This *Quick Reference Guide* is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle’s main equipment quickly and easily.

The *Quick Reference Guide* is not intended as a substitute for the *Owner’s Manual* located in your vehicle’s glove box. We strongly encourage you to review the *Owner’s Manual* and supplementary manuals so you will have a better understanding of your vehicle’s capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new Camry.

---

**A word about safe vehicle operations**

This *Quick Reference Guide* is not a full description of Camry operations. Every Camry owner should review the *Owner’s Manual* that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the *Owner’s Manual*. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this *Quick Reference Guide* is current at the time of printing. Toyota reserves the right to make changes at any time without notice.

Keyless entry (if equipped)

Locking operation

Type A

Type B

Type C

Unlocking operation

Type A

Type B

Type C

NOTE: If a door is not opened within 60 seconds of unlocking, all doors will relock for safety.

Trunk lid

Type A

Type B

Type C

Panic button

Push and hold

Push and hold
Smart Key system (if equipped)

Start function

NOTE: Gear shift lever must be in Park and brake pedal depressed.

Power (without starting engine)

Without depressing the brake pedal, pressing the “ENGINE START STOP” switch will change the operation mode in succession from:

- **ACC**: Accessories such as the radio will operate.
- **ON**: Power ON; the engine not running.
- **OFF**: All systems OFF.

**Locking operation**

- **Front door lock**: Carry remote to lock
- **Trunk lock/unlock**: Carry remote to lock/unlock

**Unlocking operation**

- **Front door unlock**: Grasp
- **Carry remote to unlock**: Carry remote to lock

* Driver door unlocking function can be programmed to unlock driver door only, or all doors. Grasping front passenger door handle will unlock all doors.

**NOTE**: Doors may also be locked/unlocked using remote.
Fuel tank door release and cap

NOTE: Tighten until one click is heard. If the cap is not tightened enough, Check Engine “CHECK” indicator may illuminate.

Light control-Instrument panel

Brightness control
**Hood release**

Pull up latch and raise hood

**Engine maintenance**

<table>
<thead>
<tr>
<th>4 cylinder (2AR-FE) engine</th>
<th>V6 (2GR-FE) engine</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Diagram of engine components" /></td>
<td><img src="image" alt="Diagram of engine components" /></td>

</tbody>
</table>

1. Engine oil filler cap
2. Engine oil level dipstick
3. Engine coolant reservoir
4. Windshield washer fluid tank

**NOTE:** Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty Maintenance Guide.”

Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance.
**Auto lock/unlock**

Automatic door locks can be programmed to operate in four different modes, or turned OFF.
- Doors lock when shifting from Park.
- Doors lock when the vehicle speed goes above approximately 12 mph.
- Doors unlock when shifting into Park.

**Vehicles without Smart Key system**
- Doors unlock when the ignition switch is set from “ON” to “ACC” or “LOCK” and driver’s door is opened.

**Vehicles with Smart Key system**
- Doors unlock when the “ENGINE START STOP” switch is set to OFF and driver’s door is opened.

Refer to the Owner’s Manual for more details.

---

**Automatic Transmission**

* The “ENGINE START STOP”/ignition switch must be “ON” and the brake pedal depressed to shift from Park.

**“S” (Sequential) mode**

Shift the shift lever to “S” position from “D” position.

- +: Upshifting
- -: Downshifting

Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.
**Steering lock release**

**NOTE:** Do not attempt to adjust while the vehicle is in motion.

**Tilt and telescopic steering wheel**

Hold wheel, push lever down, set angle and length, and return lever.

**NOTE:** Do not attempt to adjust while the vehicle is in motion.

**Parking brake**

Set: Depress
Release: Depress again
FEATURES/OPERATIONS

**Windows-Power**

**Driver side**

![Up Down](image1)

**Window lock switch**

![Lock release button](image2)

**Automatic operation (driver’s and passenger’s side)** Push the switch completely down or pull it completely up and release to fully open or close. To stop the window partway, operate the switch in the opposite direction.

**Window lock switch** Deactivates all passenger windows. Driver’s window remains operable.

**Moon roof (if equipped)**

**Sliding operation**

Push once to open partway; again to open completely.

**Tilting operation**

Recommended driving position to minimize wind noise.

Push once to open; moon roof will automatically stop at the recommended position. Push again to open completely.

**Seats-Head restraints**

![Lock release button](image3)
Seat adjustments-Front

**Power seat***

1. Seat position (forward/backward)
2. Seatback angle
3. Height crank (driver side only)
4. Seat position, cushion angle (driver side only) and height (driver side only)
5. Lumbar support (driver side only)

* Power passenger seat equipped on some models, see Owner’s Manual for more details.

**Seat adjustments-Rear**

1. Pull

Tip: To fold rear seats, the release button is located in the trunk.

