2024 Mirai

2024 MIRAI

Zero-emission elegance.

The 2024 Toyota Mirai's sleek design is as innovative as its engineering. Its aerodynamic stance and premium rear-wheel-drive platform consistently deliver an exciting ride, and inside, Mirai's spacious cabin seats five comfortably. Best of all, Mirai just needs around five minutes at the hydrogen pump to refuel¹ and you're ready to hit the road.

See numbered footnotes in Disclosures section.

High-tech. Highly convenient.

Mirai's advanced tech helps you feel more connected and in control on every drive.

Limited interior shown in White SofTex^{®3} trim.
Always drive safely and obey traffic laws.

Digital Rearview Mirror with HomeLink[®]

Connected to a camera on the trunk, Mirai's available digital rearview mirror with HomeLink^{®10} can cast an obstruction-free view. You can zoom in, zoom out and adjust the mirror to get a better look at what's behind you.

Color Head-Up Display

With your hands on the steering wheel and your eyes on the road, Mirai's available color Head-Up Display (HUD) casts your speed, turn-by-turn directions, and Hybrid System Indicator info right into your line of sight.

Panoramic View Monitor

Mirai's available Panoramic View Monitor¹¹ (PVM) helps you check your surroundings for hazards. It uses four cameras, one on each side of the vehicle, to display a panoramic view onto the touchscreen display. When you're parked and using the Moving View setting, Mirai creates an animated virtual view from above to give you a bigger picture of what's around.

Limited interior shown in White SofTex^{®3} trim.¹¹

EXTERIOR

Sophistication at first sight.

Mirai's low, wide and long stance gives this hydrogen fuel cell vehicle a look that's as cutting-edge as its engineering. And premium aluminum alloy wheels elegantly accent Mirai's sleek and modern shape.

Limited shown in Supersonic Red.² Below left: XLE shown in Oxygen White.² Below right: Limited shown in Supersonic Red.²

LED taillights

Mirai's taillight design is nothing short of iconic. Made up of energy-efficient and durable LED bulbs, these taillights shine bright for enhanced road safety at night.

Wheel design

Aluminum alloy wheels accentuate Mirai's modern look. XLE comes standard with 19-in. twin spoke wheels, while available 20-in. Super Chrome-finished wheels pack an extra punch. And Limited comes standard with 19-in. black machined-finished wheels.

PERFORMANCE

Powered by chemistry.

Mirai generates its power by funneling hydrogen from the fuel tank and oxygen entering the intake grille to the Fuel Cell Stack, where the elements react to create electricity. In the end, the only by-product is water.

Three hydrogen tanks

Mirai features three hydrogen tanks. These high-pressure carbon-fiber-reinforced-polymer tanks have been rigorously tested and proven to meet Global Technical Regulation No.13.¹³

How do I fill up Mirai?

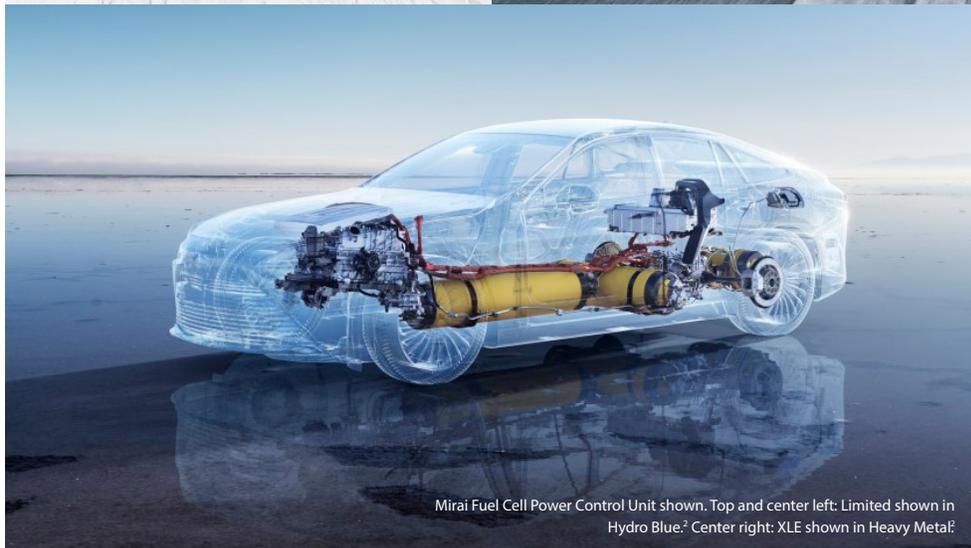

Refueling Mirai is simple. There's a pump and a nozzle, just like at a gasoline station. As you pump in the hydrogen, it travels to carbon-fiber-reinforced fuel tanks where it's stored. After around five minutes,¹ you'll be ready to hit the road.

Up to EPA-estimated 402-mile range

With impressive EPA-estimated ranges of 402 miles for Mirai XLE¹² and 357 miles for Mirai Limited,¹² you can spend less time refueling and more time cruising.

Rear-Wheel Drive and drive modes

Enhancing both cornering and acceleration, Mirai's premium rear-wheel-drive platform is engineered to make you want to take the long way home. And with three driving modes: ECO, Normal and Sport, Mirai lets you alter driving dynamics at the push of a button.

INTERIOR

Interior design

Premium touches, like available perforated and embossed SofTex®-trimmed³ seating, highlight Mirai's refined interior. And, with available satin silver-colored or copper-colored accents, everyone inside can see this interior was put together with purpose — right down to the last stitch.

Three-zone automatic climate control

Little innovations can make a big difference. With Mirai's available three-zone automatic climate control, driver and passengers can set their temperature in one of three zones: driver's side, passenger side, and rear.

Heated and ventilated seats

Mirai's available heated and ventilated front and rear seats help keep everyone comfortable — no matter the season.

Dual fixed Panoramic View Moonroof

Above the front and rear seats, Mirai's available dual fixed Panoramic View Moonroof makes the cabin feel even more spacious. It lets the sunshine in while making every ride more scenic.
