OVERVIEW

Instrument cluster

1 Engine coolant temperature
2 Service indicator and reminder
3 Fuel economy meter
4 Gear shift position indicator
5 Speedometer
6 Fuel gauge
7 Trip meter reset knob/Instrument panel light control
8 Multi-information display
9 Driving ready light
**Indicator symbols**

For details, refer to “Indicators and warning lights,” Section 2-2, 2009 Owner’s Manual.

- Brake system warning
- Brake system warning light
- Driver seat belt reminder (alarm will sound if speed is over 12 mph)
- Front passenger seat belt reminder (alarm will sound if speed is over 12 mph)
- Charging system warning
- Front passenger occupant classification or front passenger air bag ON/OFF indicator
- Driving ready light
- Malfunction/Check Engine indicator
- Low fuel level warning
- Open door warning
- Airbag SRS warning
- Master warning
- Low Tire Pressure Warning
- Electric power steering system warning
- Theft deterrent/Engine immobilizer system indicator
- Headlight low/high beam indicator
- Turn signal indicator
- Slip indicator
- Cruise control indicator
- Anti-lock Brake System warning

---

1 If indicator does not turn off within a few seconds of starting engine, there may be a malfunction. Have vehicle inspected by your Toyota dealer.

2 If this light flashes, refer to “Cruise control,” Section 2-4, 2009 Owner’s Manual.
Keyless entry

Locking operation

Unlocking operation

NOTE: If a door is not opened within 60 seconds of unlocking, all doors will relock for safety.

Trunk lid operation

Panic button
**Smart Key system***

**Start function**

- Depress brake pedal
- Green indicator ON
- Push

**NOTE:** Gear shift lever must be in “Park” and brake pedal depressed.

**Power (without starting Hybrid System)**

Without depressing the brake pedal, pressing the “POWER” switch will change the operation mode in succession from:

<table>
<thead>
<tr>
<th>Mode</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC</td>
<td>Accessories such as the radio will operate.</td>
</tr>
<tr>
<td>ON</td>
<td>Power ON; the Hybrid System not running.</td>
</tr>
<tr>
<td>OFF</td>
<td>All systems OFF.</td>
</tr>
</tbody>
</table>

**Locking/Unlocking operation**

- Carry remote to lock/unlock
- Front door lock
- Front door unlock*
- Trunk open

* Driver door unlocking function can be programmed to unlock driver door only, or all doors. Grasping front passenger door handle will unlock all doors.

**NOTE:** Doors may also be locked/unlocked using remote.
Fuel tank door release and cap

* It may take up to 10 seconds after pushing button for the door to open if the internal tank pressure is high.

NOTE: Tighten until one click is heard. If the cap is not tightened enough, Check Engine “CHECK” indicator may illuminate.

Light control-Instrument panel

This is also the trip meter reset button.
Hood release

Pull up latch and raise hood

Engine maintenance

1. Engine oil filler cap
2. Engine oil level dipstick
3. Windshield washer fluid tank
4. Engine coolant reservoir

Note: Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Owner’s Warranty Information Booklet,” “Scheduled Maintenance Guide” or “Owner’s Manual Supplement.”
FEATURES/OPERATIONS

Hybrid Synergy Drive System

The Hybrid Synergy Drive System utilizes a computer controlled gasoline engine and electric motor to provide the most efficient combination of power for the vehicle. To conserve energy, when the brakes are applied the braking force generates electricity which is then sent to the traction battery. In addition, the engine shuts off when the vehicle is stopped. The benefits are better fuel economy, reduced vehicle emissions and improved performance.

*Note: Fuel consumption and energy information of the Hybrid System are shown on the multi-information display and/or navigation system screen (if equipped).*

Tips for improved fuel economy

1. Ensure tire pressures are maintained at levels specified in the *Owner’s Manual*.
2. Link trips, if possible, to reduce engine cold starts.
3. Avoid driving at speeds that are higher than necessary, especially on the highway.
4. When possible, avoid sudden stops to maximize regenerative braking energy.
5. Minimize use of the Air Conditioning.