Refer to the Owner’s Manual for more details.
FEATUERS/OPERATIONS

</thead>
<tbody>
<tr>
<td>Indicator</td>
<td>Resume²/Increase speed</td>
</tr>
<tr>
<td>System ON/OFF</td>
<td>Cancel¹</td>
</tr>
<tr>
<td></td>
<td>Set/Decrease speed</td>
</tr>
</tbody>
</table>

¹ The set speed may also be cancelled by depressing the brake pedal.
² The set speed may be resumed once vehicle speed reaches 25 mph.
Dynamic radar cruise control (if equipped)

Refer to the Owner’s Manual for more details and complete safety precautions before attempting to use “Dynamic radar cruise control.”

Switch to fixed speed mode

(1) Push System ON/OFF

(2) Push and hold

To set, cancel and resume a speed Refer to “Summary of Functions” in the Cruise Control section, and to the Owner’s Manual for more details.

Distance control mode

The distance control mode will cruise at a set speed, decelerate to maintain a selected distance from a slower vehicle traveling in front of you, and accelerate back up to the selected speed if the vehicle in front changes lanes or speeds up.

To set, cancel and resume a speed Refer to “Summary of Functions” in the Cruise Control section, and your Owner’s Manual for more details.

NOTE: Once vehicle speed is set, pushing lever up toward “+ RES” will increase speed to the nearest 5 mph, and then in 5 mph increments. Pushing lever down toward “- SET” will reduce speed in the same way.

To change the vehicle-to-vehicle distance

Push the distance button to cycle through the settings, which will change progressively from LONG to MIDDLE to SHORT.
The rear view monitor system displays an image of the view from the bumper of the rear area of the vehicle. The camera for the rear view monitor system is located above the license plate.

To adjust the image on the rear view monitor screen, press the “SETUP” button and select “Display” on the “Setup” screen. Select “Camera” to adjust the screen contrast and brightness.

Refer to the Owner’s Manual for more details on this system.
Clock

To find your system, refer to page 22 of this guide,

For Entune™ Audio
Push “SETUP” button next to the screen then select “General” in the touch screen to access clock setting.

For Entune™ Audio Plus and Entune™ Premium Audio
Push “APPS” button next to the screen then select “General” in the touch screen to access clock setting.

Air Conditioning/Heating

Automatic Air Conditioning*

1 Automatic climate control ON
   Adjusting the temperature setting will cause the airflow vents, air intake and fan to adjust automatically.
2 Temperature selector (driver side)
3 Temperature selector (passenger side)
4 “SYNC” button
   Indicator ON: Synchronized temperature settings for driver and passengers.
   Indicator OFF: Separate temperature settings for driver and passengers.
5 Air Conditioning ON/OFF
6 Recirculate cabin air (outside air when OFF)
7 Airflow vent mode
   In “.hot” or “сла” mode, use outside air (“ söz” indicator OFF) to reduce window fogging.
8 Fan speed
9 Outside rearview mirror/Rear defogger
10 Windshield airflow/defogger
11 Climate control OFF

*if equipped
Manual Air Conditioning*

1. Fan speed
2. Recirculate cabin air (outside air when OFF)
3. Windshield airflow/defogger
4. Outside rearview mirror defoggers/Rear defogger
5. Air Conditioning ON/OFF
   - Use outside air to quickly cool interior, then change to recirculate for cooler air.
   - It is not possible to change intake to outside, or to turn A/C OFF in this mode.
6. Temperature selector
7. Airflow vent
   - In “Windshield airflow” mode, use outside air (“Windshield airflow” indicator OFF) to reduce window fogging. “Recirculate” mode uses outside air only.

*if equipped

Seat heaters (if equipped)
Bluetooth® technology allows dialing or receipt of calls without taking hands from the steering wheel or using a cable to connect the compatible telephone and the system.

Refer to “Bluetooth® audio/phone,” Section 5-7,8 in the Owner’s Manual, for more information about phone connections and compatibility.

Refer to “Bluetooth® device pairing section” at the end of this booklet, to connect your smart phone to the Entune™ touch screen system.
Audio

Type 1 - Entune™ Audio

- Eject CD
- Push to turn ON/OFF
- Push to display audio screen

Type 2 - Entune™ Audio Plus with Connected Navigation App Suite

1. Push to display audio screen
2a. Touch screen display
2b. Touch screen display
3. Touch screen display

- AUDIO Button
  - Access to audio functions.
- APPS Button
  - Access to traffic and weather
- APPS Button
  - Access to Entune® App Suite, sports, stocks, news, traffic and weather
- HOME Button
  - Access to Home screen.

HOME SCREEN - the home screen offers a two panel and a three panel layout. Information and layout will vary depending on selected set up.

Type 3 - Entune™ Premium (JBL®) Audio with Integrated Navigation and App Suite

Some XLE and XSE models may be equipped with the JBL upgrade in this unit.

