WHAT IS ALEXA ON ENTUNE APP SUITE?

Entune App Suite now has Amazon’s cloud-based voice service embedded in the application.

With Alexa on Entune App Suite, you can take Amazon Alexa on the road with you and conveniently access the tens of thousands of skills and services. You can listen to audiobooks, play your favorite music, make lists, check the weather, get news briefings, and much more. You can also use it to control compatible smart-home devices such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa even syncs to your native navigation system to provide on-the-go recommendations.

ALEXA SETUP: APPLE

1. Ensure your Toyota vehicle’s Premium Audio touchscreen has a physical APPS button, then download and install Toyota Entune from the iOS App Store.

2. Once Toyota Entune has successfully installed, open the app. Tap “OK” to allow the app to use Bluetooth, which is needed to connect to your vehicle’s head unit.

3. Continue with the login process by entering your Entune credentials or signing up for a new account.

4. First time users may be prompted for various permissions. Select “Allow While Using the App” for location-based services from Entune to work.

Sample Alexa Utterances

“Alexa, what’s the weather today?”
“Alexa, find a top-rated Thai restaurant nearby.”
“Alexa, play chill vibes.”
“Alexa, what’s in the news?”

“Alexa, what movies are playing?”
ALEXA SETUP: APPLE (CONTINUED)

5. Select “Allow” to let the app send push notifications.

6. Once on the Dashboard screen of the app, click the card with the Alexa icon.

7. Click the “Get Started” button to link your Amazon account so you can use Alexa in-vehicle through Entune App Suite.

8. Enter your Amazon credentials and tap “Sign-in” or Create a new Amazon account.

9. If you agree, select “Allow” to access Alexa Voice Services and Alexa account connection.

10. Select “Use location” so location-based Alexa services will work.

11. Select “OK” for access to the microphone so Alexa can hear your questions and commands.

12. Scroll through the Help screens or tap Skip to complete the Alexa linking process.

13. Swipe left to continue with the Help screens, or tap Skip to complete the Alexa linking process.

Notice on the App Suite screen that your Amazon account is now linked.

On the Dashboard screen, notice the Alexa card indicates Alexa is ready. Proceed to connect your mobile device to your vehicle head unit via Bluetooth to use Alexa.

To use Alexa in-vehicle through Entune App Suite, be sure to connect your mobile device to your vehicle head unit via Bluetooth. Once connected, tap the Apps menu and select the Alexa app. Then just say, “Alexa”, followed by your question or command.

To use the Alexa app, ensure the Toyota Entune app is open on your mobile device and say, “Alexa”, or use the Push to Talk button and say, “launch Alexa”.
