The 2020 Toyota GR Supra is one seriously special vehicle, and so is its audio multimedia platform. This system is available in two different versions and has some incredible features available, like a 12-speaker JBL® audio system, a full range of connected services (including Toyota’s first-ever Wireless Apple CarPlay®), and an advanced onboard navigation system. Let’s take a closer look.

SUPRA CONNECT REGISTRATION

Activate your 4-year trial to Supra’s connected services*. Simply download the Toyota Supra Connect app for your iPhone® or visit www.supraconnect.com to get started. You will also need to have access to the vehicle to complete the app and website registration processes. To learn more about the features included within Supra’s connected services, see Page 5.

* To opt-out online, visit www.supraconnect.com. Log in and click Manage Vehicles, click Deactivate Mobile Network Connection, then click Deactivate.
** Toyota Supra Connect app not available for Android™ devices. Please visit www.supraconnect.com to complete your web registration process.

How to Register – App Process

1. On your iPhone, download and install the Toyota Supra Connect app from the App Store.
2. Review the Terms of Use and Privacy Policy*, then tap Agree if you accept.
3a. If you don’t have an account yet, tap New User? Create Account. Proceed to Step 4.
3b. If you already have an account but have not linked your Supra, enter your credentials and tap Login to sign in. Proceed to Step 6.
3c. If you already have an account with a linked Supra, enter your credentials and tap Login to sign in. Proceed to Step 11.

* Review the Terms of Use and Privacy Policy through the Data privacy policy link located at the bottom of www.supraconnect.com.
How to Register – App Process (Cont.)

4. Fill out your personal identification information, then tap Create Account.

5. Once you receive your account confirmation email, click on the activation link to verify your account.

6. Create a four-digit PIN for login and Remote Services commands.

7. Tap Add Vehicle.

8. Link your vehicle to your account by (a) connecting your iPhone to the Supra via USB® or (b) manually entering in the vehicle identification number (VIN) and tapping Verify.

9. Review your account information, then tap Continue.

10. Retrieve the six-digit code sent to the Supra audio multimedia system, then enter it into the app and tap Confirm Vehicle.

11. Success! You’re now set up and can view your personal Toyota Supra Connect dashboard.

Note: The six-digit code is only valid for four hours. If you don’t receive the six-digit code or it has been longer than four hours, please tap Re-send Code.
How to Register – Web Process

1. Go to www.supraconnect.com

Note: Please have your vehicle identification number (VIN) readily accessible.

2a. If you don’t have an account yet, click Register. Proceed to Step 3.

2b. If you already have an account but have not linked your Supra, click Login to enter your credentials. Proceed to Step 4.

2c. If you already have an account with a linked Supra, click Login to enter your credentials. Proceed to Step 8.

3. Fill out your personal identification information, then click Register.

4. Click Add Vehicle.

5. Enter the vehicle identification number (VIN), create an optional vehicle name, then click Check Data.

6. How to Register – Web Process
How to Register – Web Process (Cont.)

6. Review the Terms & Conditions, then click **Add Vehicle**.

7. Retrieve the six-digit code sent to the Supra audio multimedia system, then enter it into the website and click **Confirm Security Code**.

8. Success! You're now set up and can view your personal Toyota Supra Connect dashboard.

Note: The six-digit code is only valid for four hours. If you don't receive the six-digit code or it has been longer than four hours, please click **Request New Security Code**.
Supra’s online offerings go far beyond Wireless Apple CarPlay\(^2\). They also include a **trial for up to four years of connected services** provided through a registered Toyota Supra Connect\(^4\) account. Accessible through the Connected Services menu on 8.8-inch displays, these features work through the vehicle’s own onboard 4G cellular data module. Let’s review!

### Automatic Collision Notification

If an emergency response is triggered by the vehicle\(^8\), an **Automatic Emergency Call**\(^9\) will be **established** with a specialized agent to assess the situation. The **vehicle itself will also begin transferring data** to the response center about the incident:

- Vehicle location
- Airbag deployment
- Rollover detection

### Remote Services

Remote Services\(^11\) allow certain vehicle functions to be **controlled from the Toyota Supra Connect mobile app**\(^6\) or website:

- Access vehicle location (app only)
- Flash the lights and sound the horn
- Lock and unlock the doors
- Ventilate the cabin
- Send a destination to the vehicle

### Remote Maintenance

Remote Maintenance’s **BatteryGuard**\(^12\) feature is able to notify owners by sending an email if the vehicle’s battery level falls too low.