1. Push to display telephone option screen
2a. Touch screen display
2b. Touch screen display
3. Touch screen display

- AUDIO Button
  - Access to audio functions.
- APPS Button
  - Access to traffic and weather
- APPS Button
  - Access to Entune® App Suite, sports, stocks, news, traffic and weather
- HOME Button
  - Access to Home screen.

1 Refer to the “Navigation System Owner’s Manual” and “2016 Entune™ Audio Quick Reference Guide.”
By connecting a USB-compatible portable audio device or USB memory to the USB port, you can listen to music from the portable audio device or USB memory through the vehicle’s speaker system.

By inserting a mini plug into the AUX port, you can listen to music from a portable audio device through the vehicle’s speaker system while in AUX mode.

A mobile device can be charged wirelessly on the tray. Open the lid and press the wireless charger switch. Place a mobile device on the tray as shown in the illustration. An amber indicator is illuminated while charging is in progress. When charging is complete, a green indicator will also be illuminated. Some phones, cases or cover type wireless chargers may not cause the green indicator to illuminate even though it is fully charged.

Refer to the Owner’s Manual for more details on this system before attempting to use it.
FEATURES/OPERATIONS

**Bottle holders/Cup holders**

Front

Rear

* If equipped

**Multi-Information display**

Push “meter control switches” to change information in the following:

1. Drive information
2. Navigation system linked display
3. Audio system linked display
4. Dynamic radar cruise control*
5. LDA (Lane Departure Alert) status*
6. Warning messages
7. Settings display
8. Tire pressure monitoring (warning) system*

* If equipped
Pre-Collision System (PCS) (if equipped)

When a high possibility of a frontal collision is detected by the radar sensor, a buzzer sounds and a message urging the driver to take evasive action appears on the multi-information display. If the driver then applies brakes, the system applies greater brake force in relation to how strongly the brake pedal is depressed. If the system determines that a collision is unavoidable, the brakes are automatically applied to reduce the collision speed.

Refer to the Owner’s Manual for more details on this system before attempting to use it.

Lane Departure Alert (LDA) (if equipped)

The Lane Departure Alert recognizes the visible lane markers using a camera as a sensor and alerts the driver with beeping and flashing indicators when the vehicle deviates from its lane. Press the LDA switch to activate the system.

Refer to the Owner’s Manual for more details on this system before attempting to use it.
NOTE: If a passenger’s seat belt is fully extended, then retracted even slightly, the Automatic locking retractor (ALR) will prevent it from being re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner’s Manual.
Seat belts-Shoulder belt anchor

Push up, or squeeze lock release to lower

Safety Connect (if equipped)

1. Microphone
2. LED Indicators
3. “SOS” button

Safety Connect is a subscription-based telematics service that uses Global Positioning System (GPS) data and embedded cellular technology to provide safety and security features to subscribers. Safety Connect is supported by Toyota’s designated response center, which operates 24 hours per day, 7 days per week. Services for subscribers include: Automatic collision notification, Stolen vehicle location, Emergency assistance button and Enhanced roadside assistance.

Contact your dealer for more information about Safety Connect.

Trunk-Internal release

Pull up

Contact your dealer for more information about Safety Connect.
SAFETY AND EMERGENCY FEATURES

Spare tire & tools

Tool location

1. Jack
2. Jack handle
3. Luggage floor cover
4. Wheel nut wrench
5. Spare tire

Removing the spare tire

(1) Remove the tool tray.

(2) Loosen the center fastener that secures the spare tire.

Refer to the Owner’s Manual for tire changing and jack positioning procedures.
All new Toyota vehicles come standard with the Star Safety System™, which combines Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology (SST).

**Vehicle Stability Control (VSC)**

VSC helps prevent loss of traction during cornering by reducing engine power and applying brake force to selected wheels.

Toyota’s VSC monitors steering angle and the direction your vehicle is traveling. When it senses that the front or rear wheels begin to lose traction, VSC reduces engine power and applies braking to selected wheels. This helps restore traction and vehicle control.

**Traction Control (TRAC)**

VSC helps prevent loss of traction during cornering by reducing engine power, and Traction Control helps maintain traction on loose gravel and wet, icy, or uneven surfaces by applying brake force to the spinning wheel(s).

Toyota’s TRAC sensors are activated when one of the drive wheels starts to slip. TRAC limits engine output and applies the brakes to the spinning wheel. This transfers power to the wheels that still have traction to help keep you on track.

**Anti-Lock Brake System (ABS)**

ABS helps prevent brakes from locking up by “pulsing” brake pressure to each wheel. This limits brake lockup and helps provide directional control for the current road conditions.