Starting the Hybrid System

1. Put the selector lever in “P.”
2. Depress the brake pedal, and press the “POWER” switch briefly and firmly.
3. The “READY” light will blink. After a few seconds, when the light remains steady and a beep sounds, you may begin driving.
**Auto lock functions**

Automatic door locks can be programmed to operate in four different modes, or turned OFF.
- Doors lock when shifting from “Park.”
- Doors lock when the vehicle speed goes above approximately 12 mph.
- Doors unlock when shifting into “Park.”
- Doors unlock when the “POWER” switch is set from ON to ACC or OFF and driver’s door is opened.

Refer to the *Owner’s Manual* for more details.

---

**Transmission**

```
<table>
<thead>
<tr>
<th>Mode</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>P</td>
<td>Park¹</td>
</tr>
<tr>
<td>R</td>
<td>Reverse</td>
</tr>
<tr>
<td>N</td>
<td>Neutral</td>
</tr>
<tr>
<td>D</td>
<td>Drive</td>
</tr>
<tr>
<td>B</td>
<td>Engine braking²</td>
</tr>
</tbody>
</table>
```

¹ The “POWER” switch must be set at ON, and the brake pedal depressed to shift from “Park.”

² The engine brake is the equivalent of downshifting. Shift to “B” when engine braking is desired (i.e. downhill driving, coasting to a stop, etc.).

---

**Steering lock release**

Gently turn wheel while pressing the POWER switch. If the lock does not release, the switch indicator will flash green.
Tilt and telescopic steering wheel

Hold wheel, push lever down, set angle and length, and return lever.

*Note: Do not attempt to adjust while the vehicle is in motion.*

Parking brake

Set: Depress
Release: Depress again

Windows-Power

Automatic down operation (driver side only) Push the switch completely down and release to fully open. To stop window midway, lightly pull the switch up.

Window lock switch Deactivates all passenger windows. Driver’s window remains operable.
Windshield wipers & washers

Adjust interval
Single wipe
Interval wipe
Slow
Fast
Pull to wash and wipe

Lights & turn signals

Headlights

- Daytime Running Light system (DRL) Automatically turns on the turn signal lights at a reduced intensity.
- Automatic light cut off system Automatically turns lights off after a delay of 30 seconds, or the lock switch on remote may be pushed.

Turn signals

Right turn
Left turn
Lane change
Lane change
**FEATURES/OPERATIONS**

### Seat adjustments-Front

<td><img src="image" alt="Seat diagram" /></td>
</tr>
</tbody>
</table>

1. Seatback angle
2. Position
3. Lumbar support (driver side only)
4. Position, cushion angle and height (driver side only)

### Seats-Head restraints

- Lock release button

### Seats-Folding rear seats

- Pull
- Fold down
Cruise control

Turning system ON/OFF

System ON/OFF

Functions

Increase speed
Decrease speed
Resume
Cancel
Set

1 The set speed may also be cancelled by depressing the brake pedal.
2 The set speed may be resumed once vehicle speed exceeds 25 mph.

Garage door opener (HomeLink®)* (if equipped)

Garage door openers manufactured under license from HomeLink®* can be programmed to operate garage doors, estate gates, security lighting, etc.

Refer to “Garage door opener,” Section 3-6 in the Owner’s Manual for more details.

For programming assistance, contact the Toyota Customer Experience Center at 1-800-331-4331, or visit http://www.homelink.com.

* HomeLink® is a registered trademark of Johnson Controls, Inc.
Bluetooth® technology allows you to place or receive calls without taking your hands from the steering wheel or using a cable to connect the compatible telephone and the system.