With Remote Maintenance’s **Breakdown Call** feature, **roadside assistance can be requested**\(^12\) by selecting Toyota Supra Assistance from the audio multimedia system. Roadside assistance is included for 2 years and unlimited mileage.

### Concierge

Supra also offers **24-7 access to a live agent**\(^13\) at a Toyota Supra Connect response center. Just ask for what you need and the agent will be able to **send information and navigation guidance directly to your vehicle**. Example requests include:

- Get directions to a nearby grocery store
- Add a stop at the bank along the way
- Find a highly rated restaurant or hotel
- Get the phone number for the nearest Toyota dealership

### Stolen Vehicle Recovery

If the Supra is stolen and a police report filed, the Stolen Vehicle Recovery system\(^14\) can assist. Just contact the Toyota Customer Experience Center (1.800.331.4331) and an agent will attempt to **retrieve the coordinates of the vehicle** in order to help local police successfully recover it.

### Wireless Apple CarPlay

Apple CarPlay\(^5\) is the best way to stay connected to your iPhone\(^5\) in the vehicle, and that gets even better with Supra’s **wireless connectivity**. And combined with the available **Qi wireless charging tray**\(^15\), plugging in your iPhone has truly become a thing of the past. Popular apps include: Phone, Messages, Music, Podcasts, Maps, and third-party apps: Spotify\(^16\), Waze\(^17\), and more!

**8.8-in. touchscreen display shown.**
ONBOARD NAVIGATION

Supra’s 8.8-inch audio multimedia systems come equipped with a fully integrated navigation system. This system works hand-in-hand with many of Supra’s connected services, like Real Time Traffic Information and Concierge. It even allows destinations to be entered via the Toyota Supra Connect app or website.

This navigation system also allows for intuitive destination entry through features like touchpad writing and voice recognition, and it includes all the typical functionality you’d expect, like detailed multi-stop guidance, route customization, stored home addresses and much more – all presented through a clean and intuitive interface.

SYSTEM LINEUP

6.5” Display with Supra Command (GR Supra 3.0)

Base model Supras are equipped with a 6.5-inch display that can be controlled through the Supra Command controller located along the center tunnel. This system does not offer any of the connected services mentioned in this document, but it does include 10 speakers, Bluetooth connectivity, AM/FM radio and SiriusXM satellite radio with a three-month trial subscription.

8.8” Touchscreen with Supra Command (GR Supra 3.0 Premium & Launch Edition)

Standard on 3.0 Premium and Launch Edition models (and an available upgrade on 3.0 base models), this system features a wide 8.8-inch touchscreen with an enhanced Supra Command controller that enables touchpad-style text input. It comes complete with a JBL audio system, Voice Recognition, integrated navigation, Wireless Apple CarPlay and a 4-year trial of Toyota Supra Connect services.

JBL AUDIO

12 Speakers, 500 Watts

While the base model’s 10-speaker, 205-watt system is nothing to scoff at, it can’t compare to the upgraded JBL setup that comes on 3.0 Premium and Launch Edition models (and is an available upgrade on 3.0 base models).

This system is composed of:
- Five 26mm high-frequency speakers (“tweeters”)
- Five 100mm mid-range speakers (“woofers”)
- Two 220mm low-range speakers (“subwoofers”)

These 12 speakers are powered by a 500-watt, seven-channel amplifier with dynamic sound tuning that’s designed to recreate the live ambience that the artist intended.

This system also offers a seven-band equalizer, for those who’d prefer to fine-tune their own sound.
DISCLOSURES

1. JBL is a registered trademark of Harman International Industries, Inc. 2. Not available on Supra vehicles with a 6.5-in. display screen. Apps and services are subject to change at any time without notice. Data charges may apply. Apple CarPlay is a trademark of Apple Inc. 3. Not available on Supra vehicles with a 6.5-in. display screen. Includes a 4-year trial period. Enrollment in paid subscription required upon expiration of trial period. Service depends on an operative telematics device, a cellular connection, navigation map data and GPS signal strength, and other factors, all of which can limit service functionality or availability. Service not available in every city or roadway. Use common sense when relying on information provided. Service subject to change at any time without notice. For service details and limitations, see your Navigation System Owner’s Manual or supraconnect.com. 4. Not available on Supra vehicles with a 6.5-in. display screen. Includes a 4-year trial period, except Enhanced Roadside Assistance which is a 2-year period. Enrollment in a paid subscription required upon expiration of trial period.