Toyota’s ABS sensors detect which wheels are locking up and limits wheel lockup by “pulsing” each wheel’s brakes independently. Pulsing releases brake pressure repeatedly for fractions of a second. This helps the tires attain the traction that current road conditions will allow, helping you to stay in directional control.

**Electronic Brake Force Distribution (EBD)**

Toyota’s ABS technology has Electronic Brake-force Distribution (EBD) to help maintain control and balance when braking. Abrupt stops can cause a vehicle to tilt forward, reducing the braking power of the rear wheels. EBD responds to sudden stops by redistributing brake force to enhance the braking effectiveness of all four wheels.

**Brake Assist (BA)**

Brake Assist is designed to detect sudden or “panic” braking, and then add braking pressure to help decrease the vehicle’s stopping distance. When there’s only a split second to react, Brake Assist can add additional brake pressure more quickly than just the driver alone can.
Smart Stop Technology (SST)

Smart Stop Technology automatically reduces driving torque when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour.

SST doesn’t engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

Floor mat installation

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

Always align the Δ marks
BLUETOOTH® DEVICE PAIRING SECTION
BLUETOOTH® DEVICE PAIRING

To begin the Bluetooth® Pairing process, press the HOME button on the faceplate of your Toyota Vehicle Entune™ Multimedia Head Unit.¹

Bluetooth® Pairing for Android® phone and Entune™ touch screen system

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.²

Initiate Bluetooth® on your Android®

![Initiate Bluetooth® on your Android®](image)

**STEP 1**
From your **APPS SCREEN**, select **SETTINGS**

**STEP 2**
Select **CONNECTIONS** and select **BLUETOOTH**

**STEP 3**
Ensure **BLUETOOTH** is **ON**

**STEP 4**
Select **YOUR PHONE DEVICE** to make it discoverable.

*Phone will seek out Bluetooth devices while remaining discoverable.*

**STEP 5**
While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

---

1 To determine which head unit is installed in your vehicle, refer to the Audio section in this guide.
2 Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.
Initiate Bluetooth® on your Entune™ Multimedia Head Unit

Once you have Bluetooth enabled on your phone and ready to pair, you will need to initiate Bluetooth on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

**STEP 6**
On your Toyota Vehicle Entune Multimedia Head Unit, Select **SETUP BUTTON** on the Home Screen.

**STEP 7**
Select **BLUETOOTH**

**STEP 8**
Select **ADD**, to add your phone device

**STEP 9**
Back on your smartphone, you can now select your **TOYOTA VEHICLE** in Bluetooth Settings. You may need to enter the provided Bluetooth PIN on your phone.

**STEP 10**
Your smartphone is now paired with Entune.

**STEP 11**
Once paired, Entune will attempt to connect audio and contacts on your phone.
Initiate Bluetooth® on your Entune™ Multimedia Head Unit

**STEP 12**

Using your smartphone, you will need to allow Entune access to your messaging and contacts.

*It is recommended to check the “Don’t ask again” box, so as not to have to press OK every time the phone makes a Bluetooth connection with your Toyota.*

**STEP 13**

A confirmation will appear once your phone has been paired and connected.

### Additional Resources

If you’re having trouble pairing your phone, Toyota has you covered. You can get more information from the following sources:

- **Online Pairing Guide:**
  - [www.toyota.com/connect](http://www.toyota.com/connect)

- **Your Toyota Owner’s Manual**
  - *Located in the vehicle glovebox*

Phone will seek out Bluetooth devices while remaining discoverable

**STEP 5**
While your iPhone device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.
Initiate Bluetooth® on your Entune™ Multimedia Head Unit

Once you have Bluetooth® enabled on your phone and ready to pair, you will need to initiate Bluetooth® on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

**STEP 6**
On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.

**STEP 7**
Select BLUETOOTH

**STEP 8**
Select ADD, to add your phone device

**STEP 9**
Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.

**STEP 10**
Your smartphone is now paired with Entune.

You may need to enter the provided Bluetooth PIN on your phone.

**STEP 11**
Once paired, Entune will attempt to connect audio and contacts on your phone.
BLUETOOTH® DEVICE PAIRING

Initiate Bluetooth® on your Entune™ Multimedia Head Unit

**STEP 12**
Using your smartphone, you may need to allow Entune access to your contacts

**STEP 13**
A confirmation will appear that your phone has been paired and connected.

**Additional Resources**
If you’re having trouble pairing your phone, Toyota has you covered. You can get more information from the following sources:

- Online Pairing Guide: www.toyota.com/connect
- Your Toyota Owner’s Manual
  *Located in the vehicle glovebox*
- Toyota Customer Experience Center
  *(800) 331-4331*

**Disclosures**
This brochure is accurate at the time of print; content subject to change based on periodic multimedia software updates.
1. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you.
2. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth enabled phone must first be paired. Phone performance depends on software, coverage & carrier.
3. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See Toyota.com/entune for details.