Refer to “Hands-free phone system (for cellular phone),” Section 3-3 in the Owner’s Manual for more details.
Multi-information display

Push “DISP” to change information in the following:
1. Outside temperature
2. Miles left on remaining fuel
3. Current gas mileage
4. Running distance from engine start
5. Average vehicle speed from engine start
6. Multi-information display OFF
7. Zoom display of odometer and trip meter
8. Energy monitor
9. Average gas mileage

Moonroof (if equipped)

Sliding operation

Push once to open; moonroof will automatically stop at the recommended position. Push again to open completely.
FEATURES/OPERATIONS

Audio

**Type 1**

- Push to turn ON/OFF
- Push to skip up/down folder
- Seek station/CD track select
- View CD text
- Eject CD
- Push to adjust tone & balance

**Type 2 other functions**

- Load CD(s)
- AM/Satellite radio
- View genre/Push to skip up/down folder

**CD PLAYER**

- To scan tracks on a disc: Push and hold “SCAN.” Push again to hold selection.
- CD changer (Type 2 only)
  - To load one disc: Push “LOAD” and insert one disc.
  - To load multiple discs: Push and hold “LOAD” until you hear a beep. Insert one disc. Shutter will close and then re-open for next disc.
- To select a file (MP3/WMA only): Turn “TUNE-FILE.”
- To select a folder (MP3/WMA only): Push either side of “FOLDER.”
RADIO

To preset stations  Tune in the desired station and hold down a preset button (1-6) until you hear a beep. Push desired preset button (1-6) to select.

To scan stations  Push and hold “SCAN” to scan preset stations. Push again to hold selection.

AUX audio jack

By inserting a mini plug into the AUX audio jack, you can listen to music from a portable audio device through the vehicle’s speaker system.

Steering wheel switches

1 “MODE”
   Push to turn audio ON and select an audio mode. Push and hold to turn the audio system “OFF.”

2 “ V A ”
   - In radio mode  Push to select a preset station; push and hold to seek the next strong station.
   - In CD mode  Push to skip up or down to next/previous track.
1. **“DUAL” button**
   - **Indicator ON:** Separate temperature settings for driver and passengers.
   - **Indicator OFF:** Synchronize temperature settings for driver and passengers.

2. Temperature (driver side)
3. Fan speed
4. Airflow vent
   - In “” or “” mode, use fresh air (”” indicator OFF) to reduce window fogging.
5. Temperature (passenger side)
6. Air Conditioning ON/OFF
7. Fresh or recirculated cabin air
8. Rear defogger
9. Windshield airflow/defogger
10. Climate control OFF
11. Automatic climate control ON

Adjusting the temperature setting will cause the airflow vents, air intake and fan to adjust automatically.
“ECO HEAT/COOL” switch

Economical mode ON/OFF

NOTE: Slightly improves gas mileage. It may take longer to reach set cabin temperature.

Plasmacluster™

Improves air quality by emitting positive and negative ions into the cabin. This system operates from the driver side vent and a low system noise is normal.

* This system adopts the plasmacluster technology, manufactured under license from SHARP Corporation. “Plasmacluster™” is a trademark of SHARP Corporation.

Seat heaters (if equipped)

Front passenger seat
Driver seat

Clock

Refer to the Owner’s Manual for adjusting time.
Door locks

Unlock

Lock

Power outlets

Instrument panel

Center console

“POWER” switch must be set at “ACC” or “ON” to be used.

Cup holders

Front

Rear
SAFETY AND EMERGENCY FEATURES

Doors—Child safety locks

Moving the lever to “LOCK” will allow the door to be opened only from the outside.

Seat belts

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner’s Manual.

Fuel filler door—Internal release

(1) Remove
(2) Pull up
SAFETY AND EMERGENCY FEATURE

Seat belts-Shoulder belt anchor

Push up, or squeeze lock release to lower

Child comfort guide

Rear seat outside position guides provide added comfort for children who have outgrown child restraints.

Tire Pressure Warning System

System reset initialization

1. Push and hold “SET” button until the indicator blinks three times.

2. Wait a few minutes to allow initialization to complete.

If tire pressure becomes critically low on any of the tires (excluding spare), indicator comes on. Pushing “SET” button should not turn off the light. Correctly adjusting tire inflation will turn off the light after a few minutes. After replacing/rotating tire or wheels, the system must be initialized.

Refer to the Owner’s Manual for more details.
