bumper.

LED headlights

The dynamic front end of Highlander shows off its modern look. The stylish standard LED headlights provide a crisp, clean light, while available auto-leveling LED projector-beam headlights help keep light aimed down at the road for better visibility.
INTERIOR

Always ride in comfort.

Highlander combines space and comfort while featuring a modern design. Seat up to eight with third-row seating, catch a breeze under the available panoramic moonroof, or stay cozy with its available heated and ventilated seats.

Qi wireless charging

Highlander has available Qi-compatible wireless smartphone charging. Leave the cables at home and seamlessly charge on the go by placing your smartphone on the shelf right below the touchscreen.

12.3-in. Multi-Information Display

Standard on Limited and Platinum, the available 12.3-in. fully digital gauge cluster presents turn-by-turn directions, safety info, alerts and more, all at a glance, so you can keep your eyes on the road.

Panoramic moonroof

Follow the stars above with Highlander's available panoramic moonroof with front power tilt/slide moonroof. Open it up to catch a breeze and enjoy the wide-open view, or easily find cover with a power-retractable sunshade.

Two-tone XSE interior

Feel the sporty vibe of XSE every time you enter. With its available red and black leather-trimmed seats with red accent stitching across the instrument panel, you can't help but feel a little more empowered behind the wheel.

Third-row seating

Highlander’s roomy interior gives you enough space to seat up to eight, making it great for larger groups and families.

See numbered footnotes in Disclosures section.
HYBRID

Driven to go the extra mile.

Highlander Hybrid makes the most of what everyone wants to do, on or off the beaten path. With up to an EPA-estimated combined 36 mpg, you can explore much further and stay out longer. All while enjoying the choice of front-wheel-drive or all-wheel-drive capability.

36
Up to est. mpg

Hybrid drive modes

Highlander Hybrid offers multiple selectable driving modes that let you choose how it performs: Normal for everyday driving, Eco for maximum efficiency, Sport for enhanced acceleration, EV Mode, which allows electric-only driving at low speeds for short distances, and Trail Mode, which gives AWD models even more traction.

1500W power inverter

Highlander Hybrid lets you bring the creature comforts of home wherever you go. Just plug in to the available 1500W power inverter in the rear cargo area to power up your essentials.
Technology that keeps up with you.

HIGHLANDER ACCESSORIES

This is a great way to add extra personality to your Highlander. Not every accessory is available in your area, so for a complete list of accessories, go to toyota.com/highlander/accessories.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Hybrid-Related Component Coverage: Hybrid-related components, including the battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. Refer to applicable Warranty and Maintenance Guide for details.

Hybrid Battery: HV battery is covered for 10 years or 150,000 miles, whichever comes first. Warranty coverage is subject to terms and conditions. Refer to applicable Warranty and Maintenance Guide for details.

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available in every location. Use common sense when relying on the system that is initiated when you insert your key into the ignition switch or bring a Smart Key fob into the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle’s immobilizer. The transponder chip is embedded in the key/fob and can be costly to replace. If you lose a key or fob, your Toyota dealer can help or go to www.toyota.com for additional information. Always respect the privacy rights of others. See your dashcam Owner’s Manual for additional limitations and details.

Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 61. Brake Assist is designed to help the driver take advantage of ABS and is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner’s Manual for additional limitations and details. 58. Smart Stop Technology® operates only in the event of certain preaccident brake and accelerator pedal applications. When engaged, the system will reduce power to the wheels and apply the brakes to help bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner’s Manual for additional limitations and details. 60. Hill Start Assist Control is designed to help driver maintain vehicle control and control on steep, hillside descents and is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can affect the DMC’s ability to prevent loss of control. See Owner’s Manual for additional limitations and details. 63. The tire pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner’s Manual for additional limitations and details. 63. Hill Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, road conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 64. At speeds of 9 mph or less, Front and Rear Parking Assist with Automatic Braking (PA w/AB) is designed to assist drivers in avoiding potential collisions with nearby static objects when the vehicle is in Reverse. Do not rely overly on PA w/AB. Always look around outside the vehicle and use mirrors to confirm clearance. Certain vehicle and environmental factors, including an object or vehicle’s shape, size and composition, may affect the system’s effectiveness. See Owner’s Manual for additional limitations and details. 65. Predictive Fuel-Efficient Drive systems require a destination entry in the navigation system for use. See Owner’s Manual for details.

Towing hitch receivers/ball mount kits are not intended to provide crash protection. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.
